Like Fish Fresh Fried?

You WILL enjoy fresh fish fried with CRISCO, the pure vegetable shortening.

Fry with CRISCO

If you want to know what real delicious fried fish is.

CRISCO does not smell nor smoke, and gives a delightful taste to fresh fish. CRISCO is economical too, for you do not have to use as much as you would ordinary fat or cooking butter.

THE BEST HOMES USE CRISCO.
AT ALL GROCERS.

Zane Grey's Big Story at the Majestic

FEATURE SAID TO BE GREATER THAN "THE COVERED WAGON."

First "To the Last Man," then "The Call of the Canyon" and now "The Heritage of the Desert," which opens at the Majestic Theatre to-night, it's an Irvin Willat production featuring Bebe Daniels, Ernest Torrence, Noah Beery and Lloyd Hughes.

It's western drama de luxe with all its humor and love interest. A tenderfoot arrives from the east and straightway finds himself in wrong with a band of rough desert characters and cattle thieves. They suspect him of spying on them for August Neab, owner of "The Oasis," the finest ranch in the country which they aim to obtain—through force if necessary.

As a first step in the enfoldment of their plan, Holderness kidnaps Neab's adopted daughter, Mescal, forcing her to marry him. Infuriated, Neab, with a tribe of friendly Navajos and neighboring ranchers who had suffered at the hand of Holderness, raid the town of White Sage, the outlaw's stronghold where his every word is law. A spectacular battle is fought and not a house is left standing. Holderness and his reign is wiped out forever, Mescal rescued and returned to Jack Hare, the tenderfoot, whom her guardian had befriended, knowing that there must be some good in any man Holderness had no use for.

For Miss Daniels, as Mescal, too much cannot be said. She lives the role rather than plays it. Ernest Torrence in the part of the rancher, Neab—that's sufficient—witness his "Jackson" in "The Covered Wagon" and "Conan Egbert" in "Ruggles of Red Gap." We never really hated anyone as we did Noah Beery as Holderness. He is one really good bad actor, if you get what we mean. Lloyd Hughes has a somewhat sympathetic role—that is sympathetic at least until he swings into action against Holderness—then it's the latter gets, or needs, the sympathy.

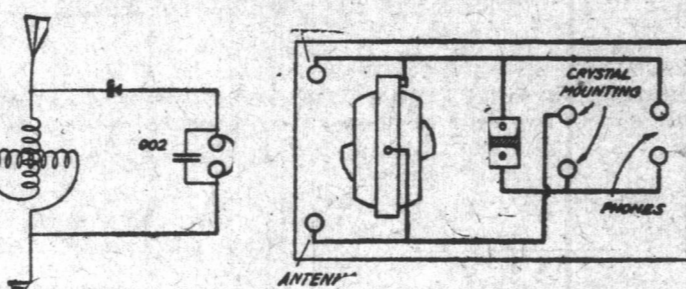

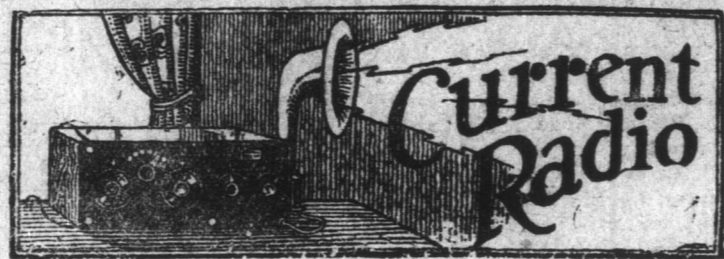

Dullness is unknown in any foot of the story. It's exceptionally well done.

Notwithstanding the excellence of this celebrated picture the admission continues the same, twenty cents.

Sable I. in Port

S.S. Sable I., Captain Murley, arrived from Boston and Halifax at 5:30 yesterday afternoon, after a splendid passage from the latter port. The ship brought a part general cargo and the following passengers:—Elizabeth C. Burfield, Mary Smith, Anna Rooney, Mrs. F. Meany, James Brickett, Thos. McCormack, Emma Kneel, Mary Kneel, Barbara Kneel, and two persons who have been deported from the States as being mentally unsound.

