JEW IS AN ANACHRONISM IN OUR MODERN SOCIETY

Montreal, March 17.—Rev. Dr. J. Edgar Hill, president of the Lord's Day Alliance of Montreal, who has been active in connection with the promotion of the bill now before parliament seeking for more strict enforcement of Sunday observance, has published a letter in reply to the contentions of the deputation which visited Ottawa on Thursday for the purpose of setting forth the contentions of the Jewish populations of Montreal in respect to their objections to being forced to observe two days of rest.

"The bill in question," says Dr. Hill, "is a bill of a Christian government in a Christian land. No apology needs to be made to the Jews for that fact, just because no bill revised by Christian men could possibly meet the views of the Jews in that regard."

"Further on in his letter Dr. Hill says: 'The Jewish Sabbath being held on a different day in the week from the Christian Sabbath may be unfortunate for the Jews. But on British soil they get many privileges which are denied them elsewhere, and most of them prefer life in Canada, with the security of protection of the British law and justice, even with that disadvantage to life in Germany, Russia or even France, with the history of the last 20 years behind them. They ought to be at least thankful for this good land, in which they have found a peaceful home on this continent.'"

He then goes on to enumerate that bakers, cigar dealers and newspaper vendors of the Jewish persuasion are the principal offenders against the present law.

"The trouble with the Jews everywhere," adds Dr. Hill, "in London as well as in Montreal, is that the Jew is an anachronism in modern society."

"The Jews Sabbath being held on a different day in the week from the Christian Sabbath may be unfortunate for the Jews. But on British soil they get many privileges which are denied them elsewhere, and most of them prefer life in Canada, with the security of protection of the British law and justice, even with that disadvantage to life in Germany, Russia or even France, with the history of the last 20 years behind them. They ought to be at least thankful for this good land, in which they have found a peaceful home on this continent."
