

The regional and institutional concentrations of international activities suggest a need to develop actions to reach a position of equilibrium from both perspectives. The agreements supporting mobility were reported to be operational in nature, resulting from a lack of funding and interest.

To promote international exchanges, it is necessary to develop a supporting program for ANUIES members. Its purpose would be both to advise and inform them of opportunities for cooperation.

Prepared by the National Association of Universities and Institutions of Higher Education (ANUIES), August 1993.
