

D. APPLETON AND COMPANY'S PUBLICATIONS.

BIRD-LIFE. A Guide to the Study of our Common Birds. By FRANK M. CHAPMAN, Assistant Curator of Mammalogy and Ornithology, American Museum of Natural History; Author of "Handbook of Birds of Eastern North America." With 75 full-page Plates and numerous Text Drawings by Ernest Seton Thompson. 12mo. Cloth, \$1.75.

Also, edition in colors of the above, 8vo, cloth, \$5.00.

"A volume exceptionally well adapted to the requirements of people who wish to study common birds in the simplest and most profitable manner possible. . . . As a readily intelligible and authoritative guide this manual has qualities that will commend it at once to the attention of the discerning student."—*Boston Beacon*.

"An interesting mass of data collected through years of study and observation. . . . While accurate from a scientific point of view, it makes delightful reading for those who will soon be among the flowers and the fields."—*Philadelphia Inquirer*.

"A careful reading of this book, which is well indexed, will open the eyes of many who have never seen the beauties of our birds before, and one can not help being interested in the book. While the ornithologists owe Mr. Chapman a debt of gratitude for putting forth such a delightful volume, the ordinary reader owes him more, bringing, as he does, that reader in close touch with a new and beautiful world—the world of birds. The book is decidedly charming from every point of view."—*Cincinnati Commercial Tribune*.

"Unusually beautiful in itself, but it deserves praise because the colored pictures of the birds approach more nearly the natural appearance than usual. . . . Compared with these, the colored pictures of birds one usually sees are gaudy."—*Boston Herald*.

"His chronicles are full of the enthusiasm of the born naturalist. He gossips about the affairs of birds in a delightful strain, making 'Bird-Life' an irresistible invitation to a fuller study of ornithology. It is not dry details he offers, but pretty stories, biographical sketches of interesting families—all sorts of birdlore, that proves the most enchanting reading. A great advantage in this work will be found in the beautifully colored illustrations, . . . which have received the greatest care in preparation."—*Chicago Evening Post*.

HANDBOOK OF BIRDS OF EASTERN NORTH AMERICA. With Keys to the Species; Descriptions of their Plumages, Nests, etc.; their Distribution and Migrations. By FRANK M. CHAPMAN. With nearly 200 Illustrations. 12mo. Library Edition, cloth, \$3.00; Pocket Edition, flexible morocco, \$3.50.

"A book so free from technicalities as to be intelligible to a fourteen-year-old boy, and so convenient and full of original information as to be indispensable to the working ornithologist. . . . As a handbook of the birds of eastern North America it is bound to supersede all other works."—*Science*.

"The author has succeeded in presenting to the reader clearly and vividly a vast amount of useful information."—*Philadelphia Press*.

"A valuable book, full of information compactly and conveniently arranged."—*New York Sun*.

"A charming book of interest to every naturalist or student of natural history."—*Cincinnati Times-Star*.

"The book will meet a want felt by nearly every bird observer."—*Minneapolis Tribune*.
