Order Paper Questions

TERMINATION OF AGREEMENTS BY THE GOVERNMENT OF QUEBEC

Question No. 1,649—Mr. Herbert:

1. Has the present Government of Quebec terminated, before its expiration date and without prior discussion or notification, any agreement with the government?
2. Will the government consider terminating that part of its language instruction programme which pays monies to the Government of Quebec for the teaching of English to children attending English language schools?
3. Will the government introduce in the Province of Quebec at an early date, a programme to assist the instruction of the French language to English language students?

Mr. Ralph E. Goodale (Parliamentary Secretary to President of the Privy Council): I am informed by the Departments of Finance and the Secretary of State as follows: 1. On March 16, the Government of the Province of Quebec terminated the Memorandum of Agreement with the Government of Canada relating to the Anti-Inflation Program pursuant to Section 9 of that Agreement. The Government of Quebec on that date terminated the provincial act respecting anti-inflation measures (Chapter 30 of the Statutes of Quebec, 1975) by Order-in-Council, this being sufficient grounds to cause the Memorandum of Agreement to expire. This action followed a decision of the Government of Quebec, on January 14, 1977, to accept the resignation of the administrator of the provincial anti-inflation administration thereby eliminating the mandatory provisions of this administration. This action unilaterally altered the application of the Memorandum of Agreement between the governments of Canada and Quebec.

2. No.

3. Under the present federal-provincial agreement for Bilingualism in Education, the Federal Government makes financial contributions to all provinces towards the costs of minority official language education and second official language instruction. Under the terms of the agreement signed with the province of Quebec, that province may, at its discretion, use these funds for the teaching of either official language as a second language. Also under this federal-provincial agreement, several projects have been cost-shared by the Quebec and Federal Governments relative to the teaching of either official language as a second language. Other Departments and Agencies are not aware that a formal federal-provincial agreement was terminated.

ILLEGAL STRIKES

Question No. 1,719—Mr. Howie:

1. For the fiscal year 1975-76, how many strikes occurring within the federal jurisdiction were illegal or represented a breach of contract on the part of one of the parties to a collective agreement?
2. As a result of such strikes (a) how many man-days of employment were lost by (i) the strikers (ii) other workers (b) what were the financial damages suffered by the government?
3. In how many of the strikes did the government initiate legal action against the strikers and, in each case, what was the outcome?

Hon. John C. Munro (Minister of Labour): 1. 17 (Strikes occurring during the term of the agreements and presumed illegal).
