Mrs. Fish was the younger daughter of Rev. C. Perrin, pastor of the Baptist Church, Georgetown, over thirty years ago. Dr. Perrin is in poor health, and has not been told of the tragedy, as it is feared that the shock would kill him.

## M'KINLEY'S SLAYER

\$26 a Year to Keep Parents of Czolgosz From Poorhouse,

Cleveland, O., Sept. 29.—City aid to the aged and poverty-stricken parents of Leon Czolgosz, assassin of President Whiliam McKinley, has been given promptly but in small amounts. The old man, 83, and his wife, 75, were sent a package of food to-day. It was worth in money \$1. That package will be repeated each two weeks, an outlay of \$26 in the year. In the winter two tons of coal will be supplied them to heat their little two-room apartment for which they must find \$4 a month rental. Two tons of coal and \$26 worth of food a year is the limit of the city's ability in giving charity. It was this or the poorhouse for the aged pair.

"Never the poorhouse," moaned the old man, proud even though he and his wife are outcasts through no act of their own.

# MARKETS AND FINANCE

During the past month mining engineers representing English and French investors have been going through the Cobalt district of Canada, making careful examinations of various properties. Their reports uniformly show they were favorably impressed with the wealth of the district.

J. M. Blimer, manager of the Cobelt Central properties, reports the uncovering of several large hodies of ores containing free silver in the Big Pete Mine. This confirms the views of meav mining engineers that Cobalt values go to great depths.

**COBALT NOTES** 

Interests connected with the Davis-Daly Estates Copper Company declare that large chipments of ores to the Washes emelter will be begun before long. At present the ship-ments amount to only thirty tons a day and recresent the ore mined by the lessees of the Lizzle claim.

F. Augustus Heinze has received reports from Wallace, Idaho, to the efect that the 204-ton concentrator at the Stewart mine has been completed and will be put in operation before the end of September. The output of the Stewart now approximates 300 tons deity and this ore has been ctored for some atme awaiting the completion of the mill.

Engineers who have been examining the Gamey mine of the Cobelt Central, reports that the rich veins of the Conjags mine, next adjecting the Gamey, run right though the latter property. As the Conjags generally is considered one of the richest 40-arre blocks in the Cobalt camp the outlook for the Cobalt Central's Gamey is promising.

Enforcement of the Liquor Law

Discussed Yesterday.

Hamilton W. C. T. U. held its regular eeting yesterday in the Y. W. C. A The subject for consideration was the laws regarding the liquor traffic that are most frequently broken and fic that are most frequently broken and what can be done to prevent their violation. The question first propounded was: Is law enforcement woman's work? The answer: Yes, the least of the creatures of the field will sacrifice her life to protect her young from danger. The legalized liquor traffic is a daily menace to homes and loved ones. Who, then, will argue that woman should not equal the lower creation in her efforts to combat this and every danger? Instances were lower creation in her efforts to combat this and every danger? Instances were related of flagrant violations of the law in tempting and even forcing boys and young men, under age, to drink. Selling during prohibited hours and how the woman can best help to prevent it also came in for discussion.

A Rally Day was arranged for the first Thursday in October, and several other items of business transacted.

## BINDER TWINE.

Cost One Firm Over \$10,000 For Selling Short Twine.

L. Haycock, Dominion inspector of binder twine, who is now in the city, says that while in the west he imposed fines amounting to \$3,600 for short twine. One American firm was fined \$1,400, but as an illustration of the far-\$1,400, but as an illustration of the far-reaching results of such a fine, it actually cost the company \$13,000 by being forced to retag what was in the hands of the dealers. Some 250 tons had to be retagged, reducing its value \$40 per ton, making the loss of \$10,000. There' were other cases somewhat similar, but this was the worst.

The deficit for the Pacific cable last year was \$335,340. Of this amount Can-ada will have to pay \$93,150.

Poisoned Husband Philadelphia, Sept. 20.—Because Frank Keroyski, aged 40 years, refused to obey his wife's order to leave her, she poisoned him with arsenic, according to officials of the coroner's office. The widow, together with her sister's husband. Joseph Durrock, were arrested yesterday, charged with the crime. The widow, according to the coroner's officials, was in love with Durrock, and wanted her husband out of the way in order that she might live with Durrock. A city chemist found enough arsenic in Kerovski's viscera to kill ten men. 

an advance in lumber tariffs of 10 to 25 per cent. This will materially add to the earnings of the Hill lines. So much lumber is moved from the State of Washington that empty cars are run from the east to handle it. Attention is called to the great stringency of the trust companies, which proved to be in a very uncertain position in the 1903 period of stock market liquidation. This is chiefly due to increases in cash reserves as provided by law. Comptroller Ridgley says the West is prepared for a business reaction, but the feeling is, that having weathered what was really a stock panie this summer, the country will get along itself through receipts from farm products. He says the banking position is unusually sound. Bonds are very strong to-day. We favor purchases on any recessions.—Ennis & Stoppani.

