THE CORBIN LEADS THEM ALL.

This shows the Corbin Harrow with the Removable Seeder Attachment. Every Harrow will take it. It sows all kinds of grain broadcast. It is simple, easily managed, and furnished with a perfected drive gear. Read what farmers say about it. The Harrow and Seeder is one of the most profitable machines a farmer can buy. Why? Because it is easy on team; easy on driver; is the most convenient, the most flexible, the most durable, and sows, cultivates and sod-plowing crosswise, does gang plow work, pulverizes and cultivates—doing all work well. *Every farmer should find out about it.* Send for circular. Read what Mr. Thos. Shaw says about it. Read what the highest agricultural authorities say about it.

THE No. 30 turns the sod either toward the tongue or away from it, and is having a large sale among vine growers and hop raisers.

Buy a good machine while you are about it, and don't be humbugged into buying a cheap, inferior machine, that will be a constant source of trouble.

We make cheaper machines, but can't sell them. Every man wants our best.
