CONSUMERS' COAL

EIGHT KILLED; MANY INJURED IN POWDER STOREHOUSE EXPLOSION

San Francisco, July 9.—Two storehouses at the Mare Island navy yard, on San Francisco Bay, were destroyed by an explosion this morning. The shock broke thousands of windows in Vallejo, half a mile away. Fire started in the wrecked buildings and desperate efforts were made to prevent its spreading to other buildings where explosives are stored. Whether any lives were lost has not been determined.

Raw Sugar Direct from British West Indies

The raw cane is brought direct to our refinery docks at Halifax where one of the most modern sugar plants in the world makes it ready for market.

ROYAL ACADIA SUGAR

"Every Grain Pure Cane"

Health and Beauty Answers

BY MRS. MAE MARTIN

June: The "French complexion" that you inquired about is probably the case for liquid powders. They are thought to be more wholesome for the skin, as well as more beautifying and less likely to show, than ordinary powder. The following preparation can be made at home from ingredients to be purchased from any druggist. Get 4 ounces spermac from your druggist, dissolve in one-half pint hot water and add two teaspoonfuls glycerine. It is splendid in effect, looks very natural and clings as if it belonged to your skin.

Lilly: You will find shampooing with a teaspoonful carbox dissolved in a cup of hot water is a quick and pleasing way to free the scalp of dust, dandruff and excess oil. This is a cleanser and invigorator most appreciated by one whose scalp is either dry, scaly and itchy or profusely oily. It uses restored healthful vigor to my scalp and induced the hair to come in plentifully, with a gloss, and greatly enriched color.

Bess: The best blood cleanser I know is Karden, because it acts on the liver and kidneys, and if, as you say, you're troubled with severe and constant headaches, it is an indication that your kidneys and blood need attention. To prepare, put one ounce Karden (from the drug store) into one-half pint alcohol (whisky should not be used), then add one-half cupful sugar and hot water to make a full quart. A tablespoonful before meals is the dose. This Karden tonic gently expels poisonous waste from the body and tones up the internal organs so they can do their work. You will find this tonic good for lost appetite, falling strength, and to clear up the complexion.

Lorelei: Even the woman of middle age nowadays is determined to keep her

flush down, and who can blame her, now that present styles demand slimmest? I always recommend permitts (which I mix up at home) as the safest, cheapest and best flesh-reducer. Get four ounces permitts at druggist's and dissolve in one and one-half pints hot water. Cook strain, and take a tablespoonful before each meal. Dieting or exercise is not necessary with this.

Mrs. S.: My own experience with wrinkles was three years ago, when I removed them with very simple, inexpensive preparation which I made by mixing an ounce of alomoin (from any druggist's) in one-half pint cold water, and adding two teaspoonfuls glycerine. This, by contracting the skin slowly, restores healthy firmness and keeps the surface circulation of the blood so good that a perfectly natural glow develops in the cheeks. I have used it ever since.

Madge: No, you need not have lots of money in order to give your hair and scalp perfect care. I often recommend many made-at-home items which are even better than highly priced patents. As a hair tonic I get an ounce of Quinolin at the druggist's, dissolve it in one-half pint of water. Rub, a little at a time, well into the scalp and your dandruff will disappear and you will keep your scalp healthy.

Evel: I brighten my eyes and rest them when tired by putting a few drops of crystals solution into each and bathing the lids with the same. I make the tonic by getting an ounce of crystals from the drug store and dissolve it in a pint of clear water. It will not smart and is soothing and healing. It is the safest way of making the eyes sparkling and expressive.

Formal Opening Of New School

Two Months After Beginning of Fall Term

The Coal Situation

Chairman Not Discouraged—Will Use Soft Coal if Anthracite Not Available

The school board in monthly session last evening decided that the general public will be given an opportunity to inspect the new Bentley street school through the means of a formal opening to be held two months after the schools have been re-opened. The matter of the coal supply for the coming winter was also before the meeting, the fear being expressed that some of the buildings might have to be closed in order to keep the others opened. The question of the disposal of the old school building in Douglas avenue was also before the meeting.

