MA, AFTER FIVE YEARS' SUFFERING.

MA, APTER FIVE YEARS' SUPPRESING.

The following testimonial has been sent to Professor Holloway, by a gentlemen named Middleton, of Scotland Road, Liverpool.

Sir,—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period, I have selfered the most dreadful attacks at Asthma, frequently of several weeks' duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was unfitted for any of the aspire duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest reliof. As a last remedy, I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigor to the chest and digestive organs.

OF MANY YEARS' DURATION.

cil, to Professor Bollosay.

Dear Sir,—In this district your Pills command a more extensive sale than any other pr opristary saidicine before the public. As a proof of their efficacy in Liver and Billous complaints, I may mention the following case: A lady of this town, with whom I ampersonally acquainted for years, was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement naturally caused great slarm emong her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them antil she received a perfect cure. This is twelve months ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.

Among the numerous discoveries Science has made in this generation to fucilitate the business of life—increase its enjoyment, and even prolong the term of a man existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this braid country, has proven beyond a doubt, that no medicine or combination of medicine yet known, as an so surely central and care the numerous varieties of pulmonary disease which have hitherte swept from the company of the combination of medicine yet known, as an existence which have hitherte swept from the company disease which have hitherte swept from the company disease which have hitherte swept from the company depends and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to care the most dangerous affections of the lungs. J. C. Ayra. Dear Sir,—My little son four years
old has just recovered from a severe attack of malignant Scartet-Fover, his throat was rotten, and every
person that visited him, pronounced him a dead child.
Having used your Cherry Protonal in California, in the winter of 1850, for a severe attack of
Bronchitis, with entire succes, I was induced to try
it on my little boy. I gave him a tea-spoon-fel every
three hours, commencing in the morning, and by ten
o'clock at night, I found a decided change for the
better, and after three days use he was able to eat or
drink without pain.

better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxioty of many a fond parent.—For all affections of the Threat and Langs, I believe it the best medicine extant. A feeling of the deepest gratitude, prempts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.
