Reward Women

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I used four bottles of your 'Favorite Pre-"I used four bottles of your 'Favorite Prescription' and one of 'Golden Medical Discovery.'" writes Mrs. Elmer D. Shearer, of Mounthope, Lancaster Co., Pa., "and can say that I am cured of that dreaded disease, uterine trouble, Am in better health than ever before. Everyone who knows me is surprised to see me look so well. In June I was so poor in health that at times I could not walk. To-day. I am cured. I tell everybody that Dr. Pierce's medicines cured me."

To judge from the remarks made to The World last night by one of the oldest non-commissioned officers of high rank in Canada, the milita is on the verge of an upheaval of no small dimensions. He summed up his opinion of present conditions in one force foil sentence:

The milita from one end of the country to the color, is in a state of the sentence:

They have to dive into their own pockets for those accessions that make them look smart. If a man is to make a good appearance on parade, it costs him something."

The Benefit of Ocean Traveling. It is said that a trip abroad will do more towards making new men and new women than all of the theories ever advanced by medical men. It is nature's workshop on the most improved scale, and also gives a wider vision and a different view of men and things. In regard to the benefits and advantages of ocean traveling there is no doubt; but the perplexing question heretofore has been the expense and how to overcome it. The Anchor Line offers a solution of the problem in its low rates and unsurpassed steamships and service. Once on board one of his commodious steamers the passenger seems to experience a higher and better life, and forgets that trouble ever existed. The voyage is one of pleasurable companionship and activity, or of absolute rest and seclusion, according to the desire of the individual—a trip for those who wish to retain their health as much as for those who have lost their health. ever advanced by medical men. It is Cared. who wish to retain their health as much as for those who have lost their health. The accommodation and comforts provided on all steamships in the Anchor Line service are unsurpassed, and the old established reputation of the line for safety has won for it the name of "Old Reliable." Any person interested in foreign travel will find valuable information in the new Anchor Line Book of Tours, which may be had free upon request to Henderson Brothers, general agents, 17 and 19 Broadway, New York.

At last there is hope for the army of young, old and middle-aced men who either through early indiscretions, later excesses or exposure find themselves lacking in virile power. How many of you are now reaping the harvest of your folly! At last you are face to face with the realization that nature cannot be decived, neither does it forget the wrong done it, whether through ignorance or otherwise; but the punishment always corresponds with the amount of abuse committed. Do not, however, lose hope, as there is a cure, thanks to Dr. Goldberg, the noted specialist, who can give you what is rightfully yours—perfect manhood. If you are not what you should be; if you have stricture, prostatic trouble, sexual weakness, varicocele, lost manhood, blood poison, hydrocele, emaciation of parts, impotency, rheumatism, bladder or kidney trouble, heart disease, nerrous debility, etc., write at once to Dr. Goldberg, and he will send you his method of curing these diseases froe of charge.

The doctor has received fourteen diplomas, certificates and licenses from colleges and state boards of medical examiners, which should convince you as to his standing and abilities.

His acceptance of a case for treatment is equivalent to a cure, as he never accepts an incurable one for treatment, and should you decide to doctor with him youmay

Pay When You Are Cured. The doctor realizes that it is one thing to make claims and another thing to back them up, so he has made it a rule not to ask for money unless he cures you, and when you are cured he feels sure that you will willingly pay him a small fee. It would seem, therefore, that it is to the best interests of every man who suffers in this way to write the doctor at once and confidentially lay your case before him. He sends the method, as well as his booklet on the subject, containing the 14 diplomas and certificates, entirely free. Address him simply

Not a penny is to be paid me or placed on deposit in any way until you are cured or fully satisfied, and then the price is only it in many cases. I have made the greatest success ever known, placing my cure with sufferers on its merits, and will not be satisfied until every such one has tried it. Being a crowning success, my beits are of course imitated. But the valuable advice I give is only got from ripe experience and is mine alone. Wiarton Canadian: The member for York in the Dominion house, W. Fy Maclean, has for years been fighting the trusts and grafters, advocating public ownership of all public utilities—such as railways, telegraphs, telephones, etc. He has been much abused and ridiculed for his course, but stuck manfully to his job, and Mr. Borden's declaration in favor of the country building and owning the Grand Trunk Pacific is the first great triumph of the principles so long advocated by Mr. Maclean—principles that are bound to prevail sooner or later. It takes a long time to educate the people to such revolutions, but once they grasp and understand the intention they learn quickly, and Mr. Maclean will likely live to see his socialed hobby adopted by the people of the Dominion. The country has got to get rid of the grafters—the 10 per cent. Contract jobbers—and the course advocated so long by the member for York, and now adopted by the Conservative party is a great step forward to that and now adopted by the Conservative party is a great step forward to that and now adopted by the Conservative party is a great step forward to that and now adopted by the Conservative party is a great step forward to that scholarship of £80 a year, or \$400, has
