

Mrs. M. Peck Has Gained 25 Pounds

Nine Years Trouble Ends And
She Is Well and Happy
Now

"I have gained twenty-five pounds since I commenced taking Tanlac, and the troubles that have been making life miserable for me for nine years have been completely overcome," said Mrs. Minnie Peck, who lives at 9874-82nd Ave., Edmonton, the other day.

"When I commenced taking Tanlac," continued Mrs. Peck, "I was so weak and run down that I was hardly able to get about. Everything I ate disagreed with me, and I would suffer for two or three hours after every meal on account of gas forming and bloating me up. I would have severe cramping pains in the pit of my stomach. I was very nervous, so much that the slamming of a door would upset me terribly, and a good night's sleep was out of the question for me. I would actually get out of bed every morning feeling more tired and worn out than I did the night before. This condition just kept getting worse all the time until I got to where I was compelled to stay in bed most of the time."

"Then I decided to give Tanlac a trial, and it's the honest truth, I commenced to feel better before I had finished my first bottle of this wonderful medicine, and my condition just kept getting better until I am now as well as I ever was in my life. I never have a sick stomach trouble now, and I have a fine appetite and eat just everything I want. I have gotten back all my strength and can easily do all my housework. My nerves are in perfect condition, and I sleep like a child every night. It is simply wonderful the way I have gained in weight, and in fact, I just feel fine all the time. Yes, Sir, Tanlac is a wonderful medicine and as long as I live I will never lose an opportunity to say a good word for it."

TANLAC is sold in Newcasttle by E. J. Morris and in Redbank by Wm. M. Sullivan.

Maritime Winter Fair

Amherst, Dec. 2.—The Maritime Stock Breeders Association have been working hard to make this year's Winter Fair eclipse all previous efforts along that line. Their efforts are meeting with encouragement. This morning Mr. F. L. Fuller, Secretary of the Association, received letters of acceptance, to be present and participate in the Fair, from Mr. H. S. Arkell, Live Stock Commissioner, Ottawa, Prof. George E. Day, Secretary of the Canadian Short Horn Breeders Association, Guelph and several other prominent stock men.

Hon. Murdoch McKinnon, Lieutenant Governor of Prince Edward Island has consented to be present and to officially open the Fair at eight o'clock Monday evening, December 15. The opening will also be participated in by Hon. Dr. S. F. Tolmie, Minister of Agriculture and Prof. E. S. Archibald, Director of Experimental Farms, Ottawa, who will be present throughout the Fair.

The attendance of these nationally eminent specialists in stock breeding and raising will make the Fair one of rare value to Maritime breeders, who according to present prospects will attend in greater numbers than ever. Special housing arrangements are being made so that all can be properly cared for.

What are Peps

Peps provide a new treatment for coughs, colds and lung troubles. They are little tablets made up from pine extracts and medicinal essences. When put into the mouth these medicinal ingredients turn into healing vapors, which are breathed down direct to the lungs, throat and bronchial tubes. The Peps treatment is direct. Swallowing cough mixtures into the stomach, to cure ailments and disorders in throat and lungs, is indirect. Peps are revolutionizing the treatment of colds and their price is within the reach of all. All dealers, 50c. box. Send 1c. stamp for FREE TRIAL PACKAGE.

No Coal From U. S. During December

Montreal, Dec. 8.—"Of the one hundred and fifty cars per day which the United States Government undertook to supply to Canada beginning November 24, not one car has been received. The prospects are that little if any coal will reach Canada during the month of December. Even although the strike may be settled this will probably be the case," says an official statement of the Railway Association of Canada (the Canadian Railway War Board), issued here to-night. "The Canadian Railways are already using wood for stationary boilers. They have already reduced passenger service. Further cuts in passenger service are about to be announced. But even with these changes it is almost inevitable that a serious reduction of freight service will also have to be made. In this case preference will of course be given to foodstuffs and perishable goods. It is practically certain that almost all movements of raw materials for manufacturing will have to be stopped. The first of these to suffer will necessarily be export traffic such as pulpwood, lumber, nickel, asbestos and other ores."

TWO NEW BRUNSWICK YOUNG LADIES DOING GREAT WORK IN THE CHAUTAQUA.

