ARRIVAL OF THE "PACIFIC."

New York, January 25, 1855.

The "Pacific" arrived at New York this morning. The news is important.

The eastern question has assumed an entirely new and most important aspect.

The Cnar has accepted not only the four points of guarantee, but also the interpretation thereof, as explained by England, France and Austria; but no armistice is granted, consequently hostilities continue without abatement.

Biege of Sebastopol continues without change

SECOND DESPATCH.

A second despatch to the St. John News Room says—It is yet doubtful whether Russia's acceptance of the four points is unconditional or with important explanations. The immediate effect of this new phase of a fixire was the rise of 2 per cent., but they afterwards fell off.

Prussis claims to take part in the negotiations but declines at present to increase her

The Russians have recrossed the Danube, invaded the Dobrudscha and retaken the cities Juntehess and Ridsch.

Larzer—Reported invasion of the Dobrudscha by the Russians doubtful.

DERANGEMENT OF THE LIVER DERANGEMENT OF THE LIVER
le one of the most common, as well as the most formidable of diseases known to American Physicians. It had for years attracted the closest attention of the medical faculty in the United States, and yet up to the time of the discovery of Dr. M'Lane's great Specific, it was almost beyond the reach of medical skill. Thousands had perished without even a hope of relief, and although thousands may yet be destined to feel the direful effects of this most complicated disease it is now, thanks to the research of Dr. M'Lane, most completely brought within the coppe of medical control. The proprietors of the Liver Pills feel confident that they offer a remedy which has been fully tested by time, and which has never failed of success when fairly tried.

There are other Pills, and take none class. There are other Pills, and take none class. There are other Pills purporting to be Liver Pills, also his Celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States and Canada.

THE CHEST.

Feb. 7th, 1856.

THE CHEST.

SIR ASTLEY COOPER, BART., M. D., the eminent Medical Practitioner, has left a valuable legacy to the world, in his GREAT PREVENTIVE OF CONSUMPTION, and unfailing cure for Pulmonary Discases, without the use of Medicine. Sir A. C. Bart., invented and advised the use of the MEDICATED FUR CHEST PROTECTOR to all persons of all ages and conditions, as a certain and safe shield against those fearful discases, Consumption, Bronchitis, Asthma, Coughs, Colds, and other affections of the Lungs, which arises from the exposed state of the chest, according to fashion, and the continual changes of our climate.

"The Protector" is simply a chemically-propared for, lined with silk and padded, which, suspended from the neck, covers the chest in so agreeable a manner, that, once worn, it becomes a necessity and a comfort.

"The Protector," atthough but recently introduced into America, is making rapid progrees through the United States, the Canadas, South America, and the West Indies. It has for a long time been a staple article in England, and on the Continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate these facts, enquire of any English resident in your vicinity of his knowledge of the beneficial effects of wearing the Protector, without them. The hospitals in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co., of London, and Manchester, England, were originally entrusted with the manufacture of the Protectors, by the lamented Dr. Cooper, and confidence in a facture according to his original instructions, and therefore recommend those who would wear "The Protectors," to see to their being genuine.
