Prohibition in the States

Diverts Liquor Traffic to Insidious Channels

IN New York State there are 932 townships, of which 421 are dry and the rest wet. Prohibition does not, of course, prevail in any of the larger cities or towns. In the smaller ones, where it does prevail, its inevitable consequences are making themselves manifest. "Blind pigs" abound, in fact there are now many more "blind pigs" than there were respectable licensed houses in former days, with a marked increase of drunkenness, especially among young men.

The "Kitchen" Still

The "Kitchen still" is now coming into vogue. This device is the cleverest so far produced. A correspondent of The New York "Sun" says:

"When anyone desiring an alcoholic liquor can take an ordinary tea kettle, a few feet of rubber tubing and a pall of water and with this simple apparatus convert a quart of molasses into a quart of full proof whiskey, it must be evident to even the most fanatical believer in the power of governments to make men temperate by law that their scheme will not work."

Grave Dangers Financially

It is noticeable, too, that in the smaller cities and towns the attack on the hotels, driving many into bankruptcy, has tended to lower the value of real estate. If prohibition were carried in Ontario we might expect similar results. Can we afford to venture on such an experiment at a time like this, when commerce depression is already severe enough and real estate and property of all kinds are down in the depths?

Every Man His Own Distiller

A bill for enforcing prohibition throughout the United States by a national law is now before Congress, but its author, Mr. Hobson, candidly admits that it would not prevent a man from "making liquor in his own home for his own use." Then of what use would it be? Its supporters aim to stop the public sale of liquor, but for constitutional reasons cannot interfere with its private manufacture and consumption. A newspaper correspondent says on this subject:

"It has always been contended by the opponents of prohibition that its worst result was the creation of a spirit of hypocrisy in relation to the liquor problem. Could there be a clearer case of insincerity and dishonesty than the pretence that national prohibition will stop liquor drinking, when its advocates admit that they do not propose to prevent the production and use of liquors, but simply to stop their sale?"

"Blind Pigs" Flourish at Expense of Hotels

In the States the cry is that while such a law would cripple thousands upon thousands of hotels and depreciate the value of all adjoining property, it would not and could not render the community any the more sober; and the cry is sure to be defeated. We in Ontario are confronting precisely the same dilemma. We are asked to play havoc with something like 1,500 hotels, but no man can promise that "blind pigs" and "kitchen stills" without number shall not take their place and entail wholesale demoralization upon young and old.

The Personal Liberty League of Ontario believes in temperance and in all things, and in its promotion, we favor the license system under proper regulation and control, but we are opposed to prohibition or any legislation which enforces upon or curtails the purely personal liberties of our people.

Application for membership cards should be sent to The Personal Liberty League of Ontario, Head Office, 15 Wilton Avenue, Toronto.

No fees are required for membership in the League.

Fill out the application for membership card and forward to the Secretary of The Personal Liberty League.

Take Iron, Says Doctor, if You Want Plenty of "Stay There" Strength Like an Athlete!

Ordinary Nuxated Iron Will Make Delicate, Nervous, Run-Down People 200 Per Cent. Stronger in Two Weeks' Time in Many Cases.

NEW YORK, N.Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. Sauer, a specialist of this city, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. Have seen dozens of nervous, run-down people who were all the while, double and even triple their strength and endurance and entirely

get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, from acetate or tincture of iron simply to save a few cents, otherwise it may prove worse than useless. Many an athlete or prize-fighter has been run-down because he has taken the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone down to ignominious defeat simply for the lack of iron.

NOTE.—Nuxated Iron, recommended above by Dr. Sauer, is one of the newer organic iron products. It is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous run-down conditions. The manufacturer has such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent. or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Liggett's Store, O. Tamblyn, Ltd., and all other druggists.