Two New Brunswick young ladies are making an enviable record in United States with the Chautauqua. One of these young ladies formerly resided in Chatham, N. B., while her partner resides in Fredericton, or did up to a few years ago. The two young ladies are well and favorably known, being Miss Nan Synott, and Miss Roselt Breed of Fredericton.

The Chautauqua has recently played in Augusta, Maine; and is now playing in a Massachusetts town. While in Augusta, The Journal, reported the work of the two young New Brunswick ladies with a degree of prominence, and featured the work of Miss Synott on the piano. Of Miss Breed he said: "Miss Breed gave an exhibition of how to get married by 'Phone. All friends and relatives got over the shock, one by one and enjoyed the performance as much as the bride and groom—not to mention the audience who watched Miss Breed. Her Encore was entitled 'On the Train' being the near adventures of a lady who was travelling on a ticket, which she took good care to put where she could find it, in case of need."

Of Miss Synott's acting he reports: "Miss Synott who is a delightful, blonde young lady, opened the program with a finished and skilful rendition of that difficult 'Salut A Peste' She followed with the 'Hungarian Rag' as an encore. Her fingers of velvet are controlled by muscles of steel that respond instantly to the very delicate mood of the player. She is a real artist."

Miss Synott spent a few days in the city last summer, the guest of friends. At one time, it is reported that she acted in the "Empress" theatre here, previous to her joining a circuit. After the play of that evening in August she was invited to the Augusta Rotary Club where the club reporter followed her work as follows: Miss Synott did a number of stunts on the piano, playing with her back to the key board and proved she was an artist of unusual ability. Miss Roselt Breed followed in many interpretative readings all of which were greatly enjoyed."

Miss Synott's numerous friends in this town are pleased to learn of her great successes in the American centres. It is but fitting to remark that we wish her continued success, and that old New Brunswick has players, actors, playwrights and "any wrights" if looked over carefully. We wish Miss Synott continued success.

C. E. F. ROUTINE ORDER

A Canadian Expeditionary Force Routine Order, dated Nov. 29th, states that it has been decided to issue a certificate to all members of the British Forces, whether in the Army, Navy or Air Force, who have from time to time been "mentioned" in Military Despatches, during the war. Persons who received more than one "mention" will receive a certificate for each individual "mention," but the certificates may not come in the order in which the "mentions" were merited. However, it will not be necessary, for any person desiring such, to write and inquire if their certificates do not come in regular order, as they will all be sent out in due time.

TWO VIEWPOINTS

"I have my opinion of the man who would let his wife fire a furnace," remarked the energetic citizen. "I have my opinion of the wife who would do that," replied the indolent man. "Eh?" "She's a jewel."

Our Corner of the Earth

is charming in a thousand ways, but it has the dampest winters of all Canada and the winds are cold and "raw". Coughs and colds are prevalent.

HAWKER'S TOLU AND CHERRY BALSAM

will protect you and your family from coughs and colds. Keep a bottle always in the house. Colds demand prompt treatment.

Read what Thos. McAvity, of St. John, N. B., has to say about Hawker's Tolu and Cherry Balsam:

"I take great pleasure in stating that I have used Hawker's Tolu and Wild Cherry Balsam in my family for years and find it an excellent remedy for coughs and colds."

Sold by all druggists and general stores. The same price everywhere—25c. & 50c. None genuine without Company's name.

THE CANADIAN DRUG CO., Limited,
ST. JOHN, N. B.

BOOM ROAD

Boom Road, Nov. 29.—As I have not seen any notes from this district for a long time, I thought you might like to see a few.

Mrs. Bella Matchett who has been visiting relatives here for the past week, has returned to her home in Sunny Corner.

Miss Ella Hayre of Whitteville is spending a few weeks with her cousin, Mrs. Robt. Sherrard.

Miss Mary McKenzie and Miss Jessie Jardine spent Friday with Mrs. John Stewart.

Mr. James Sherrard and family who for the past few years, have resided in Nelson returned to their home.

Mrs. Peter Hyland and Miss Grace Curtis of Whitteville spent Thursday evening with Miss Mary McKenzie.

Mrs. William Allison was the guest of Mrs. Donald McTavish of Whitteville on Friday afternoon.

Miss Margaret Hynes of Bathurst is visiting old friends here, and at Whitteville.

