Export Contact:

Mr. A. Pinsonneault, President

Established in 1978, Build-A-Mold Ltd. (BAM) is a prominent supplier of plastic injection, compression, RIM, and lens moulds to the automotive industry. BAM is a leader in MCT (Metal Core Technology) development, design and tooling. The company is a direct supplier to automotive companies and custom injection moulders with a modern, technologically up to date facility with full CAE (computer aided engineering), CAD and CAM capabilities. All CAD and CAM hardware is networked together with CNC machines on the shop floor. EDM and conventional spotting presses, along with four tryout presses range up to 1,000 tons and the company is able to handle tools up to 35 tons. The company exports to the U.S., Mexico, and Europe.

Product Descriptors:

Compression and/or Transfer Moulds
Injection Moulds, Conventional Edge Gate
Injection Moulds, Hot Runner
Injection Moulds, Insulated Runner
Injection Moulds, Rotating Moulds
Prototype Moulds
Mould Runner & Gating Systems
Reaction Injection Moulding (RIM) Moulds
Rotational Moulding Moulds
Structural Foam Moulds
Thermoset Injection Moulds

Areas of Product Specialization:

Appliances
Automotive
Recreational
