

Nothing Tastes Good

And eating is simply perfunctory—done because it must be. This is the common complaint of the dyspeptic.

If eating sparingly would cure dyspepsia, few would suffer from it long.

The only way to cure dyspepsia, which is difficult digestion, is to give vigor and tone to the stomach and the whole digestive system.

Hood's Sarsaparilla cures Mr. Francis Blood, Pembroke, Ont. Mr. Webb, Clinton, Ont., and W. A. Nugent, Belleville, Ont., all of whom suffer from dyspepsia. Mr. Webb, "I worked like a charm, restored a healthy appetite and toned my whole system," and Mr. Nugent, "I cannot praise it too highly for the good it has done me."

Hood's Sarsaparilla Promises to cure and keeps the promise. Don't wait till you are worse, but buy a bottle today.

THE MARKETS.

THE LOCAL MARKET.
A. M. HAMILTON & SONS' REPORT.

Corn, per bu. 61c to 62c
Barley, per bu. 55c to 56c
Buckwheat, per bu. 55c to 56c
Beans, per bu. 58c to 59c

WEEKLY REVIEW.
The markets have been rather dull this week, owing to the blocked roads. Thursday and Saturday were fairly good days, but after that receipts were almost nothing. Values of grain were steady and unchanged, with the one exception of oats, which were higher, selling at \$1.15 to \$1.20. On Tuesday wheat brought \$1.20 to \$1.25; barley, \$1.10 to \$1.20, and corn, \$1.10 to \$1.15. No peas, rye or buckwheat offered.

Beans were sold, at 80c to 90c; very few came in. Red Clover Seed—Only four or five lots came in; they sold at prices ranging from \$1.75 to \$2.00; about \$1.90 was the value of good seed. Timothy remains steady, at \$2 to \$3; most lots selling at about \$2.50. No alfalfa close at hand.

Hay—Prices show the effect of the light supply from any line. Sales on Tuesday ranged from \$9 to \$10. Straw—Quiet, at \$3.50 to \$4 by the load.

REAL SCOTCH PEASE MEAL for Soup and Stews. Wholesale and Retail. HAMILTON'S FLOUR AND FEED STORE, 373 Talbot Street. Phone 662.

AMERICAN MARKETS.
CHICAGO, Feb. 5.—Trade in the grain pits had an off day today. All told it was a cold weather market, holding up well at the opening on prices serious results from the severe weather, but sliding off as the pits turned bearish once more. Market closed at a net loss of 1/2c to 3/4c. May corn 4c, and May oats 4c to 4 1/2c. Provisions closed 2 1/2c up all round. On Tuesday wheat was only 22 cts, 2c of contract grade; Minneapolis and Duluth reported 20 cts, making a total of 22 cts for the three.

The Danger of Low Vitality

Severe Colds, Pneumonia, Consumption, Find Easy Victims in Persons Whose Health is in Poor Condition—Dr. Chase's Nerve Food.

At no season of the year is a low condition of health more likely to lead to serious results than at the present time. With vitality running low, the blood thin and nerves exhausted, one is made susceptible to colds and catarrhs on the slightest exposure. Gradually a persistent cough, hawking and spitting, is established, and each severe cold is accompanied by chills, fevers, pains in the chest, and sometimes spitting of blood.

This is the short and deadly road that leads to pneumonia, consumption, and other deadly lung troubles, and the only sure method of avoiding them is to keep the general health just as near to the high-water mark as possible. It is because of its remarkable influence as a system-builder that Dr. Chase's Nerve Food has come to be an universal remedy as a means of increasing vitality and raising the standard of health.

There is no lesson which experience more strongly emphasizes than the importance of keeping the body well supplied with health-giving vitality. When a weakened, run-down system is attacked by pneumonia, tuberculosis, or even a heavy cold, there is small chance of ever shaking it off. Dr. Chase's Nerve Food instills into the blood the most potent blood-forming and nerve-invigorating elements which have ever been found in nature. You cannot possibly help but be benefited by this preparation, and even in the most standing cases of extreme debility and prostration there is good hope for recovery by the persistent use of this great food cure.

It is not wise to neglect the health at any time. Do not wait until you are completely exhausted and worn out before appealing to Dr. Chase's Nerve Food. Build up the system while yet there is some foundation to build on. Put new blood in the shriveled arteries, new vital energy into the nerves, and add firm flesh and solid muscles to the body, in order that in the day of trial, when attacked by disease, there may be some chance for fighting the great foe to human happiness.

Should you find yourself suffering from a cough, bronchitis, asthma, or any similar trouble, we can recommend you to use Dr. Chase's Syrup of Linseed and Turpentine, believing it to be the most thoroughly effective treatment that you can possibly obtain. It has time and again proven its power over asthma, and affords the greatest relief, even in the most serious cases of pneumonia and consumption.

While Dr. Chase's Syrup of Linseed and Turpentine is aiding expectoration, clearing the choked-up air passages, and healing and soothing the throat and ulcerated linings of the throat and bronchial tubes, do not lose sight of the value of Dr. Chase's Nerve Food as a means of restoring lost strength and vigor. It is a unique preparation of surprising effect as a blood and nerve restorative. Fifty cents a box, six boxes for \$2.50. At all dealers, or Edmondson, Bates & Co., Toronto.

B.B.S.

Bayley's Bargain Store.

We Want You.

Reader, we are after big business this February, and we want to interest you. We've a heap of good things going these days (all is not told by the printer). We want you to profit by the good strokes we have made, yes, and the bad ones, too, when they happen. Good goods go at a sacrifice at times.
