Feet and Sanity.

The Other.

Statistics prove that sanity can be measured by the feet, both in men and women, but the rules for the two sexes are the inverse of one another. In the Paris Academy of Sciences M. Edmond Perrier read a report by Messrs. A. Marie and MacAuliffe, which appears conclusive. Sane men have large feet, and same women small feet. Conversely, beware of the smallfooted male and the large-footed female. Out of 100 normal men, according to the report, eighteen have small feet, and out of 100 insane men only twenty-four have large feet. TELLS HER SUFFERING SISTERS. TO FIND RELIEF IN DODD'S KIDNEY PILLS.

Mrs. Forrester had Rheumatism and other Kidney Diseases for two years, but Dodd's Kidney Pills made her well.

Dinsmore, Sask., May 19. (Special) -One more of the pioneer women of Saskatchewan, relieved of pain and suffering by Dodd's Kidney Pills, has given her statement for publication in order that other suffering women may profit by her experience. This time it is Mrs. John Forrester, well known and highly respected in this neighbourhood.

"My trouble started from a severe cold," Mrs. Forrester states. "My sleep was broken and unrefreshing. I perspired freely at the slightest exertion. I had pains in my back and Rheumatism developed, from which I suffered for two years.

"I do not need to tell you that I was far from being a well woman when I started to use Dodd's Kidney Pills. But now I am thankful to say my troubles are gone. I recommend all suffering women to use Dodd's Kidney Pills."

Suffering women can learn from the experience of others that the one sure way to health is to cure their Kidneys, and Dodd's Kidney Pills always cure the Kidneys
