

RUSTIC BRIDGE TO WILLOW ISLAND.—A glimpse of rustic life in which the hand of man is plainly visible in contact with the hand of Nature is presented in this bridge to Willow Island. It spans a placid breath of the mighty river, and yet beneath these quiet, smiling waters, death lurks in the current. So it is all around here; beneath the quietest surface there is moving always and ever, a current to which if one yields himself will carry him to certain death.