SCENE AT LABOR CONGRESS BAN-OUET AT WINNIPEG.

Delegates Who Refused Toast Indignantly Protested at Statement That They Were Americans—Jap and Hindu Immigration and Other Matters Con-

Winnipeg, Sept. 19 .- The Labor Congress had a busy session to-day. J. C. Walters, Trades and Labor Council, Victoric, moved that "Whereas in the interests of the white race settlement and development of Canada is necessary by the white race, and whereas the material progress of the race can only be measured by the standard of living obtaining amongst its members, and whereas the recent influx of East Indians, known as Hindus, into Canada, has a pronounced tendency to lower the standard of living of the white race by reason of their non-assimilativeness, differing social and domestic customs, and by their being brought into competition for the opportunity fo earning a living, therefore, be it resolved, that the Dominion Government be asked to take such action as will prevent their entering Canada."

Fight Over Lemieux Bill.

There was a battle royal at the congress this afternoon over the Lemieux Act, the new law which prevents men from striking before an investigation. Mr. R. Hungerford, of Toronto, seemed to insinuate that political reasons induced the executive to endorse the Government bill without due consideration of the interests and wishes of organized labor. He charged Vice-President Simpson, also of Toronto, with having opposed the insertion of a clause preventing an employer from reducing wages pending an investigation. Fight Over Lemieux Bill.

Francis W. Boulmers moved resolutions as follows in part: "That this congress urge the Dominion Government to pass a law making punishable by fine or imprisonment the failure of contractors to live up to the failure of all undesirable citienzs, believing the influx of Asiatic labor to be due to an organized plot of capitalists to introduce cheap labor. That the Government be urged to pass a compulsory arbitration act." The latter was referred to the Constitutional Committee.

tional Committee.
H. J. Jaxon, fraternal delegate from the Western Federation of Miners, made a remarkable speech. He was formerly a lieutenant to Louis Riel. He put the Idahe labor troubles in a new light, and a telegram of congratulation and sympathy was afterwards sent by the congress to Haywood

a telegram of congratulation and sympathy was afterwards sent by the congress to Haywood.

Rev. Hamilton Wigle, of the Ministerial Association, said they dreaded the Mongolian invasion. They wished to evangelize the Asiatics, but would prefer to do so in their own country.

Senator McMullen's bill to make it a criminal offence for international officers to intervene in industrial disputes in Canada was touched upon, and the Senator was scathingly criticized.

In the evening the congress was entertained at a banquent by the local Trades and Labor Council, the guests numbering 250. Some did not honor the teast to the King, and the statement that these were Americans called forth an indignant denial from Delegate Maloney.

salvation Army methods encouraging inamigration were severely criticized, and it was suggested that the appointment of an agent might encourage the best immigrants, and would counteract the in migrants, and would counteract effects of misrepresentation. Orga labor was not opposed to immigra but to misrepresentation. The retion then carried, appointing a contee with power to select an agent, expenses to be met by a collection o cents per capita per year from unions.

unions.

A. Anderson, of Montreal, moved that no more grants of public lands be made to any but bona fide settlers, that pressure be put on the Provincial and Dominion Governments to conserve the remains of the public domain, and that lands previously granted to corporations or speculators under conditions not fulfilled, be confiscated and opened to settlers.

John G. O'Donoghue, Parliamentary representative, Ottawa, reported on the work of last session. The most trouble-some question to the executive that came before the House was the indussome question to the executive that came before the House was the industrial disputes investigation act. In this connection he asked the members to wait til the executive presented its report before criticizing its action and so embarrassing it in its representations at Ottawa. In presenting its case it was often met with the retort that the policy of the exeutive was not approved by labor men over the country.

R. C. Owens, delegate of the Canadian Society of Equity, gave an account of the Canadian Society of Equity, gave an account of the Canadian Society of Equity, formed on lines of the American society, which was first formed near Edmonton two years ago, and since then 3,000 farmers in Alberta had joined it.

Christian Sivertz, of Victoria, gave an otice of motion "that the convention reaffirms the approval of congress of the \$500 poll tax imposed on Chinese as an effective check on that class of Asiatic immigration; but is of the opinion that legislative measures ought to be enacted that would prevent the refunding of the said \$500 poll tax on any pretext."

pretext.

New York, Sept. 20.—Jehanna Hae-fer, aged 22 years, a waitress in a Tenth Arenne bakery, to-day was shot and in-stantly killed by John Fischner, a form-er employee of the store, because she had refused to marry him. Fischner then shot himself and was removed to a hos-pital in a dying condition.

What is the most dangerous kind of assassin? The man who takes life cheerfully.
