

To Provide Funds Must Increase The Assessment

Extra Expenditures For Schools Will Affect City Budget - North End Survey and Coal Pocket Discussed By Common Council

The comptroller's annual report on the books and finances of the board of school trustees for the year ending June 30, 1913, was the cause of some discussion at the weekly meeting of the common council yesterday afternoon...

The question of renewal of the city of the leases of certain lots was also discussed, the suggestion being made that an increase of from ten to twenty per cent. be made in rentals of ground, the buildings on which are not owned by the city.

More talk about the Dominion Coal Company's pocket at Rodney wharf resulted in no action, in view of the fact that an official application for the renewal of the lease has yet to be made by the company.

Routine matters were also dealt with. Those present were Mayor Frink, president; Commissioners Agar, Wignone and McLellan, with the common clerk. The board of health, it was decided to place sanitary arrangements between No. 4 shed and the immigration coal bins on the west side, at a cost of \$45.

The commissioner further recommended that the request of the agents of the Donaidson line for the establishment of a swill hopper at wharf No. 4 at West St. John be not complied with, and that an application by the same company for permission to erect a landing ramp or platform in Water street near the McAvity building, be also not complied with.

The commissioner also reported, recommending that the chamberlain be authorized to collect \$40 from the Denver Drivage Company for damages to the ladder at berth No. 3 and \$10 from the Norton Griffiths Company for damage done at berth No. 4.

The commissioner recommended further that renewal leases for the term of seven years, each from May 1 last, be issued as follows, upon the common clerk being satisfied that the several persons are entitled thereto:

D. J. Gillis, lot No. 855, Dukes ward; annual rent, \$20. Mathew Cavanaugh, lot No. 9, block G, Dukes ward; annual rent, \$20.

St. John Real Estate Company, lot No. 684, Queens ward; annual rent, \$20. James Strling, lot No. 382, Prince ward; annual rent, \$20.

Bartholomew Rogers, lot No. 941, Dukes ward; annual rent, \$20. Bartholomew Rogers, lot No. 942, Dukes ward; annual rent, \$20.

M. Robertson, lot No. 737, Queens ward; annual rent, \$20. George Tippett, lot No. 8, block D, Lancaster ward; annual rent, \$24.

Rendolph & Bakers, Ltd., lot Nos. 4 and 5, Greenhead, Lancaster, annual rent, \$250. The resolution was adopted, His worship said that he thought an increase should be made in the rental of all city lots of about ten or even twenty per cent.

The commissioner recommended that the lease to George Burns of a property in Morris street, Marville, at an annual rent of \$20 be entered into for seven years. Adopted.

A letter from M. Reekers, explaining difficulties about the payment of his taxes, was referred to the commissioner of finance.

A report of the conditions of the school at Millidgeville, made as a result of a recent petition of residents of that district, was received by the council, and a motion was passed requesting the commissioner of public affairs to send the report to the board of school trustees asking them to forward it to the petitioners.

Complaint had been made that the teachers of the Millidgeville school were not up to the standard of efficiency of those in the city schools, and that certain improvements were necessary in the school. The report stated that the efficiency of the teachers was well up to the standard and contained a recommendation that better heating arrangements be installed in the building, and that some repairs be made.

A petition from S. M. Wetmore that the drinking trough for horses throughout the city be removed, was referred to the commissioner of public affairs.

HER LITTLE SON WAS DYING

Gave Him "Fruit-a-lives" And Saved His Life

Campbellville, Ont., May 25th, 1913. "Our little boy, Lawrence, was sorely affected with chronic indigestion, and the doctor did not think we could recover. He started with a sore mouth and it developed into this other trouble. Everything else just passed right through his system without change. He cried incessantly and life was a misery to him. My husband had been using "Fruit-a-lives" for indigestion, getting what did him good, might help our boy. We tried "Fruit-a-lives" giving Lawrence 1/2 a tablet at a time, and the result was marvelous. Today, he is the picture of health, and he is perfectly well."

Mrs. J. VANPLEET, 402 a box, 6 for \$2.50, trial size, 25c. At all grocers or from Fruit-a-lives Limited, Ottawa.

