This Beautiful Calendar, a triumph of the lithographic art, will be the prime favourite of the holiday trade. Each page is embellished with striking portraits and engravings of old fortifications, historic buildings, flags, ships, etc., exquisitely reproduced in gold and colours. Each Calendar is enclosed in a neat box, and is accompanied by a leaflet giving interesting notes on the portraits and illustrations. Fully two-thirds of the events given are different from those of the Cabot Calendar of 1897.
