PIMPLES and BOILS

ALL OVER FACE AND BODY

When the blood becomes impure you will find that pimples and boils will break out all over the body, and although they are not a dangerous trouble, they make you appear unsightly both to your friends and yourself.

Burdock Blood Bitters will cleanse the blood of all the impurities and poisons which cause the skin to break out in these eruptions.

Miss Sylvia Swanson, Theodore, Sask., writes: "I am letting you know what great value your B. B. B. has been to me. A year ago I started to grow pale and weak, the cause being bad blood. I got so many pimples and boils all over my face and body that I would not let strangers see me, and I used to avoid company. I tried many remedies but all seemed a failure. I read about how good your B. B. B. had been to thousands of people so I got a bottle, and after I had finished the second one my pimples and boils had all disappeared. People thought it a miracle how well I looked. "Your grand old remedy sure has been as good as gold and better, to me."

Burdock Blood Bitters has been manufactured for the past forty years by The T. Millburn Company, Limited, Toronto, Ont. See that our name appears on the wrapper.

At one o'clock Sunday morning the city detectives visited a house in Brussels street and arrested Eva Collet upon the charge of conducting a disorderly house. O. CANADIAN DOG FISH

TO BE USED AS FOOD

Movement on Foot to Market it for Domestic Consumption—Eaten in United States

Ottawa, Dec. 4—Enter the great Canadian dog-fish. He is going to reduce the cost of living by appearing on the dinner table of the nation, probably under an assumed name.

Hitherto the dog-fish has been neglected. Efforts have been made toward his extermination because of the havoc wrought by him on the nets of fishermen, by eating selected portions of the netted fish, and also by breaking the nets themselves. He has been caught and used as a fertilizer on the farms of the lower provinces, from which low estate he is now to be raised. A movement is on foot to put him on the market as a food fish. His flesh is mild to be white and palatable. Six million pounds of him were eaten in England last year. In the United States he has been rechristened "Greyfish" by Act of Congress, and is eaten by thousands of people who do not know that they are eating dogfish unwares. The movement to give him full right of citizenship as a food fish in Canada comes at a time when the regular supply of fish for domestic consumption is being drawn upon heavily for the new export fish trade with Great Britain. This export trade, it is stated here, together with the wider use of fish in place of high-priced meats, is the reason why fish is no longer a cheap food in Canada.
