The Assay Office.

We have succeeded in wading through a two column and a half article in the British Columbian-subject, the Assay Office-and after a careful perusal we are constrained to say that if that institution can survive the very potent reasons cent of copper. If for no other reason the Columbian has furnished for its abrogation, it will be "a thing of beauty and Colony were the office located at a spot a joy forever" to the denizens of New where it would be "inaccessible" to that Westminster. Casting aside the first column and a half of verbiage, we extract and false cry of the enormous expense atthe essence of the article for the benefit of tendant upon the removal of the plant to our readers. Having recited the wonders William creek is completely exploded by office on the "spot" where it now rests will confer upon the entire Colony, the ex(pectant) Queen's Printer triumphantly produces the following overwhelming circomstance to prove that the office is a generally to the Colony:

"It is well known that during the continuance of the gold export tax, the Bank of British Columbia, having an assay office at William creek, assayed its own gold. These bars, in order to obtain the at New Westminster, which Government Government stamp to entitle them to the reduced rate of export tax, were all remelted at the Government assay office here. A careful record was kept, and having been allowed a perusal of this record, we find a discrepancy in the case of almost every bar re-assayed under this arrangement, the difference occasionally running as high as seventy-eight dollars on a single bar of the value of four thousand dollars !"

Considering the source whence this story

worth \$12 per ounce : and the Idahoans.

discerning the similarity in appearance

of the gold of their own river and that of

Cottonwood, actually sent a quantity

been allowed a peep into the "record,"

is, perhaps, able to inform us the exact

sum lost by that transaction, and whether

any profitable speculations of a like char-

acter have been indulged in recently.

In another part of the same article the

Queen's Printer charges that the "greedy

little town of Victoria" wants to steal the

office from its "rightful owner," New

Westminster. This is another statement

quite as absurd as that concerning the

bar. Victoria does not recognise the

necessity that exists for an Assay Office;

and, moreover, Victoria does not ask for

it. Victoria believes that the proper

expenses, Failing its removal thither,

theu Victoria thinks it ought not to re-

main at New Westminster, where it is a

tax of \$3000 per annum upon the public

revenue. But what says the Queen's

Cariboo: "It would be located at a

place in the most remote, expensive and

inaccessible part of the Colony, and in-

volve an expenditure which would not

only be wholly unprofitable, but alto-

gether beyond the means of the Colony.'

Signs of the Times--Political Signifi-

cauce of Napoleon's Speeches.

(From the London Times, August 28th.) languishing for want of support. The Ama-The Emperor Napoleon has lost no time teur Dramatic Corps of the Zealous and the in making his comment on the run ors of the last few days. He was on his way to visit Zealous Band will appear. The performances the city of Lille, to be present at the fete to will be under the patronage of Admiral be held in commemoration of the two hundplace for it is at Cariboo, where it may, Hastings and Capt. Dawkins, gentlemen who. redth anniversary of its annexation to France. by the observance of strict economy, pay since their first arrival on this station, have and on his journey the Mayor of Arras, lent their names and influence to every good through which their Majesties passed, presented the usual loyal address. The Emand worthy cause that has appealed to them peror, apparently, likes to utter his most significant sentences on unforseen occasions and to undistinguished people, as if their CATALOGUE SALE OF FURNITURE.-J P Printer to the proposition of sending it to Davies & Co will sell at the residence of Mr give his words more point and power. Thus apparent spontaniety would be likely to SH Lichtenstein, Pandora street, at eleven his speech at Arras is far more interesting o'clock, this day, all the fine household fur than that at Lille, which only contains one niture, a splendid fine-toned piano, silver expression of political importance. At Arware, crockery ware and family jewelry right to have confidence in the future. It is ras the Emperor spoke as follows: 'You are granting the Executive of this Colony contained therein. Terms cash. The sale only weak governments who seek in foreign should attract a large number of buyers, it complications to divert attention from troublaid down by our cotemporary means being the last extensive sale of furniture for les at home. But he who derives his strength the Colony is able to bear." All the from the great body of the nation has only to

