TORONTO WHOLESALE MARKETS-WEEKLY REVIEW.

The past week has witnessed no improvem in the condition of this market. Offerings have been small, but apparently sufficient, save in the case of oats, of which more has been wanted. Buyers have generally held off, and there have been apparently no orders in the market for anything. Prices have, however, shown no de cline save in the case of barley, which is decidedly weaker. Stocks on hand have shown a slight increase, and stood on Monday as follows:-Flour, 8,592 bbls.; fall wheat, 84,033 bush.; spring wheat, 72,059 bush.; oats, nil; barley, 438,996 peas, 51,498; and rye, 12,707; bush.; against on the same date last year-Flour, 15,724 bbls.; fall wheat, 154,534 bush.; spring wheat, 157,545; oats, 4.960; barley, 183,838; peas, 52,089; and rye, 2,776 bushels. Outside advices show English markets to have been tending downwards; quotations show a fall during the week of 6d. on flour; of 2d. on red wheat; of 1d. on other sorts, and of 1jd. on corn. Markets have been decidedly quiet and prices weak during the last three days; dur ing last week they were not much better; and all this has been in face of decreasing supplies, which last week were below the average con-sumption. Imports then amounted to 195,000 to 200,000 grs. of wheat, and 160,000 to 165,000 barrels of flour, and home deliveries to 147,734 quarters, 546 quarters of wheat, against an average weekly consumption of 454,000 quarters. The nantity of wheat and flour in transit on the 20th inst. again showed a slight increase, and amounted to 2,425,000 qrs., against 2,368,000 qrs. on the 13th inst., and 2,162,000 qrs. on the corresponding date in 1880. Mail advices state that the import of wheat and flour into the United Kingdom from August 29th to December 31st, 1880, amounted to 5,972,000 qrs., against 7,157,000 qrs. last year; and the total deliveries from farmers in the whole of the United Kingdom during the same time were computed to have amounted to 3,018,000 qrs., against 2,160,000 qrs. last year, making the total 9,817,000 qrs. in the corresponding period of the preceding harvest-year, being a decrease of 327,vest-year, Mail advices bring in detailed reports of the stocks of wheat and flour at sixteen leading ports, which is equal to 1,153,000 quarters of wheat, against 2,113,000 last year; and adding to this 71 per cent. for the stocks at non-reporting parts it appears that the total stocks at non-reporting parts it appears that the total stocks of wheat and figur in the United Kingdom, in first hands are 1.280,000 quarters, against 2.290,000 quarters at corresponding date last year—a decrease of 1.080,000 quarters; and the present stocks are lower than they have been in any previous year since December, 1874, with the single exception of last June. Stocks in second hands also are said to be

can scarcely fail to render En markets sensitive. It is also that supplies from imports in January and February, 1881, are likely to be barely ient, and an extra call is likely to be made sufficient, and an extra call is likely to be made on home supplies. South Australia, which furnished a good proportion of English requirements in the latter part of last season, has this year a very deficient crop, and her surplus for export is roughly estimated at 175,000 tons, against over 300,000 tons last season. This will make a material difference in supplies of white wheat, a description which is expected to be more required on the continent than last year, being almost preferred to red winter at its relative prices. Continental advices state tis relative prices. Continental advices state that in France the farmers deliveries were falling off; and a rise being demanded. Reports from 71 markets in the week ending on the 8th inst., showed 10 dearer; 10 firm; 30 unchanged; 2 quiet, and 19 lower. Arrivals of foreign wheat remained very limited, save those at Marseilles. The aggregate in the 6 principal ports was 104,000 qrs., against 120,000 qrs. in the previous week. Prices of foreign wheat had rather improved, TRADE—Has continued fairly active in meats, but otherwise quiet.

BUTTER—The demand for shipment referred to in our last has fallen off, and seems to be for the present satisfied. Prices are consequently rather less firm, but choice selections would still find buyers at 183 to 19c. Round lots, however, are still unsalable, and prices of them remain nominal. Offerings from the country have not been large, the cause of which is probably to be found in the fact that the buyers for shipment last week took up a good deal there as well as in the city. Rolls have been in fair supply, and selling as before at 16 to 17c. for the general run of good quality, and 18c. for choice. Street receipts have been small and of poor quality, with prices ranging from 20 to 24c. for pound rolls, and 19 to 20c. for tubs and crocks of dairy,

CHERSE—Has remained firm, and has sold fairly well in small lots at 13½ to 14c. for choice; but inferior could be had lower; one lot sold as low as 11½c.

