As it is proposed to make this publication a national and not a local work, it will unflinchingly advocate all questions affecting the Common interests of our Colonies as an Integral portion of the British Empire.

An experience of several years in supplying the reading public of Canada with the serial publications of the United States, convinces the projector of this regulding that vinces the projector of this periodical, that they are entirely inadequate to the wants of the majority, and little calculated to form or improve the literary taste of a people csentially different in their feelings and principles from those for whom these Periodical cals are prepared; and believing that the enterprise will meet with encouragement from those for whose pleasure and informa-

tion it is designed, he trust that the experiment will realize his expectations.

The Magazine may be made one of the best Mediums for Advertising yet offered to the Colonial public; and the terms will be regulated in such a manner as to induce all parties to avail themselves of its pages.
