

## FIGHT IN C.P.R. STATION FOLLOWING COURT CASE

Railway Authorities Have Summoned  
Number of Brampton and  
Caledon Farmers.

BRAMPTON, Nov. 4.—(Special).—The C. P. R. authorities have summoned a number of Brampton and Caledon farmers to appear before the police magistrate here on Thursday, to answer to a charge of creating a disturbance in the Brampton station.

The trouble arose out of a dispute over a promissory note made by one George Hand of Mulmur, in favor of John McBride, Jr., of Caledon. McBride obtained possession of the note again, as McBride claimed, under false pretences and a charge was laid against him on that count, the case coming before Magistrate Crawford, who committed McBride to trial.

After the trial Hand, John McBride, his son, John McBride, Jr., and a friend named Austin were at the C. P. R. station waiting for the 6.30 train. A row occurred between the McBrides and the McCollums, and for a time created great excitement and confusion in the station. William McCollum had his nose broken and was otherwise injured about the head. His father, N. McCollum was also very badly handled and has been in bed since the affair. Summonses are out for the three McCollums, the McBrides, Austin and Hand. John McBride, Jr., is deputy reeve of Caledon.

## LEFT CORPSE IN STORM.

Farmer Tells Strange Story of House-keeper's Death.

WOBURN, Mass., Nov. 4.—Medical Examiner Harrison G. Blake of this city, went to Burlington yesterday to investigate the death of Mrs. Sarah Higgins, aged 60 years, whose body was found at the home of George Stubbs, a farmer, for whom she acted as house-keeper.

Stubbs told the medical examiner that Mrs. Higgins had been missing for several days, and that Saturday night he went into the cellar to get some potatoes, when she stumbled over the body. Not liking the idea of remaining in the house with the body during the night, Stubbs says he opened the bulkhead leading from the cellar and drew the body out into the back yard, where he covered it with some pieces of burlap. There the body remained thru Saturday night's storm.

Sunday Stubbs went to the home of a constable at Burlington Centre and notified him of the case. The constable found the body on the face and side of the head.

## To Suffer From Headaches Makes Life Miserable.

It takes a person that has had and is subject to headaches to describe the suffering which attends them.

The majority of cases are caused by constipation and dyspepsia. The dull throbbings, the intense pain, sometimes in one part, sometimes in another, and then over the whole head, varying in its severity by the cause which brings it on, purely indicates that there is something the matter with the stomach or bowels. To the fact that Burdock Blood Bitters reaches every part of the system is due its success in relieving and permanently curing headache. It has proven a specific for the malady in all its forms.

Mr. Wm. R. Gilchrist, New Mills, N.B., writes: "I was troubled for years with constipation and headaches, but after using four bottles of Burdock Blood Bitters I am completely cured."

## WHEN SHALL A FIREMAN BE ALLOWED TO RETIRE?

Committee Resumes Consideration  
of Pension Scheme—Island  
Committee Meets.

The firemen's benefit and pension fund came up before the civic fire and light committee yesterday, the particular phase under consideration being the proposal that men who had been in the service of the department for twenty-five years should be allowed to retire on an allowance equal to one-half the salary at the time of such retirement.

Chairman McBride said he would be opposed to superannuation on such basis, as a fireman, entering at 20, would be enabled to retire at 45, while in the prime of vigor. Secretary McGowan will submit a list showing when each fireman joined.

A bill of \$300 presented by Dr. Uren, covering professional attention to Fireman Matthew Sawdon of aerial No. 2, who received serious injuries while on duty, was objected to by Chief Thompson, who thought \$100 should be sufficient. The committee, however, passed the claim.

It was agreed that that portion of the Fireman's benefit fund which is set aside for a clubhouse site on Mugg's Landing, the application for a site of 300 feet by a depth of 100 feet, Ald. McBride objected that the fee of \$100 per year was too high. The committee decided that the only issue to be decided was whether the city should do the filling in and the cost against the club, or whether the organization should carry out the work. The alderman decided that he wasn't going to be bullied by Mr. Stock or anyone else, adding that the committee might not succeed in the present instance. The committee recommended that the city undertake the work.

The National Spirit.  
President Falconer's Address Before the Canadian Club.

"The Necessity of Breadth in National Life" was the subject of a stirring patriotic address by President Falconer of Toronto University at the Canadian Club luncheon yesterday.

The great Dominion was physically broken up and divided. The maritime provinces were cut off from Ontario, the centre pin, by the great Province of Quebec, while the great lakes separated us from the prairie provinces, the Rockies from British Columbia, and the national life, however, appeared to leap over these natural boundaries, as if the great spirit of the nation were a great similarity of ideas that existed in all the provinces.

Across the border the racial difficulties were far more pronounced than in a different character than at St. Paul or Seattle. The elements in those different cities would not fuse. In Canada the character was different. The old racial barriers were being broken down.

"I believe," said Dr. Falconer, "that one of the most potent influences for good has been that of Ottawa. It has led to a better feeling between the United States and Canada. I look to a bigger influence emanating from there in the future, that will be felt in the remotest districts of the country. The people are getting broader views and the religious and educational institutions are welcoming the peoples together as no other influence can. They are affiliated with the great institutions of the motherland. At their annual meetings representatives from all parts meet and exchange ideas. In this way people get to know each other and become more tolerant. One result of this is seen in the great assimilation movement that is taking place in the eastern provinces.

"Political, religion and education are the three great factors that are laying the foundation of the new manhood. Canada offers opportunities for a type of statesmanship unequalled in the world."

## ENTERPRISING TOWNSHIP.

Stamford Is Making Good Use of Niagara Falls Power.

The members of the Stamford Township council deserve congratulation upon two grounds. They are the first country municipality to introduce the system of public ownership into the lighting of their highways, and they are obtaining an unusual privilege at an unusually low figure. Possibly a third reason lies in the circumstance that it is probably the first township in the Dominion to light its township in a fashion at all events in so general a fashion.

The contract provides for the illumination of two splendid roads, which are said to rank among the finest on the continent, the first extending from the City of Niagara Falls to Stamford Village, a distance of three and one-half miles, and the second the Stamford Lane-road, running from Stamford westward two miles. Many small lights, placed rather close together, are being used; and the light is supplied by an Ontario Power Co. subsidiary company. In addition, however, a considerable number of residences, principally private homes, along these roads will be lighted by electricity.

The township will pay a gross sum of \$500 a year; while the individual contracts will yield the company \$200 per annum; and, as a matter of fact, in both instances the electric light is being furnished at a lower rate than is enjoyed by the users in the City of Niagara Falls itself.
