allies battle line, have been thrusting back Bulgar attacks with great regularity. Fighting in the past few days has been particularly severe and the enemy's losses correspondingly heavy.

Apart from the Greek situation interest is being divided between the Balkan operations and surmise concerning the general campaign plans of Von Hindenburg. British expert opinion is inclined to hold to the view that this appointment portends the resumption of a big Austro-German of-fensive on the eastern front and it is thought that the kaiser's hope of a fensive on the eastern front and it is thought that the Raiser's hope of triumphant entry into Petrograd has not been finally abandoned. If such an enterprise as this is attempted, it will be a final admission of complete failure in the west. Moreover, it is inconceivable that the Russians with their immense reserves of fully trained men and abundant supply of muntheir immense reserves. itions from Japan, could be forced back as they were in the Austro-German drive of last year.

Is the German morale definitely giving way under the terrific pounding of British and French artillery on the Somme front during the past two months? Incidents, small in themselves, often carry deep significance and the ready surrender of small parties of the enemy during the past few days may be symptomatic of a widespread disorder. Frederick Palmer, the veteran correspondent on the British front, has been struck by this recently developed Teutonic tendency to submit tameely, and the British official report of yesterday, commenting on the capture of a number of Germans who had been defending a salient south of Martinpuich. says: "They belonged to a Bavarian regiment and their willingness to surrender instead of returning to their lines is interesting." The Bavarian has usually been rated a stout opponent, but, with true Teutonic phlegm, he is ready to admit when he has had more than enough.

His condition is regarded as serious.

For some time trouble has been brewing between the members of the Toronto Union of the Theatre Stage Hands and the properietors of the local play houses. The stage hands are not satisfied with the present scale, which ranges from \$18 to \$25 per week and have asked the theatre managers for a raise of \$8 a week all round.

REHEARSAL FOR C. N. E.

Soldiers With Blackened Faces Attack the "Hun" Trenches.

special to The Toronto World. CAMP BORDEN, Aug. 31.-A spectacular event in camp tonight was a representation of how a raiding bombing party would carry out an attack on the Hun trenches after dark.

Mines, rifles, grenades, bombs, star shells and rockets were included in the device used by the opposing sides. It was the first time night bombing work has been tried here. The contest, which was conducted under the direction of Capt. N. P. Kelly, district hombing officer, was a rehearsal for the grenade throwing exhibition to be given next week at nights before the grand stand at the C.N.E., Toronto.

Several hundred soldiers were spectators of the mimic battle. The raiding party advanced toward the "Hun" trenches with faces blacked, as is the custom at the front.

The climax of the battle was the blowing up of the enemy's machine gun emplacements by the exploding of land mines.

An interesting ceremony this afternoon was the presentation of colors to the 161st Huron battalion. The colors are a gift from the Ladies' Aid Society of Exeter. Capt. J. K. Farrfull, 161st Battalion, chaplain conscreated the colors. Rev D. W. Collins of Windsor, formerly of Exeter, spoke on behalf of the presentation committee in reply

CAMP BORDEN, Aug. 31.—In view of an urgent need for reinforcements for the signal training depot, Ottawa, and the Engineers' training depot, Ottawa, and the Engineers' training depot, militia headquarters has authorized voluntary transfers of men from other units who have the required qualifica-

cations, and that "if such transfers are not voluntary made in Canada, they will apparently be ordered in England, in order to obtain the men required."

It is not intended that such a number of applications should be granted in the case of any one bettellion as will in the case of any one battalion as wil in the case of any one battalion as will embarass any unit under orders to proceed overseas, but this is not a matter which is to be left to the discretion of C.O.'s, but to be reported to Camp Borden headquarters for trans-

mission to Ottawa, for a ruling.

Most men required for the Engineers are carpenters, but plumbers, blacksmiths, bricklayers and masons are also needed. For signalers telegraphers, telephonists, instrument repairers, linemen are among those required, and electricians are required by both de-

Word received here today told of the safe arrival in England of the 127th York County Battalion. Lt.-Col. F. F. Clarke, commander; 129th Wentworth, Lt.-Col. W. E. S. Knowles, and 135th Middlesex, Lt.-Col. R. Robson. All three units left Camp Borden during

August.

Three more battalions will go soon to Niagara Camp. The 220th Yorks, Mount Dennis, Lt.-Col. B. H. Brown, go Sept. 6 and 8; the 234th Peel, West Toronto, Lt.-Col. W. Wallace, Sept. 5 and 7; 182nd Ontario, Lt.-Col. A. A. Cockburn, Whitby, Sept. 5 and 7. Officers of the active militia who obtain appointments in the Cornellor. August. obtain appointments in the Canadian expeditionary force of a lower rank than that held by them in the active militia have been notified that they are to wear rank badges and sign themselves according to their C.E.F. rank and not the rank they hold in the militia.

Too Many Are "Sick."

It is stated by headquarters here that in the case of many battalions at Camp Borden men who are on pass do not return when they should, the teason being given that they are sick. Also, it is reported that in certain battalions men are allowed to go on pass when they parade sick. It is declared that this latter practice must

immediately stop.

In regard to men absent from their units and said to be sick, the office of the assistant director of medical services must be notified at once. Arrangements will then be made to have the man seen by an army medical corps officer.

If at all possible he will at once be transferred to the base hospital at Toronto. If this is not feasible the A.D.M.S. will arrange to have the cases cared for locally. Forty-five electric lights are permitted in each battalion's lines. Lights

in excess of this number will not be permitted without special authority. Guard is Acquitted.

Corporal E. G. Simpson (48th Highlanders) of Stanley Barracks guard, who was tried by district courtmartial on Aug. 21 on the charge of "when on active service, without reasonable excuse, allowing a prisoner committed to his charge to exceed the control of the charge to exceed the committed to his charge to the charge t

committed to his charge to escape," was today announced to have been found "not guilty of the charge and conorably acquitted of the same." A board of officers, composed of Captains William Kirk, C.S.C.I., and W. A. Woodcock, T. H. McNair, both of 220th, will assemble at Toronto at 9 a.m. tomorrow for the purpose of examining the NCC's class of the examining the N.C.O.'s class of the 220th York County Battalion.

CLEARING HOUSE FIGURES.

The figures for the week reported by the clearing house are \$43 438 469, and for the corresponding week last year \$32 525,308. For the present month they were \$187,511,224 and for the corresponding month last year they were \$140,624,000.
