Of Interest to Women

Emancipation of Woman.

In the Normal School Theatre yesterday Rev. R. J. Hutcheon, M.A., of the Unitarian Church, delivered an interesting and timely address on "What is the Real Emancipation of Woman." to the Canadian Household Economic Association.

Mr. Hutcheon divided his subject into three parts; first, the emancipation involves the development of personality. He showed how slowly the sense of personality had grown in the world and the place of personality in life. The right to choose one's calling, to develop one's own religious, moral and political opinions, to be responsible for the general direction of one's own life—that, is the right to be an individual. Woman has as much right to be a person as man has. Supersition and prejudice are in more charming in her than he's husband or brother. She has a fight to everything she needs to develop her personality. Second, woman needs to be emancipated in the home. She must be free to choose whether she shall marry, whom as healil marry, and also free to protect herself from the possible abuses and infidelities of her husband. She can do this only by being able to support herself outside of marriage.

This makes her independent and educates her to administer her own home. Woman must also be in a position to break the marriage tie, for valid reasons. Our divorce courts should be accessible to the poor as well as the rich.

Divorce does not show that society breaks the marriage vow lightly, but raither that it thinks so highly of that relationship that it shall not perpetual.

well as the rich.

Divorce does not show that society breaks the marriage vow lightly, but rather that it thinks so highly of that relationship that it shall not perpetuate where it has lost all of its romance and sacredness. In the third place, woman must be emancipated in the state. The speaker showed that the state in its present shape was a mere historical incident. There is no law in the constitution of nature making man sole ruler. Woman should have the vote to protect her own interests.

accomplishing in the modern world it its stupidity to say she cannot be educated so to vote as well as men. The president of the association, Mrs. Archibald M. Huestis, replied after the close of the address, agreeing with the speaker, but pointing out the disastrous effect it had on the liquor question in Australia. A hearty vote astrous effect it had on the liquor question in Australia. A hearty vote of thanks was proposed and rendered to Hr. Hutcheon by the ladies. Among those present were Mrs. Torrington, president of the local council of women of Toronto; Mrs. A. S. Rodgers, Mrs. Garnett, Mrs. Cringan, Mrs. Jas. Noble, Miss Beardmore and Miss Vegates.

PEMBROKE, April 14.—(Special.)— North Renfrew Conservatives to-day selected candidates for both houses. A. Other nominees for runnings for the legislature were: Gideon Delahaye, Pembroke; Alexander Morris, Pem-Pembroke: Alexander Morris, Pembroke; George Biggs, Alice Township, and Pter White, K.C., Pembroke. Mr. White was dropped out. The first ballot resulted: Delayhaye 208, Morris 207, Biggs 108. The second resulted: Morris 255, Delahaye 231. This meant that Morris, who is county treasurer, will be candidate for the legislature. Walter Beatty, Pembroke, was elected president of the association for the ensuing year.

Peter White voiced his opinion thus:
"I believe the Conservative party is in first-class trim. I believe that you are ready to do a killing, and that you are going to go out and do it."

Gerald White put himself on record as strongly favoring the Georgian Bay Canal scheme, and said he wanted to see the Dominion Government do something in this matter quite differen. "Before he took up the reins of government there were dens of vice at Toronto and Fort Erie, and the license laws were not enforced. He has changed that. The day of the numbered ballot box is gone. Whitney had said, 'Put me in power and I will strike from their wrists the shackles that the Ross government put on British subjects in this province. Every man shall have a right to vote in secret,' and that promise has been kept. The day of graft is dead in the City of Toronto, but I am sorry to say, it is not dead in Ottawa." (Cheers.)

The meeting, which over 600 attended, was the best attended political convention ever held here, it broke up with cheers for the King and the candidates.
