Bonus for Manufacture of Steel Ship Plates.

BRITISH COLUMBIA'S FIRST SCHOONER UNDER NEW SHIPPING POLICY.

Mr. H. H. Blanchet, of Toronto, was in the city yesterday en route for St. John's, Newfoundland, where he will interest himself in wooden shipbuilding.

"While in Ottawa," said Mr. Blanchet, "I had an interview with Hon. J. D. Hazen, minister of marine and fisheries, during which I secured a promise from that gentleman to bonus that steel company in Canada which would build a mill to make steel ship-plates, after which I will to Montreal and interviewed Mark Workman, President of the Dominion Iron and Steel Company.

"My statement so impressed Mr. Workman that he told me he would go to Ottawa and have Hon. Mr. Hazen confirm this, and have this bonus go into effect.

"I have just spent a week in Montreal," said Mr. Blanchet, "with the Board of Trade, Mr. Ross, harbor commissioner; J. W. Norcross, Canada Steamship Lines; Mr. Wolvin, Dominion Transportation Co.; Thomas Robb, manager Shipping Federation of Canada; Fred Yorston, editor Montreal Standard; Mr. Gordon-Smith, editor-in-chief Montreal Herald; Mr. Archibald, editor of Montreal Star, and the majority of them say that the Dominion government must bonus wooden shipbuilding \$20 for fifteen years, as Newfoundland has done for several years. I saw Colonel Gear, of the British Munition Board, Ottawa. He was to act on instructions he received from England—Sydney Daily Post, September 25, 1917.

Small Hope for Russia.

The Times: In the West there has been far too much expectation of a miraculous restoration of Russia's fighting capacity. We have been told that Russia is unlike other countries, that her powers of rapid recuperation are exceptional, that she is capable of the most marvellous changes, that she has a resilience under adversity which Western nations do not possess. No experienced soldier has lately shared these rosy hopes, for armies which

have sunk to the depths of slothful degradation now reached by the Russian troops take a long time and an iron discipline to recover their manhood. The comparisons made with the Revolutionary armies of France at the end of the eighteenth century are extremely misleading. The old Royalist troops were the nucleus of the armies of Revolutionary France and won the early victories. The French artillerymen from whom Napoleon sprang, were the finest in Europe, and they stuck firmly to their batteries through the most troubled period.

Public Morals Committees.

The outburst of Judge Morris, on Saturday, at the Court House, was one well merited and showed the necessity for some stand to be taken to give the fallen a chance to buck up against their own weakness, instead of being forced to go out with the tide eventually becoming the flotsam and jetsam of life.

What is needed most in this country is a Public Morals Committee! There is no doubt that this formation would be a step in the right direction. At any rate it would help to eradicate the evil and so pave the way for many an unfortunate to step back before the current has proved too strong. This committee would form a valuable adjunct in all social problems particularly as these have been affected by war conditions. The war with its loss of such large numbers of adult manhood of the Empire, has raised the decline of birth rate coupled with infantile mortality to one of the greatest importance. Some of our best medical aid can vouch for the appearance of disease in our midst. Some will say it is up to the church to be up and doing. The church may do a part but if one and all are not prepared to do their bit we cannot blame the church. Wise counsel may be given by ministers and elders on the delicate questions of marriage and parenthood. Everyone ought to make up his mind as to the attitude to the conscious limitations of the family. There is a tendency for families to be banned. Restrictions are often put in the way of applicants for situations who have families. This is thoroughly unchristian and ought to be reprobated.

Dealing with the housing problem, there are many homes to-day in our midst which can show some three, four and five people living and sleeping in one room. Now if a Public Morals Committee were formed, no doubt the housing would not be in that condition. With private life so public. Alcohol is the deadly barge which was being dropped by the enemy's artillery, which was exterminating our young forces as they went forward into the battle of life. Now that that has been silenced where are the fighters for prohibition? Has their love of humanity ceased? Was that all the evil to be contended with? Look around friends, you are still needed.