CORONER'S JURY URGES RESTRICTIONS FOR SALE OF FIREARMS

At the inquest into the death of little Joseph Caples which was held last night by Coroner Roberts, the following verdict was returned by the jury:

"We, the coroner's jury, called together for the purpose of considering the death of Joseph Caples, find that the deceased came to his death by a shot from a .22 calibre rifle in the hands of Arthur Donovan, Sunday, November 8, 1913, on the old Westmain road, so-called, in the county of St. John. We believe that according to the evidence the death of Joseph Caples, was purely accidental. We would recommend that the proper authorities, the chief of police, or whoever it may be, be instructed by the government when laws are made relating to the sale of firearms, to advise all dealers in further of such laws.

"We would further recommend that a law be enacted prohibiting the sale of revolvers to any person until the name and address of the prospective buyer, and a complete record of such sale, be made and filed by the chief of police. We would also like to point out to all parents the advisability of keeping firearms from their children."

(Signed)—Geo. S. Mullin, Alfred Corbett, Josiah Corbery, Henry Niles, John McManus, and Fred Eddy.

Coroner Roberts in reviewing the evidence concerning the moving picture houses of all responsibility. The pictures before reaching them, he said, have been scrutinized by many censors, and if there is anything improper at all, it is these censors who should bear the blame. He also spoke of the sale of firearms and said that although there was a law in force prohibiting such a sale as was made, the clerk who made the sale was ignorant of it. He therefore advised that some official be given the duty to inform companies, firms or individuals, in regard to laws passed affecting their particular business. This particular case, he thought, was due to parental negligence. He did not wish to blame the parents directly because the effect was unforeseen, but he hoped that this would serve as a lesson in future.

Portland Strike Settled. Commissioner Agar moved that further consideration of the matter be laid over till it could be discussed at great length, and every thing gone into thoroughly.

The council resolved into committee of the whole to consider the matter of the North End survey, and after looking over the engineer's plans showing much of the work already done, adjourned.

Urges Plebescite on Public Control of Kindergartens

T. H. Estabrooks Says School Board Should Take Over Work - Annual Meeting of Free Kindergarten Association

81, 1913, showed a balance on hand at the end of the year of \$1,109.24. The assets at the end of the previous year were \$1,670.88, while the receipts during the year, including the city's grant of \$500, donations and the proceeds of a tag day, amounted to \$2,222.68, bringing the total to \$3,232.92. The year's expenses totaled \$2,123.68, of which \$1,520 was devoted to the teachers' salaries.

It was pointed out that, while the balance on hand at the end of the last year was slightly in excess of that of 1912, many further expenses, including general increases of teachers' salaries and the addition of a fourth kindergarten, would call for some \$2,400 expenditure during the current year, while of this only \$600 would be provided for by the city's grant.

Mrs. Manning Doherty, who had graduated in kindergarten work from the Toronto normal school and taken post-graduate courses in New York, said that it seemed an appalling thing that in this city there were as yet only four kindergartens, as she was convinced that the continuity of study resulting from the conjunction of kindergartens with the public schools was absolutely essential for the fullest development of children.

Mrs. Doherty commented on the keen enthusiasm shown here among the few who are interested in the work, and urged the necessity for arousing general interest among the public in what seemed such a vital matter.

Mrs. W. C. Matthews, supervisor of kindergartens, told of the practical side of the work. She thought that the fact that many of the children were irritable, though that much should be left to private enterprise.

The report of Mrs. C. F. Woodman, treasurer, for the year ending August 31, 1913, showed a balance on hand at the end of the year of \$1,109.24. The assets at the end of the previous year were \$1,670.88, while the receipts during the year, including the city's grant of \$500, donations and the proceeds of a tag day, amounted to \$2,222.68, bringing the total to \$3,232.92. The year's expenses totaled \$2,123.68, of which \$1,520 was devoted to the teachers' salaries.

THE above is a view of Wellington Station on the P.E.I. Railway, as in the foreground a little truck over which Mr. J. E. Arsenault, the station master, fell as he sustained a bad cut on the front of his leg. E. I. says: "I thought this would heal, but instead of doing so it developed into a bad ulcer and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became swollen and sore that I could only go about my work by having them bandaged."

"I consulted a doctor, who treated the sores for a time, but they got no better, so he advised me to stop working. I did not want to do that, and consulted another doctor, having tried every remedy I could think of for six months without avail. The second doctor's treatment gave me no better results. The sores were painful and continued to spread.

"I tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse."