EGGS—Receipts of all sorts have been small and insufficient, and prices have been firmant. TRADE—Has continued fairly active in meats,

PROVISIONS.

SAIT—Has remained unchanged since our last; sales seem to have been limited. Cars of Liverpool are held at 78c.; small lots usually bring \$5 to 87\fo.; dairy has ranged from \$1.25 to \$1.40, according to quantity and quality of the bags; Goderich quiet at \$1.10 for cars here, being equal to 80c. at the wells; small lots at \$1.15 to \$1.25.

DRIED APPLES—Country lots have been less active; no sales reported, but 3\forall c. still bid. Dealers sell barrelled as before at 5c. for small lots;

HOPS—A slight movement has been reported, with some few sales at 21c. for choice new; at 13c. for choice yearlings, and 8c. for good old. Choice new are usually held at 23c., with buyers

CATTLE.

HIDES, SKINS, AND WOOL,

TRADE—Has shown but little change during the week.

HIDES—Green have remained unchanged at last week's advance, with offerings fully sufficient. Cured have been quiet, and have not advanced in sympathy with green; a few small lots have sold at 9fc., with more offerings at the same figure.

same figure.
Calfskins — Inactive and nominally un-

changed. SHEEPSKINS—Have been quiet, as dealers are

SHEEFSKINS—Have been quiet, as dealers are not very anxious to buy at present prices, which are as before at \$1.60 to \$1.75 for the best green. There has been scarcely anything doing in country lots, and prices of them are almost nominal. Wool.—The market has been inactive for fleece, with buyers and sellers apart; the former bid 30c., but seem to have got nothing beyond a few small lots, as holders usually want 32c. for round lots. Some enquiry for super has been heard from the factories, and sales made to them on p.t.; dealers bid 20c. for super, and 34 to 35c. for extra super.

TALLOW—Has been in good demand, and fairly active at rather firmer prices; rendered has been bringing 6 to \$1c., and rough unchanged at 31c.

TRADE-Has been in a condition rather un-

and Bordeaux and Havre quoted red winter at 48s. 3d. to 48s. 9d. per 480 lbs., but buyers were very reserved, these prices being above the value of home grown. Stocks in general were much below those at the same time last year; at Paris the stock of flour was 118,615 qtls., against 325,-362 qtls. last year, and that of wheat 40,800 qtls., against 197,421 qtls. At Marseilles it was estimated that there were 182,000 qrs. in the docks and in warehouse, whilst at this time last year there were 665,000 qrs. In Belgium the wheat trade was quieter, and prices were easier. German markets were quiet, and prices were easier on both wheat and rye. At Ham-burg there was very little demand for wheat, but holders were firm. Stocks generally were small in the German ports; at Danzig there were 14,307 tons of wheat and 803 tons of rye on the 1st inst., against 24,418 tons of wheat and 4,519 tons of rye last year, whilst the exports of wheat during 1880 were only 101,279 tons, against, 231,155 tons in 1879, and 246,163 tons in 1878. In the Austro-Hungarian empire it was thought that the yield of the late crop had been over-estimated, and that the million quarters estimated as the

probable exportable surplus was likely to prove too large. In Roumania business was at a standstill. In Egypt wheat showed great quietness, forward deliveries being upon the whole rather neglected at lower figures, while the little there now available is held for a somewhat higher range of prices. States markets have varied but little during the week, and seem generally to have been quiet. In the West No. 2 wheat is admittedly five cents above a shipping margin. with a decidedly bearish tone in some of the markets, and some usually judicious commentators say that so far as can now be seen, there is little ground for expecting any great fluctuations in prices, till the spring outlook for coming crops forms a basis for speculation on the course of markets. The visible supply of grain, comprising the stocks in granary at the principal points of accumulation at lake and seaboard ports, and on rail from western lake and river ports, and frozen in on New York canals, at the

press saies or make concessions, as stocks all over the country seem to be small, and it is impossible to manufacture at any lower prices. There was, a lot of superior tying outside sold at about equal, to \$4.35 here; but the only symptom of action in this market were bids of \$4.39 for superior extra, and \$5.15 for strong bakers', which were held firmly at ten cents higher. Bran-Quiet and much as before in value, with sales of cars on Friday and on Tuesday at \$12.50 on track.

Bran—Quiet and much as before in value, with sales of cars on Friday and on Tuesday at \$12.50 on track.

OATMEAL—Quiet and unchanged; a lot of average quality sold in the latter part of last week at \$4 on track. Small lots sell as before at \$4.25 to \$4.50.

