Engraving sepresents the Lungs to a century state, THE WAY IT WILL AFFECT YOU.

It excites expectoration and causes the lungs to throw off the phlegm or mucous; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive mans; brings the liver to its ploper attion, and imparts strength to the whole system. Such is The IMMEDIATE AND SATISFACTORY EFFECT that it is warrinsted to break up the most distriction of too long standing. It is warranted to GIVE ENTIRE SATISFACTION, EVEN IN THE most confirmed cases of Consumption! It is warranted not to produce costiveness (most remedies cause this strouble) or affect the head as it contains no opium in any form. It is warranted to be perfectly harmless to the most delicate child, although it is an active and powerful remedy for restoring the system. There is no real necessity for so many deaths of Consumption, when AlLEN'S LUNG BALSAM will prevent it if only taken in time. To Physicians having consumptive patients, and who, having failed to cure them with their own medicine, we bould recommend to give Allen's Lung Bals.

remedy is so effective as AYER'S PILLS. They insure regular daily action, and restore the bowels to a healthy condition. For Indigestion, or Dyspepsia, AYER's PILLS are invaluable, and a sure cure. Heart-burn, Loss of Appetite, Foul Stomach, Flatulency, Dizziness, Head-ache, Numbness, Nausea, are all relieved

and cured by AYER'S PILLS. In Liver Complaint, Bilious Disorder and Jaundice, AYER'S PILLS should be given in doses large enough to excite the liver and bowels, and remove constipation. As a cleansing medicine in the Spring, these Pills are unequalled.

Worms, caused by a morbid condition of

the bowels, are expelled by these PILLS. Eruptions, Skin Diseases, and Piles, the result of Indigestion or Constipation, are cured by the use of AYER's PILLS. For Colds, take AYER'S PILLS to open the pores, remove inflammatory secretions, and allay the fever.

For Diarrhosa and Dysentery, caused by udden colds, indigestible food, etc., ATER'S Pills are the true remedy. Rheumatism, Gout, Neuralgia, and Sciatica, often result from digestive derangement, or colds, and disappear on removing the cause by the use of AYER'S PILLS. Tumors, Dropsy, Kidney Complaints, and other disorders caused by debility or obstruction, are cured by AYER'S PILLS. Suppression, and Painful Menstrustion, have a safe and ready remedy in

Trotting Records.

68 in 1883. These figures tell the story of progress in a manner con-vincing to all. Our 2.40 horses are being lost sight of in the struggle for the front, and the rate of speed wonderfully increased. When we re-

More calves are injured every year member that these records have been then deepen your soil to the extent of by long fasting and overfeeding than made in closely contested races, many n any other way. When calves run of them in the fourth, fifth and sixth with their dams they take their food often, and, of course, little at a time, but in our artificial treatment we reverse nature's methods. If calves are ing, there must be such care and skill allowed to suck, the injury from long in the selection of both dam and sire.

Careful Training of Horses. Horses with high mettle are more in 1883.

founded. No better calves were ever that it possesses a power that man raised than have been raised upon skimmed milk, when all the details with strange objects it will not be skimmed milk, when all the details with strange objects it will not be the ranch, if established, is to consist the ranch, if established is to consist the ranch. were properly looked after by a careful feeder of good judgement. The "bad luck" in raising caives by hand comes from too long intervals between the feedings, too heavy feeding, and especially from giving milk at too low a temperature. Let a calf become very hungry from long fasting, then by given an over-feed of cold milk, and one may warrant the calf thereby. There is great need of im. milk, and one may warrant the calf thereby. There is great need of im-to be sick within a very short time. provement in the management of this hog. Give him a chance, and he will

fall more than a degree or two below.

Milk is best heated in a tin pall set in a vessel of hot water, stirring the milk occasionally to keep it from sticking to the sides of the tin in case the water is very hot.

The most successful farmers feed their stock on a variety of feed. Experience has proved that a herd of cattle fed on but one kind of indder, will not be as healthy, or do as well, as if feed on several kinds. While the principal food may be composed of that fodder which can be grown of the the fodder which can be grown of the the fodder which can be grown of the the fodder which can be grown of that fodder which can be grown of the the fodder which can be grown of the treatment of the digestive organs, loss to a good, healthy condition. The best dianet the digestive organs, loss of agood, healthy condition. The results of over-feeding are deranged to over-feeding are principal food may be composed of that fodder which can be grown on the farm to the best advantage, a charge to some other fodder not as all die of ill-usage in a short time.—

If your neighbor sells his wool regularly from year to year for more than you do, there must be a reason for horses for different diseases, and found it to

Family Needs,

showed that it offers great facility for stock keeping. Several farmers an onunced their intention of increasing must have a record in the thirties. In fact some of the leading sporting journals are advising that hereafter no public record be kept of a horse, unless it has a record of thirty-five or better. The lists as published are as tonishing to those who have not watched the development of trotting interests. In 1870 there were 20 horses with records of 2.25 or better. In 1883 the aggregate was 562, and at the close of 1884, had grown to 665. This ratio of increase is surprising to one who does not carefully

It is often asserted that the country limits are should as the parageal farmers and in severe cases other duties are also in severe cases other of unities in severe cases other duties are also fire the form of gruing. Give feed in the form of gruing. The cows were said to give a body of the records of several farmers and onunced their intention of increasing and the remaining and the feed of the feed in the form of gruing. Give feed in the feed of the feed in the feed of the feed in the feed of the feed in the feed of feed in the feed of the must be sel than 10 to 20 per cent in the form of immature grass. And so it is that in the summer time cows are more eager true, providing that in all cases sanighted in bringing together those families which will produce the high est rate of speed.

During the past season 25 of the old 225 list have lowered their seconda while 103 trotted in 225 or compalation around the house and served to the summer time cows are more eager for salt than in winter. Salt is a great aid to digestion and therefore the summer time cows are more eager for salt than in winter. Salt is a great aid to digestion and therefore the summer time cows are more eager for salt than in winter.
