Dr. Rendell Delivers a Lecture

At Topsall on Tuberculosis. A public meeting was held on Wednesday evening last, in the L. O. A. Hall, Chamberlains, on which occasion Dr. Rendell delivered a lecture on the subject of Tuberculosis. Dr. Chisholm, of Manuels, had hoped to attend, and was to have acted as Chairman, but was unavoidably prevented from being present, on account of an urgent call away. Rev. Canon Netten being then asked to take the chair, he did so, and opened the meeting at 8 p.m. In introducing the lecturer to the audience, Canon Netten spoke of the splendid work done by Dr. Rendell in the campaign against Tuberculosis. He quoted from statistics to show that taking a comparison of deaths from consumption running over a period of 5 years, namely, 1907-1912, the death rate per annum had declined some 16 per cent, which was a large extent due to Dr. Rendell's exertions. The audience was then treated to a lecture, which though occupying about 1 1/2 hours, was listened to with rapt attention. It was a clever, humorous and forcible address, entertaining, instructive and convincing, in a word for everyone, even for children, who were most interested and amused with the doctor's anecdotes. An account of the busy season of the year, several men could not attend; but there was a goodly number of mothers and young persons present, and as the lecturer pointed out the mothers and wives have a large influence, perhaps more even than the men, in helping to combat the ravages of the terrible "White Plague." Young people, too, can render valuable services in the great campaign, to stamp out this dread consumption. The conclusion of the lecture which cannot fail to effect lasting beneficial results, Canon Netten called for a vote of thanks to Dr. Rendell, which was given with acclamation. The meeting then closed with singing the National Anthem.

Ever Ready Hot Water, Night and Day.

HO WATER FOR THE HOUSE-HOLD. When "Spring cleaning days" engender the busy housewife then the convenience of an unlimited supply of hot water on the upper floors is brought home to her with special force. At all times—apart from convenience—a gas water-heater makes an irresistible appeal to the housewife from the point of view of dealing with the domestic problem. Winter-day domestic duties are difficult to keep unless due consideration is shown by saving them unnecessary energy—and in the category of unnecessary drudgery may be included the carrying of hot water or coal up stairs, the cleaning of grates and the removal of dirt and ashes. The gas water-heater renders such labor superfluous—may 12. If because it only heats the water actually required, and labour-saving, because there are no coals to carry, no dust to clean, no ashes or dirt to remove. The master of the house has hot water and a hot bath when he wishes without delay or trouble. A bath ready for baby, when ready for the bath, should be an ever-ready household necessity. It also keeps in mind that any saved to the nurse makes for a more ordered, contented household. Gas Water-Heaters, whether of the instantaneous or circular type, offer the convenience of available hot water up stairs, downstairs, and in a "bath chamber," without any labour, independently of the state of the weather. The cost is reasonable. FOR THE BATHROOM. An abundant supply of hot water in the bathroom is a frequent cause of annoyance. Hot water can only be secured by getting the cook to set a boiler going at what a cost! The use of the coal that is wasted in the process of heating the water in the boiler of a hot kitchen fire-water heater is a waste of money.

Peak, California, once beautiful in the symmetry of its summit and the wealth of timber that enveloped it, stands now a ruin. Its craters, scattered and down its western slope, the two black streams half a mile apart, separated by a ridge covered with ash-soiled snow, extend for miles. These active marks of the path of the lava and mud that poured out from the mountain during a great burst on Saturday night, May 29, 1915.

Historic Gathering at St. Bon's College.