TOO LATE.

Teacher: "Benjamin, how many times must I tell you not to snap your fingers. Now put down your hand and keep still. I shall hear what you have to say presently." (Five minutes later) "Now, then, Benjamin, what is it you wanted to say?"

Benjamin—"There was a tramp in the hall a few minutes ago, and I saw him go off with your umbrella."

Healthy, Happy Boys and Girls

IS your child healthy? Is he or she up to standard weight, of good color, with plenty of rich, red blood to nourish the growing tissues?

For children who are thin, pale, anaemic, under weight, nervous, restless, sleepless, Dr. Chase's Nerve Food is of the greatest benefit imaginable.

Being mild and gentle in action, and yet wonderfully potent as a restorative, it soon makes the blood rich and builds up the feeble nerves.

50 cents a box, 6 for \$2.75, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Voted Against Lottery Bond Issue

London, Dec. 2.—By the substantial majority of 192 the House of Commons Monday, decided against the proposition to float premium bonds in order that the government might raise needed money. Judging from the cheering that greeted the announcement of the figures, the decision of the chamber was a popular one.

Public opinion led by the Archbishop of Canterbury and other prominent churchmen and financiers, had expressed itself forcibly during the past two weeks against the bonds and evidently has converted many public men hitherto at least sympathetic with a lottery bond issue. Austen Chamberlain, chancellor of the exchequer, in the course of a speech on the question in the House, confessed that his former advocacy of the bonds was the result of insufficient study of the subject. Sir Robert Kindersley, chairman of the war savings committee, which facilitates the purchase of war savings certificates by the poorer people of the community, had been a strong opponent of premium bonds for the reasons which Andrew Bonar Law, lord privy seal, and government leader in the House, advanced in his speech on the subject. Monday night, namely that premium bonds would destroy the habit of investing in war certificates, which had brought the government 1,500,000 pounds weekly, and tend to discourage thrift among the people.

Game Changes Ob- served In Province

The open season for game which came to a close on November 30th has undoubtedly been one of the most successful seasons in the history of the province. While the revenue from the sale of licences has been large the exact figures will not be known until complete returns have been sent in by the vendors. Although a great many moose have been killed by both resident and non-resident sportsmen there is no doubt that this splendid game animal is on the decline in New Brunswick, and if they are not soon given greater protection the day will come when they will be entirely extinct.

Moose were scarce in New Brunswick twenty-five years ago, but ten years later they were again becoming scarce more particularly in that section of the country watered by the Miramichi. The time will soon come when the drastic steps will need to be taken for their conservation. It can be done by reducing the length of the open season. It begins now on September 15th and if it were to start a month later the mating or hunting season would be over and the big bulls would have a better chance to avoid the hunters. If the moose is to be conserved something has got to be done soon.

Caribou Scarce

In regard to Caribou they seem to have become extinct in the central and southern districts of the province. Some small herds have been seen in the region of Bald Mountain in the northern part of the province, but few have been seen elsewhere. Deer are said to be more plentiful now in New Brunswick than ever. This is largely responsible for the scarcity of caribou.

Bear Plentiful

Bears have become very plentiful in New Brunswick in recent years. The fur went down in price a few seasons ago and less trapping was done than in former years. Bear pelts have recently advanced in price and it is likely that more attention will be paid to them by trappers during the coming season. Beech nuts were scarce this fall and the bears sought their dens earlier than usual.

While there has been a big influx of non-resident sportsmen to the province, the past season, few if any came from the old country. They are likely to come next year in large numbers as also will the Americans and there will need to be changes in the game laws, with a view of conserving our resources.

Truro, N. S., Nov. 25.—Captain Laurie E. D. Stevens, head of the De Vere Aviation School here; and Lieutenant J. M. Stevens, of Charlottetown, the school's Prince Edward Island representative, returned from a visit to Montreal where a deal was consummated with the Air Craft Mfg. Co. Ltd., of London, England to take over the De Vere Aviation Co., Ltd., and the Prince Edward Island Aerial Transportation Co. Ltd., and form a Maritime Provinces company controlling aviation in eastern Canada. Negotiations have been completed for a large consignment of airplanes, delivery of which is to commence shortly. These planes will be distributed among the various places where the company will conduct business.
