Mr. Edmund Assels, New Carlisle, Que., writes:—"I feel it my duty to let you know of the great cure I have obtained by using Doan's Kidney Pills. I was troubled with my kidneys for two years. I tried a doctor, but he failed to help me. I read in the B.B.B. Almanac about Doan's Kidney Pills. Doan's Kidney Pills, and began using them, and after the first box began to feel better. His partner, R. A. Wilson, now in Spokane, says Gates is to have a half interest in the property for his work in opening the mine, the cost of this being \$165,000. As Gates has ample backing, it is believed he will be able to clean up another fortune.

The mine is 30 miles from the coast,

IS MUZZLING LAW DEAD LETTER?

It is stated on good authority that legislation in York County with respect to the muzzling of dogs is largely a dead letter. In some cases as many as half a dozen dogs have been seen on the upper portions of Yonge-street running together at large without muzzles, tho in some cases accompanied by their owners. With the adoption by all of the municipalities of this bylaw, no apology can be offered for such open violation of the order.

SUES MARKHAM AND VAUGHAN.

A suit which is causing a lot of litigation, and is of especial interest to York County people, is that now in progress between the joint municipalities of Markham and Vaughan on the one hand, and Mrs. Emma Gamble of Elgin mills on the other. Workmen engaged in taking out gravel from a pit owned by the two municipalities were using dynamite, from which cause, it is alleged, Mrs. Gamble received permanent injuries. The plaintiff is suing for \$3000 damages, and the case, which was not concluded when the court rose will be continued on Monday.

COUNTY WELL REPRESENTED.

The good roads convention, brought to a close on Friday afternoon, was attended by more delegates from York County than at any previous meeting in the history of the association. Ex-Warden W. H. Pugsley, who has been one of the pioneers in the movement, said last night to The World: "The convention just closed has been the best ever held here. In attendance, enthusiasm and a desire to accomplish something we are far shead of any former meeting."

Some of the delegates from York County present were: Reeve Pugsley of Richmond Hill, Reeve D. C. Longhouse of Vaughan, Reeve Henry and Deputies Watson. IN AID OF WORKMEN. Industrial Insurance on Increase in Germany.

To the many forms of industrial insurances now in successful operation thruout Germany, several Prussian municipalities purpose adding an in-surance for the unemployed. The plan most likely to be followed will be upon the lines laid down in Cologne and

The principles underlying the system in Ghent are mainly these: The in-surance of the unemployed lies primar-ily with the workingmen's associations. To the amount paid to a beneficiary by these organizations, the mu-nicipalities add 50 per cent. of it when it is shown that the man's non-employment is due to no fault of his own, such as a strike or a lockout. The city's contribution, however, is not to exceed a mark daily. Questions arising as to the reasons of non-employment, whether by fault of the employer or threw out the request of a small body of residents of Uttley-street, asking that the name be changed to Pacafic crescent. Ald. Anderson opposed the petition on the groun dthat the present name was commemorative of one sent name was commemorated and the clark of the c employment agency, besides deciding the amount of financial aid, traveling expenses and similar questions.

The question of the adding of musicipal financial aid to the sums paid out by the workingmen's associations

to their members first arose in Ghen almost ten years ago. A special fund was raised for the purpose of aiding workingmen out of employment. The workingmen out of employment. The workingmen's associations, or unions, as we would call them in America, who desire to participate in the benefits of this fund must inform the trustees. A condition precedent is a clear differentiation between aid for strikers and those without legitimate employment. As to the amount and manner of distribution, the unions must have definite printed rules and regulations. Aid is only extended in cases of involuntary, complete or partial non-employment and in cases where men are out of employment in consequence of the destruction by fire of factory buildings, and so on. For no longer a period than sixty consecutive days is aid given in any one year. The amount to be given varies with conditions, and aid can only be extended to a man who has dwelt in the city for

a month, at least. In order to enable workingmen who are not organized nor members of any union to be beneficiaries, a communal savings fund was created and the participants in this fund were aided to the same extent as were the aided members of any union. The unorganized workingman was compelled to procure a savings bankbook (pass book). If he became without employment and drew upon his savings he would receive financial assistance, but only after he had been a member of the savings fund for at least three months, and could only draw upon sav-ings which had been deposited at least three months prior to losing his po

The system in Cologne rejoices in rather long-winded title. It calls itself the "Fund against non-employment in winter, of the City of Cologne." This fund is raised by contributions from patrons; the insured, the City of Cologne, societies, associations, employers and so on. Any one can become a patron by a single contribution of 300

marks (almost \$75). Any male person over eighteen years of age not depending for his living on any one else can become one of the insured. Persons unable to adduce proof of regular employment and "odd ob" men are not admitted to member-