The chairman, R. B. Emerson, presided, the others present being Trustees Thea. Nagle, George E. Day, M. Coll, Mrs. James Dever, E. R. W. Ingraham, G. H. Green, Dr. Manning and superintendent H. S. Bridges.

Miss S. A. G. Mullin wrote from Sheffield asking for a year's leave of absence for the purpose of taking a course in singing. The matter was referred to the chairman and Superintendent H. S. Bridges said that in cases where a member of the staff had been teaching for fifteen or twenty years, and in cases where the teacher had been for four or five years on the staff and asked leave for other purposes it was different.

Miss Dorothy Dixon, 12 First street, wrote asking for a position on the teaching staff. The board decided that her application could only be considered when the applicant had received her first class license.

Miss Frances C. Reid, 48 Queen street, Fredericton, wrote asking for a position on the local teaching staff and giving her qualifications. Referred to the teaching committee.

Miss Barbara J. Dobson, formerly of the high school staff, granted leave of absence on account of illness, wrote asking for an extension for the same reason, which was granted.

Miss Elizabeth D. Corbett, 179 Wright street, wrote tendering her resignation as a teacher. Accepted.

Miss Beatrice McAlvenney, formerly of the Victoria annex, wrote thanking the board for the payment of her months' salary and tendering her resignation, which was accepted.

George D. Mowry, janitor of the Dufferin school, wrote asking for an increase in pay. It was said at the meeting that the salaries of janitors had only recently been advanced. Referred to the committee in charge.

The New Brunswick Power Company wrote notifying the board that they were removing the guy wire from the King Edward school.

Lockhart & Ritchie wrote with respect to school insurance held by the company, also making some suggestion as to the policies. Referred to the finance committee.

Robert M. Magee wrote asking for a share of the fire insurance controlled by the board. Fyled.

D. McDonald wrote asking if the board would fix a price for the old Douglas avenue school.

Trustee Day, who owns the ground on which the building stands, said that Mr. McDonald had asked him if the building was for sale and about what the board would want for it. He had advised Mr. McDonald to write to the board.

Trustee Coll commented that the board had no lease of the grounds to which Trustee Day remarked that the law compels the owner of the land to go through a negotiated or public sale of the Millidgeville lots. The syndicate which owns the property wished to restrict the rights of the board with respect to a portion of the shore front, but he had said that sale would go through as negotiated or public sale. The company has since agreed to carry out the original sale, and the deed is now being drawn up.

Trustee Day reported that the blackboards for the new Douglas avenue school had been ordered from a firm in

H.P. SAUCE

England's most popular

There's economy in using H.P.—the odds and ends are made simply delicious with just a few drops of H.P. Sauce.

Philadelphia and that a saving of \$72 had been effected thereby.

Trustee Day said that he would like to see some formal opening carried out in connection with the taking over of the new school in Bentley street. He would like the people to be given an opportunity to attend and inspect the building.

The matter of the coal supply for the schools was brought before the board, it being said that some of the local dealers feel that they are not being given a fair show in the matter of furnishing the school coal.

The chairman said that certain soft coal does not give much smoke, and would prove satisfactory if needed. He said that he didn't desire getting sufficient coal for school use. If hard coal can't be secured, soft coal can.

The matter of the coal supply was left with the building committee, and is to be reopened with a view of looking into any complaints from local dealers and will be the subject of a report to the board.

Trustee Nagle asked what about the special committee that is to meet with respect to teachers' salaries.

The chairman said that the meeting would be held as soon as the proper authorization is received from the government and that he would call the meeting at the earliest moment.

Trustee Manning drew the attention of the board to a new style of school building which has been erected at London (Ont.) It is a one-story building with eight rooms and, in his opinion, what we need here costing about \$50,000. He asked the members meeting to take occasion to look into the report of the trustee officer, J. Boyd McMann was presented for the past month.

The report showed thirty-six irregulars and seven truant, two cases being in the police court.