Wheat—The market has been inactive, but prices have been fairly well maintained, with offerings small and holders steady. No. 2 fall sold on Thursday at \$1.10 f.o.c., and on Monday at \$1.09 on track. No. 3 fall has been offered almost daily at \$1.08 without buyers. No. 1 spring sold in car-lots last week at \$1.16 f.o.c., and \$1.17 at a point sast; the former price would have been paid on Monday and Tuesday. No. 2 spring quiet; but brought \$1.15 f.o.c. on Tuesday. The market to-day was inactive; the only sale reported was that of a car of No. 3 spring at \$1.07 in store; No. 2 would have brought \$1.14, and No. 1 about \$1.16 f.o.c.; fall was unchanged. On street fall sold at \$1.08 to \$1.11, and spring at \$1.12 to \$1.18.

OATS—Have been scarce and wanted at an advance. Cars on track sold at \$4.4 on Saturday; at 35c. on Monday, and 34jc. and 35c on Tuesday; there were no sales reported to-day, but had any car lots been offered they would probably have sold as before. Street prices 36 to 37c.

Barley—The market has been dull and inactive, and the tendency of prices downward. The only movement reported through the week was the sales of a few cars at \$4.0, f.o.c. for choice No. 2, on Monday; and 85c, for extra No. 3 on Monday and Tuesday, some bringing \$5c. on track on the latter day. The market to-day remained weak, with sales of car lots at \$5c. for extra No. 3 (b.c., and on the track, and at 75c. for No. 3 on track; other grades nominal at quotations. Street prices have ranged from 78c. to \$1.00.

Pras There has been scarcely any business donaall week, nor does there seem to have been

to \$1.00.

PEAS There has been scarcely any business done all week, nor does there seem to have been any variation in prices since our last; the only sale reported all week was that of a car by sample to day at 64c. in store; but inspected No. 2 would probably have brought 66c. f.o.c., and No. 1 from 67 to 68c., while round lots are held at 70c. Street prices to-day, 62 to 68c.

RYE—Some cars have sold on p.t., but values seem much as before, at 30 to 81c. On the street one load sold at 80c,

CORN—Has been offered at 57c., but no sales reported.

SEEDS.—There has been a demand maintained for clover, and cars have sold for shipment at \$5 to \$5.0 for yearling, and \$5.20 to \$5.25 for new, recleaned in both cases. The market closes with the demand almost limited to new, and this sort soarce, but yearling fairly abundant. Othersorts of seeds nominal.

HAY.—Pressed has been steady, with sales of car lots of small bales at \$13. Receipts on the market have been large and fully sufficient; prices have been rather easier at \$9.60 to \$14.50, with the bulk selling at \$12 to \$13.

STRAW.—Abundant and easy at from \$6.50 to \$7.50 for oat and ryein sheaves; loose nominal at about \$5.

POTATOES.—Cars have been inactive but steady, with sulvers at 33 to 40c. Street receipts have been small and prices rather firmer at 43 to 45c. for loads, and 50c. for single bags, with all wanted.

Jan. 26.—The market still remains quiet. Hay has been the principal article during the week; its price, however, is not quife as good now as last week. Dressed hogs have been sold in large quantities and their price continues to increase. Eggs are still very scarce, and sellers can almost name their own prices. Grain is in great demand. Wheat has been almost the only delivery. Oats and barley have been sold in small quantities, but the demand calls for much more. Wheat, per 100 lbs.—Spring, \$1.70 to \$1.75; Delhi, \$1.67 to \$1.75; Treadwell, \$1.69 to \$1.75; Clatwon, \$1.67 to \$1.75; red., \$1.67 to \$1.77. Oats, per 100 lbs., \$7 to 82.02. Peas, per 100 lbs., \$6c. to \$1.10. Barley, per 100 lbs., \$1.83 to \$1.63. Rye, per 100 lbs., \$4.50 to \$4.75. Timothy seed, per 100 lbs., \$4.50 to \$4.75. to \$0.00. Sheep and lambskins, each, 75c. to \$1.25; calfskins, green, No. 1, per lb., 10 to 11c.; do. dry, 15 to 17c. Hides, No. 1, per lb., 8 to 9c.; do. No. 2, 74c.; do. No. 3, 64c. Fall flour, \$3 to \$3.25; spring do., \$2.75 to \$3. Graham flour, \$2.75 to \$3. Cornmeal, \$1.50 to \$2.60. Shorts, \$14 to \$18. Bran, \$12 to \$14. Hay, \$11 to \$12.

receipts, 6,200.