act as Crown Prosecutor in the absence of At Lille the Emperor said that the first condition of prosperity for France was "to possess the consciousness of her own strength and not to allow herself to be depressed by imaginary fears, but to rely upon the wisdom and patriotism of her Government." Though these expressions have the usual vagueness of the Imperial style, they are undoubtedly peaceable in their tenor. The Emperor seems to divide and repudiate the suspicion of his subjects that he is about to turn their attention from his domestic administration and from the tragic affairs in Mexico by some great deed beyond his own frontiers. He denies that his is one of those weak Governments which seek by foreign complications to divert their subjects from troubles at home. If these words have lany political meaning, they must be used as an answer to those who, whether friends or enemies, have been attributing to him the design of a German war. Since the Salzburg interview we know not which have been the most warlike in their tone, the Frenchman who would have the Emperor enforce at once the Treaty of Prague at the point of the bayonet, or the Germans, who, scllen and defiant, have made thority. The Land Registration Act has not up their mind that he intends a quarrel, and desire that the unfolding of the plot should be hastened rather than delayed. The Emperor's speech cannot but be directed to them. He says in effect that they misrepresent his policy and his designs, and he bids ger was despatched for Mr McCreight and the one party moderate their ambition and the other lay aside their distrust. When the Emperor tells those of his sub-

ects who last year were excited to such rivalry by the successes of Prussia, that they should not allow themselves to be "drawn sion. Mr Alston asked, were he to procure away by intemperate impulses, however patriotic they may be," he gives advice which many Frenchmen will find it difficult after his determination? The Chief Justice to follow. The fears which at present pervade Europe are the effect of that violent here to advise anyone. I can only deal with outburst of jealousy which possessed France matters as they are." Mr Alston then reoutburst of jealousy which possessed France tired. Upon the arrival of Mr McCreight ing all classes, both military and civil, urged and Mr Wood, the first-named gentleman the Emperor into a policy which he possibly objected to appear for the Government unless may at length find it difficult to avoid. It instructed by them. Mr. Wood, at first cannot be concealed that a war with Prussia, declined to act for the Crown, as he was un- on any pretext and with any object, would instructed, but yielding to the persuasion of the Prench the Chief Justice finally consented to appear. presents the 'spirited foreign policy' now largely advocated in the cafe and the bar-rack. Undoubtedly that section of the French people which has renounced the idea of foreign conquest-a section which grows every year, and may even row be a majority -has a powerful influence, and is strong enough to support a ruler who shall recognize the right of foreign nations to constitute

provinces of Austria, woited to bar the way.

terests of the country; and while holding aloft the national flag, we should not allow ourselves to be drawn away by imtemperate impulses, however patriotic they may be.'

alone, disposed of the bill to repeal the Crown Salaries' Act by passing the above resolution. I presume the whole question will be gone over again at the next meeting of the Council, and I feel assured that Mr. Macdonald will take as independent a stand on this or any other question as any member of the House, and his political antagonists (for he has no others) need not try to make capital out of his public acts, as they will bear the strictest scrutiny. Surely after this plain statement of facts no respectable person will accuse him of heing a Government man, That he is one I conscientiously deny. Why should he be? He wants nothing from them; he has no axes to grind; there is not a situation in the gift of the Governor that he would accept this day; and I feel extremely sorry that any of my fellow-citizens should for one moment suppose him incapable of doing his duty to his constituents in an independent and fearless manner. He will do what he conscientiously believes to be right, independent of popular praise or Government patronage.

In conclusion, I trust that my fellowcitizens who were wavering about voting have now seen the error of their way, and will come forward like true and honorable men and place Mr. Macdonald by a large majority at the head of the poll on Satur-

J. NAGLE.

P. S.—To prove my assertions in regard to Mr. Macdonald's straightforward and independent conduct while in the Council, I refer you to page 35, 57 and 71 of the Legislative Council proceedings, from the 24th January to the 2d April,

THE PEOPLE'S FRIEND.