Child's Tan calf, all Leather Laced Oxforde, sizes 5 to 8, only \$2.00 pair at F. SMALLWOOD'S. June 19, 21

Another Simple Crystal Receiver

EDITED BY JOHN M. CLAYTON.

Now that summer is approaching and we aren't any longer at our receivers continually, it might be interesting to show a simple crystal receiver that can be constructed in a short time and that makes an excellent portable set for those who are getting away from civilization, but who still want to keep in touch with it.

A simple crystal receiver makes an ideal form of portable receiver. It is not required to receive over too great a radius. It will not, of course, give the same receiving range that a tube set will, still few of us get out and away far enough to require a tube set to get up back! The crystal set requires no batteries at all. This is quite important for the average camper-tourist. You don't have to worry about broken tubes or run-down A or B batteries. Just chuck the receiver in the back of the Lizzie, stick a few extra crystal in your pocket and bring along a few hundred feet of antenna wire with which the kid can make a good antenna by skinning up the nearest tree and there you are!

The circuit of the receiver we are showing to-day is a single circuit. We don't want to have to play around with a lot of controls—we want radio in its simplest form—and here it is. The variometer had better be purchased. It's a difficult job to make a good one and a really good one can be bought at any radio shop. It pays, though, to buy the best. Likewise the crystal detector mounting can be bought for fifty or seventy-five cents. Get at least a dozen crystals of the "guaranteed" type and before you leave test the receiver out and pick out the best crystals. Out of the dozen you will probably get two or three really good ones. Go back to the radio store and get another dozen from which try to pick out three or four additional sensitive crystals, and after they have been tested wrap them up in waxed paper and put them in a pickle bottle where they will be kept out of the moisture.

The headset should have a resistance of from 2,000 ohms to 3,000 ohms, it doesn't matter. Get a good pair, or two pairs if the Mrs. is to listen in too. The telephone condenser should be of the mica-tinfoil type and should have a capacity of .002 mfd.

The whole set should be mounted on a bakelite or hard rubber panel 12x12 inches. A suggested panel layout (rear view) is shown to the right of our illustration. The crystal detector stand is mounted on the front of the panel so that you can get at it for adjustment easily.

For a ground connection a piece of wire a hundred or a hundred and fifty feet can be laid flat on the ground or better still, if you are near a stream drive a 3-foot length of pipe into it and run a wire from the pipe to the set. The whole receiver, antenna and all, can be put together for about \$10.00. The fun you will get out of it at nights will be worth many times this!

Brilliant Drama Comes to the Star Movie

Revealing the effect of the widely discussed rejuvenation, upon romance and alive with brilliant drama and rare beauty of dress and settings, Frank Lloyd's screen version of "Black Oxen," a First National Picture, begins showing at the Star Movie to-night.

Corinne Griffith and Conway Tearle share the featured parts in "Black Oxen." Miss Griffith playing the dual personalities of Mary Ogden, later Madame Zatlany, and Mr. Tearle being cast as Lee Claverling, a cynical New York newspaper man who falls in love with the charming European bred, American girl.

A majority of the scenes of the film play are laid in New York's social sphere, with flashes of the Austrian court brought into the theme for reference. More than 5,000 people appear in the action of the play, as

audiences in three different theatre scenes, in an elaborate cafe sequence and in direct support of the principals.

Miss Griffith makes twenty-two complete changes of wardrobe during the action of the play, reviewers state, and her gowns, which cover a period of more than 30 years in fashions, are said to be unusually attractive.

Mrs. Casey Passes Away at Advanced Age of 82

NEW WATERFORD, June 4.—Fortified by the last rites of the Roman Catholic church, she passed away on June 3rd, Mrs. Catherine Casey, at the age of eighty-two, a kindly old lady,

beloved by all who came in contact with her in the many years of her life. The deceased resided with her daughter, Mrs. John Hines, for the last twenty-five years, from whose residence the funeral took place on Friday morning at 8 a.m., to Mount Carmel Church.

The deceased lady leaves to survive her two daughters, Mrs. Chas. Connolly and Mrs. John Hines, besides a large number of grand children and thirteen great grand children.

The above lady is the mother of the late Mrs. Frank Hall of this city.
