The market continues unsettled, and the street full of runors of stocks taking another tumble, with London the leader, the bears taking advantage of the decrease ia July first week earning: St. Paul and R. Q. were also in line, and followed closely. The tone in London at close showed no improvement, and many runors concerning out of improvement, pecially in oats. Only about two loads were offered and these sold at \$1.15 per ceptal. There was no change in wheat, and this in London at close showed no improvement, and many rumors concerning extensive failures were rife. Stocks cained only fractional ad-vances, and closed in a feverish state. Money closed, offered 3, highest 15, lowest 3, last 3. There is an increasing flow of currency from the in-terior, one bank in the past two days having re-ceived about \$500,000 from its western corres-pondents. Gold is also coming westward from Europe, but not in such quantities as to cause much comment, and so far as we are capable of cereal had no change from \$1.05 to \$1.09 per cental. The meat supply was short, and good beef sold for \$5.50 to \$6.50 per cwt. Lamb was scarce, at 11 to 12 cents a much comment, and so far as we are capable of judging, there are not yet the slightest founda-

Judging, there are not yet the slightest founda-tions on which to base a genuine restoration of confidence; on the contrary, there are any number of arguments why stocks should show a weak tendency. The delay of deciding the silver question, with its attendant strained attitude, continued reports of failures, poor crop reports and suicidal and indiscriminate rates cutting, all tend to shake faith. London's attitude in our markets is certainly not encouraging, having during the past two days freely sold our securi-ties, favoring no particular stock but for meat strike our farmers? There is money in lamos and pork at these quotaiong. Spring chickens were scarce, at 50 to 75 cents a pair.

during the past two days freely sold our scouri-ties, favoring no particular stock, but dealing promiseuously and to an extent that has thoroughly demoralized and routed American holders, who are dumping stock on the market at ruinous prices which they have held for years. Culcago wheat ranged from 63% to 63% to Sept., closing with sellers at the outside. The weakness at the opening was in sympathy with the feeling in Wall street and apprehension of more failures. The ad-vance was on the reports of wet weather in France and unfavorable crop reports from the North-west. The buying was chiefly by parties who sold yesterday, and early this morning the 75 to 90 cents a pair. pound. Crock, 17 to 18 cents a pound. Eggs, 11 to 14 cents per dozen. It was a great respherry day, and a large quantity came in from all parts of the country. Prices were firm, at \$1 to \$1.25 a pail, and 9 to 10 cents a quart.

North-west. The buying was chieny by parties who sold yesterday, and early this morning the money situation and the lack of demand for the big stocks we have on hand is all that prevents a sharp advance. Provisions weak all day, and crop. closed at the bottom prices.

Manchester, July 12.-The Guardian, in its commercial article, says:-"A stronger tone pre-vails, which is mainly due to the advance in cotton values at Liverpool. More business was Valls, which is manify due to the advance in cotton values at Liverpool. More business was executed yesterday than on July 4, notwitstand-ing the firmness. There is little duing for China, though there is a fair inquiry in some quarters, especially for low cloths. Definite offers are numerous, but are much below the present quotations. The prospects for business for China are more cheerful. That country has been a leading buyer of silver at the low quotations and an increased inquiry for Mancaester goods is expected in consecuence of the disturbed trade between China and India. There has been a fair inquiry from Bombay, which has resulted in sales of shirtings and miscellaneous goods. The inquiry for jacon is light. Dnooties are in moderate request. The firmness of the market is hindering business. The demand for heavy goods is mostly of a retail character. Business for south America is quiet. American yarns are firmer, and more business is done in them.

Mr. Thomas Bell, of Messrs. Scott, Bell & Co., proprietors of the Wingham Furniture Fac-tory, writes; "For over one year I was not free one day from neadache. I tried every medi-che I thought would give me relief, but did not derive any benefit. I then procured a bot-tle of Northrop Solyman's Vegeta ie Discov-ery, and began taking it according to directions, when I soon found the headache leaving me, and I am new completely every.

My ignorance you'll please excuse."

Its composition pure and clean ; For cooking give me COTTOLENE." As from his store the lady fled,

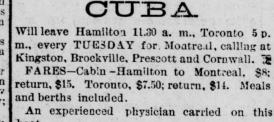

The grocer gently scratched his head-On his next order, first was seen, "One dozen cases COTTOLENE."
