

# MARITIME MEDICAL NEWS.

A MONTHLY JOURNAL OF  
MEDICINE AND SURGERY.

Vol. X.

HALIFAX, NOVA SCOTIA, OCTOBER, 1866.

No. 10.

"Meat and bread together make the essentials of a healthful diet. Such are the facts of experience. The ~~advancing~~ science of later years explains them."

—Prof. Atwater.

## PANOPEFTON

presents all the constituents of those two great types of food in a perfectly soluble, diffusible and absorbable form.

In sickness, the indications and necessities for a comprehensive nutrient are no less plain than in health. The expedient of pre-digesting or peptosizing this food is one of the most rational, scientific and important advancements of modern medicine.

## PANOPEFTON

conserves and imparts energy, sustains the system and enables it to resist the threats of disease; quickly recruits the digestive functions to their normal power.
