\$1000 and ene year's imprisonment on any person who shall, "playfully or wantonly, point or discharge a gun, pistol, or other firearms, at any other person."

C. J. PALIN

53 & 55 King St. East, Toronto.

Religious banking has been abolished in the diocese lately presided over by Arch-bishop Purcell. Priests are forbidden to

The gallant editor of the Indianapolis News declares: "There are no homely women. Some are more beautiful than others, that is all." This is pushing the theory of relativity to the verge. So considered, there is no badness in the world. Some people are better than others, that is all.

The Ayr Burns monument trustees have completed the purchase of the cottage in which Robert Burns was born. The building has hitherto been used as a public house. It is to be converted into a museum in which relies of the poet will be gathered together. The house and grounds were bought for \$20,000.

The United States census shows that of the whole number of farms, the largest pro- Toronto, portion occupied by actual owners is in New England, 91 per cent. The next largest is 82 per cent in the Pacific states; in the

Since the close of the war the American people have paid out \$530,000,000 in pensions. At the end of the present fiscal year there were 85,697 names on the roll, representing an annual outgo of 854,296,280, and in the last year 27,644 new pensions and 10,231 increased pensions have been granted, and there are yet 269,678 applicants.

is by no means the aged lady that some | was made for No 3 fall; none offered.

by seven for a four-inch wall, by fourteen for an eight-inch wall, and by twenty-one for a twelve-ineh wall, and by twenty-one for a twelve-ineh wall, and by twenty-one for a sixteen-inch wall.

The-long-st line of fence in the world will be the wire fence extending from the lindian territory west across the Texas Pan-Handle and thirty-five miles into New Mexico; We are informed that eighty-five miles of this fence is already under contract. Its course will be in the line of the the Canadian river and its purpose is to stop the drift of the northern cattle. It is a bold and spleudid enterprise and will pay a large percentage on the investment. The fence will be over 200 miles long.

Three French physicians in New York have a remedy for hydrophobia which they into the contract that is a large percentage on the investment. The fence will be over 200 miles long.

When it is a large percentage on the investment. The fence will be over 200 miles long.

Three French physicians in New York have a remedy for hydrophobia which they

have a remedy for hydrophobia which they claim as infallible, and which consists in throwing the body into such a perspiration that the poison will be toroed out of the system through the pores of the skin. They are so confident of its value that either one of them agrees to be bitten by a mad down and the system of the system of the skin. They are so confident of its value that either one of them agrees to be bitten by a mad down and the system of the skin. They are so confident of its value that either one of them agrees to be bitten by a mad down and the system of the skin. They are so confident of its value that either one of them agrees to be bitten by a mad down and the system of the skin. They are so confident of its value that either one of the skin through the system of the skin. They are so confident of its value that either one of the skin through the system of the skin through the state of the skin through through of them agrees to be bitten by a mad d g and undergo treatment by his associated in order to prove its efficacy, provided a pecuniary reward is offered by the government or by individuals for the test.

A series of tests at Bochun, Germany.

A series of tests at Bochun, Germany.

A determine the values of bituminous coal bush or series of steam, show that washed ——wheat 40.0 bush, or so 5000 bush. S 698,125 bush, corn 15.6824, oats 71,550. to determine the values of bitumnous coal in the making of steam, show that washed slack, holding 18 per cent of water and 9 9 per cent of ash evaporated 5.7 pounds of water per pound of fuel; while the same coal, with only 3 per cent of water, made from 8 to 8.5 pounds of steam. Making due allowance for moisture by reducing to a standard of like quantities of coal, free from moisture, there is tounp to be a direct loss by using wet coal of 14 per cent. loss by using wet coal of 14 per cent.

Gordon's new huge dynamo-electric machine has been tried at East Greenwich, England, and has proved a great success It maintained 1300 Swan lamps in a state of incandescence, while but a fraction of its full power was called into exercise. The inventor believes that only with generators of electricity capable of supplying from 5000 to 10 000 incandescent lamps at least the problem of economical electric illuration can be solved. In the macnine ju tried the induced coils remain fixed, whil the electro-magnets revolve.

A few days ago the steamer Carmona, of 3700 tons, passed through the jetties of the 3700 tons, passed through the jettles of the Misr'ssippi from New Orleans, carrying 10 381 bales of cotton, besides a large quantity of wheat, staves and miscellaneous freight, and drawing 24 feet 11 inches of water Before the jettles were built a cargo of 4400 bales was considered as extraordinary. In view of the easy passage of the Carmona and other vessels of equal size, the Southern Pacific railroad is considering the advisability of putting on a regular line.

In a recent performance at Savoy Theatre, London, the head-dress of a fairy shone