"This was my condition when I got my first box of ZAM-BUK. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better."

"I could see that at last I had got hold of something which would cure me. I knew that a chronic case such as mine would take a good deal of time to cure, but it seemed to me that ZAM-BUK was altogether different and superior to all the other preparations I had tried, and that perseverance with its use would have the right result. Well, I continued the ZAM-BUK treatment, and in the end it cured me completely."

"It is now over a year since ZAM-BUK worked a cure in my case, and there has been no return of the sores or any trace of it. It would be impossible to find a case where the sores were worse than those on my limbs, and I think ZAM-BUK is a marvelous healing balm or it could not have cured me as it did when all else failed."

FREE TRIAL. The above article proves the great value of ZAM-BUK for skin diseases. Cut out this article, write on it the name of the ZAM-BUK Co., Toronto. Free box will be sent you by return.

his support to the association of classes in the city schools.

T. H. Estabrooks said the kindergarten was a most vital part of the educational system of any community. It was the duty of the state to provide it and the right of the child to have it. It would be better, he said, to do away with the high schools than to dispense with kindergartens. He thought the reason why the local association was not making more rapid progress was the fact that no pressure was brought to bear on the school board. If a referendum to the citizens was made, he was convinced that public opinion would heartily endorse the views of the association, and that all that was needed was to push the matter and use the medium of publicity.

He supported the idea of having a vote taken at the next civic election. Mr. Bullock said he was in favor of incorporating the kindergarten with the public school systems, saying that this was necessary to make it a strong organization.

Mr. Bullock said that before the matter were referred to the citizens, it would be necessary to have an act of the legislature passed and get the city to increase the assessment. A committee was appointed to place the matter before the school trustees and the meeting adjourned.

Bismarck Defaction. Hearing was continued before Mr. Justice McKewen yesterday afternoon on the petition of Keith A. Barber for the winding up of the May Queen Steamship Company, Ltd. The cross-examination of Charles F. Sanford, president of the company, was limited, and Keith A. Barber was examined. The application is made on the grounds that three-quarters of the capital stock has become lost or untraceable. Mr. Barber yesterday declared in evidence that he attributed part of the losses of

the company last year to the default of one of the employees of the company.

Adjournment was made until Saturday at 12 o'clock. J. B. M. Baxter, C. and Francis Kerr appeared for the holders supporting the petition, and Mullin, K. C., and Geo. H. V. Be for shareholders opposing the application.

BEST LAXATIVE FOR BOWELS—"CASCAET".

When Constipated, Headache, Bileus, Breach Bad, Stomach Sour.

Get a 10-cent box. Are you keeping your bowels, in and stomach clean, pure and fresh with Cascaet, or merely forcing a passage every few days with Salts, Castor Oil, Purgative Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Cascaet thoroughly cleanses and relieves the stomach, removes the sour fermenting food and foul gases, the excess bile from the liver and out of the system all the constipating waste matter and poisons in the bowels.

A Cascaet tonight will make you feel great by morning. They work you sleep—never gripes, sickness or any inconvenience, and cost only cents a box from your druggist. Millions of men and women take a Cascaet now and then and never have Headache, Bileusness, Constipation, Indigestion, Sour Stomach or Constipated Bowels. Cascaet is in every house. Children just love to take them.

Don't Persecute your Bowels. Cut out colic and gripes. They are banished by CARTER'S LITTLE LIVER PILLS.

The Telegraph and Times Second Bargain Offer \$1.98 EVERYBODY'S \$1.98 \$12.00 CYCLOPEDIA For the 5 Volumes

Illustration of the five volumes of the Encyclopaedia Britannica, labeled Vol. I to Vol. V, with an Appendix. Text: "The \$10.00 saved on the purchase price of this set would pay for The Telegraph for 2, or The Times for more than 8 years."

Remember the Days of Sale -- Thursday, Nov. 27, and Friday, Nov. 28

Mail Orders. The sets are too bulky to be sent by mail, but out-of-town readers can have them for the \$1.98, the set to be sent by express, shipping charges to be paid by the receiver.

MEAT INJURIOUS TO THE KIDNEYS. Take a Tablespoonful of Salts if Back Hurts or Bladder Bothers. We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble. The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system. When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy full of sediment, or the bladder is irritable, obliging you to seek relief during the night, when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.
