

Great pains have been taken to render this work as complete and accurate as possible, although it has been found extremely difficult, in some cases, to obtain the information requisite for compiling a work of this description. We cannot however close our remarks, without returning our warmest thanks to those who have kindly assisted us with information, and cheered us on with their counsel in our arduous labours.

J. S. STEELE,

C. G. GLADMAN.

PORT HOPE, AUGUST, 1856.
