

SMALE

Farmer designed livestock handling equipment

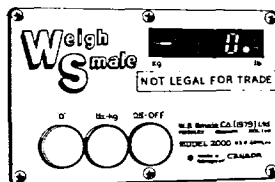

Rugged 4, 5 and 6 bar penning

- high tensile strength $1\frac{5}{8}$ " steel tubing with saddled welds
- 54" high and lengths from 3 to 18'
- economy 4 and 5 bar are ideal for light and medium-duty use
- 6 bar will take the toughest abuse

Versatile feeder sections

- unique design allows the same section to be used many different ways
- one section makes a perfect corner feeder
- three make a 6'6" octagonal
- four make an 8' big bale feeder

Convenient new digital livestock scale

- for cattle or hog catch chutes
- $\frac{3}{4}$ " LED display with pushbutton reset, automatic averaging, plus/minus .01% accuracy
- convenient 110-volt operation
- displays pounds or kilograms