Amongst the many brilliant functions outlined for the celebration of the consecration of His Grace Archbishop Roche, that tendered to His Grace and the visiting Prelates and clergy by the St. Bon's "Old Boys" will have a distinction all its own. His Grace has attained the highest dignity in his native land open to a clerical alumnus of the College; he has consented to celebrate his first Archiepiscopal Mass in the College Chapel for the St. Bon's Association. The Delegation Apostolic, will impart the Papal Benediction; the visiting Bishops and clergy will be present in the Sanctuary, and the most distinguished gathering of clergy and laymen ever assembled in halls of Old St. Bon's will partake of the hospitality of the "Old Boys" in the Aula Maxima, after the religious ceremonies. The St. Bon's Association is making every effort to have the arrangements worthy of the occasion, and a special effort is being made to interest ex-students in the outposts in U. S. and Canada. It is felt that this will be a historic occasion, and every "old boy" is expected to do his best, to make it a successful one. Tickets will be issued till the 27th and after that date the sale must be closed off, in order that the caterer's arrangements for the proper entertaining of the distinguished guests. The committee request, as per advertisement in another column, that each member secure his ticket as early as possible, so that his name be registered and his place assigned on the morning of the Feast.

Wednesday's Baseball. The source of attraction for Wednesday afternoon is the opening game of the Baseball League at St. George's Field. The entire proceeds are to be devoted to the Patriotic Fund and the game will be under the distinguished patronage of His Excellency Sir Walter Davidson, Mayor Gosling will throw over the first ball and thus favourably declare the season open, after which the competing clubs—Wanderers and Cubs—will parade about the arena accompanied by the band. During the game a musical programme will be rendered. In view of the worthy cause we feel sure that the game will be largely attended.

Proposed Road Race.

An interesting road race is being arranged for Tuesday evening next. The course will be from Murray's Pond to the city and the competitors will be a well known tailor of Water Street, who is the proud possessor of a fast trotting horse, and a cyclist of this city who is a most enthusiastic cyclist. The latter claims that he can pedal his wheel over the course already mentioned in a shorter time than the trotter and the result of the race will be awaited with much interest. The race will start from Murray's Pond at 6 p.m. on Tuesday evening next, and it is to be hoped that the sporting fraternity will turn out in their usual numbers to witness this interesting event.

Prospero Fails Again.

After a second unsuccessful attempt to reach the terminus of her run on the northern route, the Bowring coaster Prospero, Capt. A. Kean, returned to port at noon to-day. The ship got as far as Herring Neck where she was hemmed in by the ice. Capt. Kean says it was almost impossible for him to get further North than he did owing to the ice conditions. He never experienced the like before at this time of the year. All the bays and harbors north are practically filled and the floor is very heavy and tightly packed. The people North have not been getting the summer weather we have had the past fortnight, but on the contrary a continually cold atmosphere, accompanied by strong cold winds, though the latter does not seem to have any effect towards moving the ice off.

He enlisted with the 7th Battalion of the Canadian Expeditionary Force and while engaged in the firing line on the Western Front when practically the entire Battalion was cut up, he was killed here some few years ago. GREAT TREASURE PICTURE. Those who have not yet seen this famous picture which is now being shown at the Casino Theatre should do so to-night for this is positively the last time on which it will be seen as the theatre closes after to-night for the summer, opening again in September. When it again opens the production of the famous photographs—many of which we have seen and enjoyed immensely—will be continued and we predict for it a continuance of big patronage. The Treasure of the Abdar Rahman, which is the closing feature, is a picture well worth seeing, for we believe nothing has ever been shown here to equal it. It is teeming with excitement and holds the spectator spellbound until the last scene passes before his view. Be sure to visit the Casino to-night and be convinced of the exceptional value of this famous picture.

GRAND PANTOMIME — BO PEEP AND BOY BLUE.

Crowded and packed to the doors at Rossley's last night, not even standing room, so popular has the contest become. However, three ladies won the first, second and third prizes, all for different styles in dancing. Mr. Burnstein sang his Yiddish song grand, also Mother McCree; he has a fine voice and got a big reception and deserved it. It may be stated that Mr. Burnstein was not singing for the prize. Another gentleman of the city sang behind the screen not wanting to be seen. He certainly possess a magnificent voice and it was too bad not to show himself. Den of Infamy Discovered by Police.

Recently the police authorities learned that there was a sort of improvised shack erected on the Black marsh Road, and on making enquiries found it to be a den of infamy. Savage and Constable Tobin were sent to visit the place and found occupants there, the conduct of them being outrageous.
