

Neurectomy of first division of fifth nerve, 364
of inferior dental nerve, 369
of lingual nerve within the mouth, 370
of second division of fifth nerve, 365
partial operations for, 661
partial, or nerve-stretching, 661
Norton's operation for webbed fingers, 80
Nose, deflected septum operations, 455
drainage through, in suppuration of antrum of Highmore, 433
foreign bodies in, removal of, 454
malignant growths of, 462, 465
von Langenbeck's operation for, 468
Moure's operation for, 167
Ollier's operation, 466
Rongé's operation for, 466
operation on fosse, 454
polypi, removal of, 459, 461
repair of, plastic operations for, 443
restoration of, complete, by double or superimposed flaps, 445
by frontal or Indian method, 448
by Italian or Tagliacotian method, 449
operations for, 446
partial, operations for, 451
turbinectomy, 455
Novocain in anoci-association, 1007
Obesity, operations and, 4
Occipital artery, ligation of, 671
Odontomes, removal of upper jaw for, 421
O'Dwyer's intubation instruments, 576
method of intubation of larynx, 579
Edema, pulmonary, 41
Esophagectomy, 652
Esophagoscopy, direct vision, indications for, 605
Esophagostomy, 652
Esophagotomy, 649
after-treatment, 651
causes of death after, 652
difficulties in, 652
operation of, 650
Esophagus, foreign bodies in, removal of, 602, 608
operations on, 649
pouches of, operation for removal of, 656
removal, 653
Olecranon, fracture of, compound, 163
old-standing, 163
operation for, 162, 163
operation for lengthening triceps in, 164
simple, 162
Ollier's bayonet-shaped method for excision of elbow, 156
method of tendon shortening, 104
operation for excision of wrist-joint, 114
operation for malignant growths of nose, 466
periosteal elevator, 154
Omo-hyoid, ligation below, 685
Openshaw's method of osteoclasis, 959
Operating room, preparation of, 18

Operations, after-treatment of, 27
effect of the lesion upon ultimate result of, 7
immediate danger of, 7
lateral position in, 22
lithotomy position in, 23
mode of procedure of, 21
position of patients during, 22
preparation of patient for, 12
prevention of shock after, 27, 1006, 1008
prone position in, 22
risks in, 6
technique of, 22
Trendelenburg position in, 22
Optic nerve, surgery of, 407, 409
Oral sepsis, 11
Orbit, exenteration of, 408
inner angle of, fracture of, trephining in, 253
Orbital aneurysm, 677
Orbital wall, external, temporary resection of, 409
Os calcis, excision of, 914
non-union in Pirogoff's amputation, 935
removal of fore-part, 969
Osteitis, cranial, 261
Osteo-arthritis of elbow-joint, 148
Osteoclasis, manual in tibial curvature, 959
Osteomata, removal of upper jaw for, 422
Osteo-mylitis, excision of elbow-joint and, 160
Osteoplastic amputation of leg, Bier's method, 906
Osteoplastic flap in operation for growths of brain, 313, 315
Osteoplastic operations on upper jaw, 469
Osteotomy, Adams' operation, 953
causes of trouble after, 959
cuneiform, of neck of femur, 832
sub-trochanteric, 832
for ankylosis of hip joint, 953
for coxa vara, 953
for genu valgum, 955
Cant's operation, 954
indications for, 953
of tibia, 958
splints after, 957
sub-trochanteric, of neck of femur, 832
tendon lengthening by, 100
Osteotribes or burrs, 339
Otitis media, complications of, by meningitis, 353
by thrombosis of lateral sinus, 353
intracranial complications of, operation for, 354
treatment, 349
results of, 336
suppuration, operations for complications, 332
Oversalls, preparation of, 19, 21
Pachydermatocele of scalp, 244
Palate, cleft, after-treatment of operation for, 525
Brophy's operation for, 523
flap operation and Langenbeck's operation compared, 522
