## COMMISSION IS ASKED FOR \$300

**Lawyer Asks Compensation  
for Robt. O'Brien, Hit  
by Truck.**

The Civic Power Commission was to meet this afternoon to deal with tenders for line materials, referred to them by the City Council. Another matter to come up is a claim, made by E. J. Henneberry on behalf of Robert O'Brien for \$300, on account of injuries received by Mr. O'Brien on December 3, when he was struck by one of the Civic Commission trucks.

This accident occurred at the corner of Duke and Prince William street. Robert Hartland, who was driving the truck, in his report to the commission stated that he did not see the man and knew nothing about it until he felt a bump. He supposed the man had stepped off the sidewalk and was struck by the side of the truck. The man was unconscious when picked up, but soon regained consciousness.

## JUDGMENT IS FOR COMPANY

**J. F. Quigley, Though, Gets  
Credit for Automobile  
Returned.**

A judgment which will be of general interest to the business people of the province was given this morning in the Circuit Court by Chief Justice H. A. McKeown in the case of the Nova Sales Co., against John F. Quigley for \$640, an amount due on the purchase price of a car. A verdict for the full claim was returned by the judge, but he also allowed the defendant \$450 on his counter claim for the value of the automobile returned to the vendor.

In his judgment the chief justice established a principle to the effect that, while under a purposely worded contract a conditional seller may pursue an action for balance due, he must first either realize on his security and give credit for the amount so received or else he must be prepared to have the security valued by the court.

In this case the defendant returned the car to the plaintiff but its value was not taken into account when the suit for \$640 was commenced. According to the verdict, the defendant will receive \$450 credit for the returned car. Evidence as to the present value of the car was taken from experts during the hearing of the case.

Porter & Ritchie conducted the case for the plaintiff company, while G. H. V. Belyea represented Mr. Quigley.

At the end of nine weeks convulsions which formerly took place at the rate of eight or ten a day, have been virtually eliminated.
