FREIGHT RATES NOT TO BLAME FOR BIG PRICES

Manager Says That Living Is Just as High in American West.

Railway Board Has Adjourned Rate Investigation Until Next Monday.

[Canadian Press.]

Ottawa, June 20.-That it was not C. P. R. rates which were responsible for the high cost of articles in the Canadian West, inasmuch as they had increased in price on the American side of the border, as well where certain shipping privileges not given the western farmer are accorded, was the gist of some testimony given at today's session of the western freight rates inquiry by Assistant Freight Traffic Manager W. B. Lanigan. It was decided to adjourn tonight until Monday, and then go on all next week to the finish of the case. The Government will present its case next

Many Increases. Mr. Lanigan submitted a statement to show that since 1902 the price of binders, mowers, gang plows, sulky plows and wagons has increased at the majority of western points both in Canada and the United States.

Binders now cost from 3 to 8 per cent more; mowers from 5 to 10 per cent, gangplows from 2 to 15 per cent, sulky plows from 6 to 12 per cent, wagons from 11 to 25 per cent. Wagons were going up, said Mr. Lanigan, because of the scarcity of hardwood lumber. He gave these figures to show that the privilege accorded by American roads as the stopover privilege, by which a car may e partially unloaded at any point, had not reduced United States implement prices appreciably. This statement was supported by a number of affidavits from shippers to the effect that it was true, but as no names were mentioned Mr. Isaac Pitblado, for the Winnipeg board of trade, objected to its being taken as evidence and the chairman upheld him.

Lower Than C. N. R.

Mr. Lanigan went on to claim that C. P. R. rates on agricultural implements and binder twine were lowe from Fort William to Regina than Canadian Northern Railway rates in

WIFE FLOWN, ALSO FAMILY

Home Telling of Departure.

Returning from his work in a local factory Thursday night a resident of the north end of the city was surprised to find the house shut up and no signs of his wife or children about. He waited around for a short time, thinking that the woman might have gone down town and been delayed, but when she did not put in an appearance

he made a search of the house.

In one of the rooms he came upon a note left by his wife. It was ad dressed to the husband, and informed him that the woman had left the She also stated that she did not intend to return, and that it would be useless for the husband to look for her or the children.

The police say that they have not been asked by the man to try and locate the missing woman, and that they know nothing of her disappearance.

Toronto Hebrews Eating Meat Again

Unable to Get Any for a Week Owing to Killers' Strike. [Canadian Press.]

Toronto, June 20. - After a week's abstinence Toronto's Jewish population is again eating meat. According to their religious dictates, no Jew may purchase meat other than that killed and dressed in a special manner by the shocktim, as the Jewish killers are called, and the latter, who are paid er head of cattle slaughtered, went on strike for more pay. They were backed up by the rabbis, who held the situation pretty well in their hands as no Jewish killers are appointed without their approval. The strike is now ended, the strikers being granted a higher rate of pay.

LONDON MUST HAVE AUXILIARY TO COPE WITH HYDRO BREAKS OPINION OF MANY CITIZENS