Commenting on the disease subject, it may be likened to nothing short of a bomb dropped into our public life. The curtain has been torn down and the skeleton in our national and public cupboard stands there for any one to see. The report ought to be printed in red on paper of black. It is certainly appalling. It has certainly killed one of the most pernicious falsehoods that had ever walked this earth. "Let a man sow his wild oats." We are to have a visit shortly from some reformers of social life. More is the pity that we could not have had in this country of ours a Public Morals Committee, to show that we are in a small way in love with our fellow-beings.—Com.

"K" in the War.

(From the London Chronicle.)
Have you noticed how the letter "K" prevails in events that mark the great war? At present interest is centred on the conflict between Russia's K's—Kerensky and Korniloff. The was hatched by a Prussian K—Kaiser—to spread Kultur by means of Kruppism, and our reliance stem the tide of barbarism was on K, of K and —khaki.

Annual Meeting of Truckmen's Union.

Last night the annual meeting of the Truckmen's Union took place. President Barter presiding over a large attendance of members. The Secretary and Treasurer submitted their reports, which showed the organization to be in healthy financial standing. Twelve members, who had lost their horses during the past year, were paid the usual amount of \$40 each from the Union. It was decided, after much discussion to discontinue this sort of benefit and substitute therefore the paying of \$60 to a family in case of a member's death and \$40 in the event of the death of his wife. This scheme was approved of and adopted.

Election of officers for the ensuing year was conducted by Mr. N. Murphy and resulted as follows:—
President—Jonas Barter.
Vice-President—George Summers.
Asst. V. P.—Ralph Murrin.
Treasurer—M. O'Neil.
Asst. Treasurer—P. Malone.
Secretary—Thomas Rice.
Asst. Secretary—Harvey Thomas.
Committee—Charles Lester, James Dunn, Sr., and D. Fitzgerald.

Lengthy debate occurred on the hauling of freights to the coastal wharves and the unnecessary delay in connection therewith, especially at this time of the year. Votes of thanks were extended to the press. Ten new members were initiated at the meeting.

"Cascarets" for a Cold, Bad Breath or Sick Headache

Best for liver and bowels, for biliousness, sour stomach and constipation.

Get a 10-cent box now.
Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret at-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

Leonard H Sully.

Leonard H. Sully, aged 48 years, passed away at his home, 280 Harvard street, Sunday afternoon, September 16, after a lingering illness of 10 weeks.

He was a native of New Harbour, Newfoundland, and a resident of Medford the past 10 years.

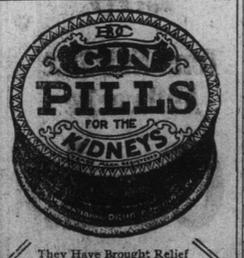

As a builder and contractor he had a successful business career, being identified with the building of many houses on Harvard and Marion streets, also in the Winter Hill section and the Powder House Boulevard Somerville.

He was held in high esteem by business associates in Boston and Medford, also by a large circle of friends.

He married Miss Emma Pretty, of Dildo, Newfoundland, who survives him, also a son, Raymond C., a daughter, Miss Ethel Sully, and a mother, Mrs. Ollerhead, living in the home; a brother in New York and a sister, Mrs. C. Kelley, of Concord.

He was a member of the East Boston Lodge of Odd Fellows, Manchester Unity.

Funeral services were held at his late home, Wednesday afternoon at 2 o'clock, conducted by Rev. Dwight W. Hadley, of Grace Episcopal Church. Two selections, "Abide With Me" and "On Christ the Solid Rock I stand," were sung by a quartette from the Marion street church: Mrs. Wallace Campbell, Miss Esther Anderson, Ralph Richardson and John Anderson. The floral tributes were many and beautiful. Burial was at Glenwood Cemetery, Everett.—Ex.
