The After Effects of Dreaded LaGrippe

Worse Than the Disease Itself—Victims Left Weak, Nervous and Worn Out

La Grippe, or Spanish Influenza as the epidemic now sweeping over all America is called, is one of the most dangerous diseases known to mankind. Anyone who has felt its pangs is not likely to forget the trouble LaGrippe, or influenza, starts with a slight cold and ends with a complication of troubles. It lays the victim on his back, it tortures him with fevers and chills, headaches and backaches. It leaves him a prey to pneumonia, bronchitis, consumption and other deadly diseases. Its after effects are often more serious than the disease itself. It is quite possible to avoid lagrippe by keeping the blood rich and red by the use of Dr. Williams' Pink Pills—a tonic medicine which enriches the blood and strengthens the nerves. If, however the disease attacks you, the patient should at once go to bed, and call a doctor before complications set in. That is the only safe thing to do. But to recover your strength after the severity of the attack has passed, you will find Dr. Williams' Pink Pills an unsurpassed tonic. Through the use of this medicine all the evil after effects of this trouble will be banished. This has been proved in thousands of cases throughout Canada, where in previous seasons la grippe has attacked them. Among the many thus restored to full health is Miss Irene Bootes, Portsmouth, Ont., who says: "I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of lagrippe and it left me weak and all run down. I had severe pains in the chest and under the arms, palpitation of the heart and attacks of neuralgia which left me with the feeling that life was scarcely worth living. I was advised to try Dr. Williams' Pink Pills and began their use only on the principle that I would try anything that might better

my condition. I had only been using the pills a couple of weeks when the pains began to leave me. Gradually my strength returned, my appetite improved, and in a little more than a month I felt all my old time vigor had returned. I am sincerely glad I was persuaded to try Dr. Williams' Pink Pills, and I shall always have a good word to say for them.

Dr. Williams' Pink Pills not only cure the disastrous after effects of la grippe, but are also a specific for all troubles due to poor blood, such as anaemia, rheumatism, indigestion, women's ailments, and the generally worn out feeling that affects so many people. You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