Manchestera Robertson Allison, Limited

SHIPBUILDING OUTLOOK.

According to the president of William Cramp & Sons, the great shipbuilders of the United States, the plants of the United States, Canada and other countries will be kept busy for the next five years. The Cramp Company already has orders which will keep it fully occupied until the end of next year. It is not a question of where orders are to be obtained, but one of where the material is to be secured.

President Hand says: "The industry of shipbuilding has attained a position of permanence and importance which two years ago would have been thought impossible, and for some years at least, all the shipping of this and other countries will be busily engaged in replacing tonnage destroyed by the war." This will be particularly encouraging to concerns in Canada which are contemplating entering the business.

Few Local Men Among Recruits

Total of 108 for Province Last Week—Nine Counties Gave None—Nine Here Yesterday

The weekly recruiting return for New Brunswick shows York county in the lead with eighty men and St. John second with fourteen. It must be remembered, however, that very many of the York recruits were from the States and that not many of the 108 recruits reported for New Brunswick were local men.

The following is the report from county recruiting officers to the chief recruiting officer for New Brunswick for York County—

Dies in Halifax Hospital.

The death of Private William Thomas, aged twenty years, occurred on Monday July 9, at Hazelwood Hospital, Halifax. Private Thomas came to St. John from Bristol, England, about twelve years ago, and was employed for several years by T. M. Davidson, Little River. Private Thomas was formerly a member of a New Brunswick battalion, and was wounded at the battle of Courcurel on September 15, 1916. He was then taken to the military hospital at Chichester and later to Shorncliffe. In February, Join Medical Corps.

Dr. John O'Regan left the city last evening for Montreal and will have shortly to take a post with the Imperial medical forces. He was given a hearty send-off.

Dr. Edmund Lunney, of this city, who recently graduated from McGill, has joined the medical corps. Dr. Lunney is a brother of Dr. Thomas Lunney, who has been on active service since the commencement of the war.

Men have started work at the property acquired by D. S. Saker with the object of building shops. The work now under way, Mr. Saker says, is but preliminary, and in the way of a cleaning up.

Children's Week In Our New Children's Department

Hair Often Ruined By Careless Washing

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonful will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

A Never Failing Way to Banish Ugly Hairs

(Aids to Beauty.)

No woman is immune to superfluous growths, and because these are likely to always have some delicate powder handy to use when the occasion arises. A paste is made with some of the powder and water and spread upon the hairy surface; in about 2 minutes this is carefully removed and the skin washed. You will then find that your skin is entirely free from hair or fuzz. Be sure, however, to get real delatone.

HEADS FIRST DIVISION

Ottawa, July 9.—Brigadier-General Archibald Cameron MacDonnell has, it is understood here, been appointed to succeed Major General Sir Arthur Currie in the command of the first division of the Canadian corps in France. General MacDonnell is a native of Ontario and has been connected with the Canadian regular forces for many years. He is a graduate of the Royal Military College and was with the second Canadian division during the South African campaign from 1899 to 1902, being awarded the D. S. O. for distinguished services and the Queen's medal with four clasps.

He has commanded a brigade on the western front and seen much of the hard fighting since the Canadian expeditionary force first landed in France. As commander of the first division, he will have the rank of major-general. The new divisional commander is a cousin

DANIEL

London House Head of King Street

NEW MOTOR APPARATUS. The motor truck, purchased by the commissioner of public safety, for No. 1 Salvage Corps, made its appearance in the streets yesterday. The commissioner feels highly elated with the success of his purchase and officials at City Hall and others who inspected it expressed admiration. The complete vehicle cost about \$2,800 and a self-starter which may be bought later, will add about \$125.

KING-MAKER RESIGNS. London, July 9.—General Chang Hsun, leader of the attempt to place the Manchus again on the throne of China, has resigned all his offices and handed over the administration of affairs in Peking to General Wang, who is a friend

of Brigadier-General A. H. MacDonnell, who commands a brigade at the front and of A. C. MacDonnell, M.P., of South Toronto.
