CREEK WATER NOW IN NORTH TORONTO

Ratepayers' Executive Meeting and Decided to Take it Up Saturday.

MEETING EVERY WEEK

Election of Officers Next Meeting and Local Improvement Discussion.

There is considerable dissatisfaction in North Toronto at present regarding the water supply, reports being current that creek water is being freely used if the supply from the lake is short. The matter came up at a meeting of the executive of the Ratepayers' Association on Saturday evening, and will be one of the main topics for discussion at the next regular meeting of the association, among other things, the executive decided that a meeting will be held every Saturday night at 8 o'clock, and that the annual meeting will be held on Saturday, October 12, at 8 o'clock, and that there will be a discussion regarding local improvement.

William Maguire has started excavation work for three stores on a site that is considered one of the best in North Toronto, just opposite the new postoffice. The stores, which will be of the most modern design, will be ready for occupation in three months.

Harvest thanksgiving services were held yesterday in Christ Church, Deep Park, St. Clement's, Burlington, and St. Catharines. The Rev. J. W. Bretnall, former assessor for the Town of North Toronto, who has been ill at his home for two weeks, is reported to be improving.

Quite a number of cases of typhoid fever have been reported in the past few days. The work of paying Merton street is going rapidly forward. All the grading has been done and the kerbing is now being put in.

Short Chats About Successful Investments

No. 1 Individual vs. Co-operative

WITH the coming of fall activity in all lines of trade the matter of investing money successfully becomes of much importance. Assuming that real estate is the medium decided upon—the best of mediums, by the way, when intelligently selected—how shall those few hundred or more dollars be invested which are drawing but two and one-half or three per cent. in the savings bank, while earning, mark you, two to three times that, simply because your banker knows more about the real capabilities of YOUR money than you do yourself. The usual, the more haphazard and the more risky way is to purchase such land as may be within the reach of the moderate investor, making the first payment and continuing to pay the succeeding instalments, taxes and interest until a buyer comes along, which, in many cases, a remote occurrence.

The second and far more logical way is that may be styled co-operative investing. The really first-class property which can be turned over at a profit within a reasonable time is beyond the reach of the small investor—he must buy the cheap outside stuff or go without. But the capitalist can make large profits by buying.

REAL ESTATE NEWS
OUTLOOK BRIGHT IN REALTY MART

There Has Been Greater Demand for Property During Past Week.

BIG FALL EXPECTED
Clearing Financial Situation and Bountiful Western Crop Encouraging.

Unquestionably the local real estate market is looking up. This is the natural sequence of the bountiful crops which are being harvested and the general revival of fall trade. The heads of Toronto real estate houses are looking forward to a period of general activity during the coming winter and apparently have very good grounds upon which to base their contentions.

Speaking to The World, H. T. Ayres, sales manager of the Pioneer Land and Building Company, Limited, stated: "It is generally conceded by competent authorities that the west is harvesting the most bountiful wheat crop in its history. The elevators are doing capacity business and the large consignments of grain have been shipped in vessel loads down the great lakes. It will be noted in this connection that this movement has been considerably earlier than it has in former years and has this significance attached: It means that the general public will have the money sooner than is usually the case. The farmer naturally will pay off his indebtedness to the bank and deposit the excess of his credit account with the bank, and these millions of dollars will be available for local use."

It is also worthy of note that the United States, already heavily interested in the development of the Dominion, is rapidly becoming a large absorbing market for Canadian securities, as witness the recent large flotations which were readily taken there. All in all, the Canadian market is looking up, and the real estate market very materially aided over the Dominion, although it is gratifying to note that the general public is now in a more optimistic mood and is using more circumspection in purchasing property."

QUEBEC, Sept. 27.—(Can. Press.)—An inquest was held today on the bodies of the eight children of the Trudel family, who lost their lives in the fire that destroyed their home on Friday morning. The jury after hearing the evidence returned the following verdict: "Death by asphyxiation. The jury recommends that the municipal authorities more strictly enforce the rules concerning the construction of buildings, so as to prevent, if possible, a like disaster to that of Thursday night. The jury, further, is of the opinion that the firemen did their duty."

LE PAYS UNDER THE BAN.
Archbishop Bruchési Pronounces Management Against Godfrey Langlois' Paper.

MONTREAL, Sept. 28.—(Can. Press.)—By a mandement read today at high mass in the Roman Catholic church, Archbishop Bruchési placed a ban on Le Pays, the French weekly newspaper, edited and published by Godfrey Langlois, M.L.A., for St. Louis du Mont, Montreal.

Mr. Langlois has been conducting an active campaign for educational reform in Quebec, and the attitude of his paper has been regarded as anticlerical. The ban of the church means that the faithful are forbidden to read the paper.
