> FOR THE Y.W.C.A. From Tuesday's Bulletin.

For some years the necessity of making some provision for the comfort of

young men of Edmonton has been felt, and this need is being met by the Y.W.C.A., which is now erecting building that is a credit to the city. Of ing is one for the young women. It 's therefore very gratifying to think that the Board of Directors of the new Y. W. C. A. has secured a house which will serve as a temporary building until they feel in a position to either build or secure some more commodious quarters. They are leasing the house on First street owned by Hon. A. B. Cushing and lately used as a Sanatorium. This has een thoroughly cleaned and repaired, the walls calsomined and the wood work repainted. It will be ready for occupation in a few days and will accomme date several girls as roomers and boards and a number of others for meals. The directors have been particularly

ortunate in securing for matron, Miss Dunlop, a lady of wide experience and ably fitted for the position. The Daughtes of the Empire have ur lertaken to furnish the parlor of the new rooms and it is hoped that other associations and private individuals will ssist in this beneficent undertaking. Already many of the leading busines men have responded generously to the appeals of the Shower Committee and onated furnishings for the rooms. As the Association has very little money and are depending on the friends of the Association for the entire furnishing of the house it is earnestly requested that

the donations of the business men will be supplemented by liberal gifts from others so that the house may be ready for use at once. In order that this may be effectually done a list of necessary a ticles will appear in the daily papers, s that everyone may know what is requir-