EAST BUFFALO.

Jan. 26, 12.35 p.m.—Hogs—Run light; trains late; 25 cars reported to arrive; receipts, 17 cars; shipments, 24 cars; 10 cars to New York; sales, Yorkers, light to choice, \$5.25 to \$5.40; pigs, \$4.55 to \$5.7 no medium or heavy on sale.

Jan. 26.—Cattle, receipts, 223; shipments, 442. Hogs, 4,190 shipments, 3,355. Sheep, 1,700; shipments, 5,400. Cattle—To-day the receipts were again very light, and but a limited amount of trading was done. The feeling, however, was firm at opening rates, and all the offerings were sold. The weather was stormy, a heavy snow-storm prevailing since early in the morning, and it is probable that both the eastern and western roads will be blocked if it continues long. The Central and Eric roads, however, were loading stock to ship. Sheep ahd Lambs—To-day there was morning to ja, the market from that noted earlier in the week; a fair number of the offerings had changed hands, sellers having cut loose at the decline of Monday, still, a number of loads will hold over, and there is no improvement, in the prospect for the immediate future; common to fair western sheep, \$4 to \$4.50; good to choice, \$4.90 to \$5.20; extra, \$5.30 to \$5.50; western lambs, common to choice, \$5 to \$6. Hogs—The supply to-day was very meager, there being scarcely enough to sell to base quotations on, but 25 cars were reported to arrive. The offerings consisted altogether of light to fair Yorkers, with a few good 200 to 210 lb. hogs; sales of fair light, 150 to 210 lb., York weights, ranged from \$5.50 to \$5.50 to \$6.50 to \$6.5 BEEVES—Receipts have increased but business has not, from the fact that buyers and sellers have been apart. The firmness of the market since the opening of the year seems to have led drovers to buy largely at high prices, and the influx of large supplies held generally for even higher prices than before has checked the demand. Still offerings have been almost entirely of very poor cattle, a good many of which sold in the latter part of last week at from \$3.50 to \$4.00. But on Tuesday, another rush came in which was not wanted, particularly as the cattle were held even higher than before, and prices broke from 25 to 50c. Export cattle have been quiet because very few were offered; and these only steers averaging 1,200 to 1,300 lbs., which usually went off about \$4.50 to \$4.75, though \$5.00 and over would have been paid for heavy-weights. Second-class, consisting of light steers and helfery and heavy cows, have been 25c easier, and sold at \$3.75 to \$4.00, with occasionally \$4.25 for a light steer. Third-class have been slow of sale and lower, at from \$3.00 to \$3.50.

\$3.75 to \$4.00, with occasionally \$4.25 for a light steer. Third-class have been slow of sale and lower, at from \$3.00 to \$3.50.

SHEEF—There has been an improved enquiry for export, and prices have shown an advance; one lot sold as high as \$5 per cental, but these were something extra in both weight and quality, and we suspected they were probably wanted to complete a shipment. Still first-class, weighing not under 150 lbs., have advanced 50c., and have been worth \$4.50 per cental, or \$6.75 to \$7.50 each. Second-class, weighing 135 to 150 lbs., have also been firmer, and bringing \$5.50 to \$6.50 each.

LAMES—Have continued in good demand at firm prices, with all offering wanted. First-class seem rather higher; picked have brought \$4.75 to \$5, and droves of first-class, dressing not under 45 lbs., have ranged from \$4 to \$4.50. Good droves of second-class, dressing from 35 to 43 lbs., have sold much as before at from \$3.37 to \$3.75; and third-class and culls have run from \$2.75 to \$3.25; but offerings of the latter few and these few fully sufficient.

Calves—Have shown no change all week; receipts small but sufficient; all of good quality offering have found a sale at steady prices. Choice first-class, dressing from 125 to 150 lbs., have been \$7.50 to \$9.00; ordinary first-class, dressing from 100 to 125 lbs., have been firm at \$6 to \$6.75, and any of lighter weight have not been wanted. EAST LIBERTY. FAST LIBERTY.

Jan. 25, 12.30 p.m.—Cattle—Active; best \$5.50 to \$6; fair to good, \$4.75 to \$4.80; common, \$3.75 to \$4.25; receipts, 901; shipments, 1,122. Hogs—Firm on good, elow on common; receipts, 2,500; shipments, 1.100; Philadelphias, \$6.75; \$5.85; Yorkers, \$5.75 to \$5.90. Sheep—Active; receipts, 2,000; shipments, 4,200.
