A COMMUNITY PROPOSITION

Mr. E. Roy Sayles, former manager of the Canadian Weekly Newspaper Association, and therefore thoroughly acquainted with the weekly newspaper situation in Canada, says editorially in the columns of his newly-acquired paper, the *Renfrew Mercury*:

"Everywhere there is a growing understanding among business men that the newspaper, while an individual business problem of some publisher, is, at the same time, a community proposition—a community asset. The newspaper serves the community more than it serves the man who publishes it. The time is coming when everywhere business men will feel a personal interest in the newspaper's welfare. The fact is, a community cannot make progress without it. It can exist, but it cannot grow.

"With this realization, there has also come an understanding that one newspaper serves better than two or three. It has become a simple problem of business mathematics to centre the strength of a community behind the newspaper that has made itself, through work and service, the strongest journalistic factor in community development.

"So far as Canadian newspapers are concerned, there have come out of business since 1914, fifty daily newspapers, while 224 weekly newspapers have suspended publication or been absorbed by the other paper in the town. In some counties of Ontario, from four to eight weeklies have suspended publication.

"The announcement of newspaper consolidations will continue. The result will be better and more outstanding weekly papers with improved service to advertisers, subscribers and the community generally."—*Handover Post*.

Press Comment

RESPECT FOR HUMAN LIFE

London Daily News: The new criminal is more adept and resourceful than the one we knew before the war. He is almost entirely either an improved pre-war type or one who has acquired proficiency during the carefree years since the Armistice. Mr. Skrine's statement that "few men can have spent six years in licensed disobedience to the sixth Commandment without retaining anti-social traits," is merely a sweeping generalization utterly unsupported by facts. The same argument has been used in cases of murder, only to lose much of its force when it is discovered that very often the crimes were committed by "ex-service men" who never once saw death in its horrible form during the war.

EMPIRE FOOD SUPPLIES

Glasgow Herald: The fact has to be faced that the most popular imported meat today on the British market (if we except freshly killed Canadian cattle arriving at our ports or "finished" on our farms, which, unfortunately, form no great proportion of our total supplies) is not drawn from an Empire source. It consists of Argentine chilled beef. Australasia is the biggest meat source within the Empire, but Aus-

tralia's frozen meat cannot hope to attain to the favor bestowed on the chilled cargoes from the Argentine.

AUTO SUGGESTION.

Detroit News: An authority says long life may be attained through auto suggestion. The suggestion is not to get into the way of one.

BRITAIN AND MEXICO.

Indianapolis News: Great Britain and Mexico are all ready to resume relations if the Mexicans can be induced to postpone any more violence against British subjects long enough to sign the agreement.

WHO PAYS THE SUBSIDY?

London Daily Mail: The public has still to learn where the money for the subsidy to the mining industry is to come from. It will inevitably have to be paid by other industries, which will be correspondingly injured by this new burden.

SECURITY FOR GERMANY.

Berlin "Deutsche Tageszeitung": No progress can possibly be made unless proper regard be shown for the reservations and objections of Germany. If this is denied, the conclusion of a pact has no further interest for us.

SPAIN AND THE RIFF.

Madrid Libera: It would be a dangerous policy to follow, as far as our position in the world at large and our vital interests in Spain were concerned, to make excessive sacrifices in the pacification of the Riff. Let Spain defend the dignity of her civilizing mission in the rebel zone. Let France preserve the integrity of her African colonial empire, and the Sultan retain the inheritance of his family and his race.

COMMUNIST ENJOYS UNLIMITED TRAVEL

Unable to Land in U. S. or France, Has Been Travelling Nine Months

Paris.—The man without a country has his counterpart in a passenger on a big transatlantic liner who has been enjoying bed and board for nine months on the same boat without being able to land either at New York or Cherbourg because the authorities at either end of the voyage considered him a dangerous and objectionable person.

The man in question is a Communist agitator, and because he insisted on spreading propaganda the American authorities last January decided to put him on the high seas. He was shipped third class on the arrival of the steamer and at Cherbourg the French officials decided to return him to America. The ship carried him back to New York, but again he was not allowed to land and went back to Cherbourg.

Since then he has done nothing but sail back and forth between Cherbourg and New York, consuming considerable knowledge of transatlantic navigation. Steamship officials have made desperate efforts to get rid of him, but to date have been unable to swerve either the American or French authorities from their decision to keep the man from landing. He is now on his way back to the American end.

AN APPLE A DAY

Eat more fruit and keep your skin clear would perhaps be an apt slogan for Canadian Fruit Growers to adopt in this connection possibly no fruit would better fill the bill than apples, of which a bulletin issued by the Fruit Branch of the Department of Agriculture at Ottawa, entitled "Canadian Grown Apples" says, "From a dietetic standpoint the most important function of the apples is that of furnishing mineral salts and organic acids; but it has an important nutritive value as well, furnished by the carbohydrates present. As the fruit ripens starch changes to sugar. The apple has a medicinal value also, especially if eaten at the beginning of a meal or between meals." The bulletin further remarks that no household should be without a box or barrel of Canadian grown apples and then proceeds to give a list of the varieties that should be used at different times as follows:—

September.—Duchess, Alexander, Maiden's Blush, St. Lawrence, and similar varieties.

October, November, December.—McIntosh Red, Pansieu, Blenheim, Ribston, and similar varieties.

DOCTOR ADVISED AN OPERATION

Read Alberta Woman's Experience with Lydia E. Pinkham's Vegetable Compound

Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. Adams, Box 54, Provost, Alberta.

Pains in Left Side

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound advertised in the 'Montreal Standard' and I have taken four bottles of it. I was a very sick woman and I feel so much better I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. Rose, 580 Notre Dame St., Lachine, Quebec.

LIVINGSTONE AUTO TRACK COMPANY

A new industry, known as the Livingstone Auto Track Company, has begun operations in the town of Digby, and bids fair to be a great success. B. J. Livingstone, a wealthy Philadelphian, who has made Digby his summer residence for many years, is the president of the company, and is backing his faith in Nova Scotia by a considerable investment. Mr. Livingstone has already made several trips to New York, Philadelphia and Montreal, in the interest of the company. The Auto Track is an invention designed for the purpose of assisting automobiles out of ditches, mud-holes and snowbanks, and will undoubtedly meet with popular favor. The superintendent of the business is Byron Rooney, of Digby, who is widely known throughout Western Nova Scotia, and whose mechanical ability will be a great asset. A practical demonstration took place a few days ago when a large car going up one of the steepest hills in Digby, when efforts to get out of the ditch were unavailing, the auto track was put under the car and the rest was easy. Further demonstrations will be given later. Mr. Livingstone has already placed several large orders in Canadian and American cities, and the men engaged in the industry are working full time.

Ottawa.—That there are splendid

with the similarity, as they termed it,

of the country in the Maritimes to

that of some parts of the Old Coun-

others, the pressmen were inclined

to see considerable more attraction

for Old Country people in that part

of Canada.
