

An Old Lady of Over 80 Years.

HER RIGHT SIDE WAS BADLY PARALYZED.

Her Sufferings Were Such That She Wished to Die.

Paine's Celery Compound Saved Her Life and Renewed Her Strength.

THE BEST MEDICINE FOR THE OLD AND YOUNG.

It is now an established fact that our dear fathers and mothers and our grandparents can have their lives prolonged, and their years made happy and joyous by the use of Paine's Celery Compound.

Many old people suffer from nerve troubles, rheumatism, kidney and liver complaint, sleeplessness, and terrible paralysis. With such dangerous diseases clinging to them, they are liable to drop off at any moment.

If we are truly and honestly interested in the welfare of the old people, we will anxiously seek to use the agency that will best meet their troubles. In the past, thousands of our aged people have been rescued from death by

Paine's Celery Compound, and are now enjoying a happy old age. Every week new testimony is received from old people, as well as from their friends and relations, lauding the strengthening and rejuvenating powers of earth's best medicine.

Mrs. James Cain, of Perot, Settlement, N. S., now in her eighty first year, has just sent in convincing and cheering testimony regarding the value of Paine's Celery Compound; she writes as follows:

"I am happy to state that Paine's Celery Compound has been a great blessing to me. In November, 1893, the whole of my right side was paralyzed, and the doctor said I was too weak to take much medicine; I managed however, to

use a little, and was able to sit up for a short time, but felt so bad, that I wished to die, as I thought death would be a great relief to me.

"In my weak condition I began using Paine's Celery Compound. The first bottle gave me relief. I continued to use the compound, and I have gained health, strength and flesh, and my friends say I look quite healthy. Although in my eighty first year, my limbs are getting stronger, and I hope soon to be quite myself again.

"I would advise all who are suffering from paralysis and other troubles to use Paine's Celery Compound and the Wills' English Pills that accompany the compound, and if properly used, they will surely cure."

FROM THE SOUTH SEAS.

Samoan Rebels Will Not Attack the Central Government—The Stevensons.

Ex Queen Lil Will Make a Legal Break for Liberty—Political Prisoners.

Apia, Samoa, April 21.—A fire destroyed ten business places here, causing a loss of over \$50,000.

The Samoa Times strongly urges a campaign against the office of president of the municipality and adviser to King Malietoa now held by Herr E. Schmidt. In December of last year the Samoans sent a petition to the three powers praying for the dismissal of Schmidt on exceedingly strong grounds. Since that time the office has necessarily been a sinecure. It is now the general opinion that the office should be abolished as a most vexatious one and entirely unnecessary for the well being of the municipality.

Political matters are quiet. The rebels say they will not attack the central government position, but will act on the defensive only.

The Stevensons family left by the Marissa for San Francisco. Mrs. R. L. Stevenson's health requires a change of scene. The family will probably be absent for six months.

The Wallaro left for Auckland on the 6th instant. The German man-of-war Buzzard arrived from Fiji yesterday.

San Francisco, May 9.—Among the passengers on the Mariposa from Samoa were Mrs. Robert Louis Stevenson, her son Lloyd Osbourne, and her friend and companion, Mrs. I. Strong. The novelist's widow will spend some time at her former home in Oakland, and will alternate her future residence between that city and Apia, Samoa. In an interview Mrs. Stevenson stated that her husband had left her in good circumstances. His unpublished letters and writings represent a small fortune in themselves.

Honolulu, May 2.—There is said to be a rupture in the cabinet over the disposition of the rebel prisoners. President Dole and two other ministers favor releasing all but the leaders, and the others demand punishment of all. Ex-Queen Liliuokalani is tired of confinement, and her attorney is preparing a writ of habeas corpus for her liberation.

Secretary Gresham's letter on the case of J. F. Bowler, convicted of participating in the recent revolt and sentenced to five years at hard labor, was laid before the council. Secretary Gresham states that the United States government cannot interfere, and in giving reasons calls attention to the fact that Bowler had taken the oath of allegiance required for becoming a naturalized citizen of Hawaii. "By taking it," the letter says, "he obligated himself to support the government of his adoption even to the extent of fighting its battles in the event of war between it and the country of his origin. He could not bear true allegiance to both governments at the same time. The President directs that you

LATE CABLE DISPATCHES.

France Creating Fresh Difficulties in the Orient—Canadian Sealing Claims.

Unusual Activity on the Metal Exchange—Enormous Business Transacted.

London, May 10.—A dispatch from Shanghai says that France has formally protested against Japan annexing the island of Formosa and has preserved a number of prior claims. Great Britain is expected to strongly resist the claim of France.

A dispatch to the Times from Paris says that M. Hanotaux, minister of foreign affairs, has invited the leading financiers to meet Sunday to consider the pending Chinese loan, the ways in which the Bourse might co-operate and the conditions on which French capital might participate.

A dispatch to the Standard from Madrid says that Spain's adherence to the protest against Japanese annexation of territory in Manchuria was promised only on condition that they induce Japan to abandon Formosa.

The reichstag has rejected the committee's amendments to paragraph 3 of the anti-revolution bill, which is the chief section of that measure, and next the reichstag rejected paragraph 3 altogether.

A dispatch to the Times from Vienna says there is no danger now of an immediate crisis, the Emperor Francis Joseph having decided in accord with the note of Count Kalnoky, imperial minister of foreign affairs, that representation will be made to the Vatican regarding the proceedings in Hungary of Mgr. Aglardi, the papal nuncio at Vienna, who went about the country denouncing the ecclesiastical bills.

A dispatch to the Chronicle from Paris says the government will be unable to any longer ignore a rebellion which is gaining ground all over France—a rebellion of the church against the state, and the country is being divided into two camps. Only one bishop has had the courage to advocate submission to the law, and he was promptly extinguished by his metropolitan. It is an open secret that the pope will not withhold the papal benediction from those who think it their duty to resist the *droite* acroissement.

Hon. J. H. Turner, prime minister of British Columbia, to-day lodged with the colonial office a long formal complaint made by the Canadian sealers against the United States. Sir Charles Tupper, the Canadian high commissioner, is actively supporting the complaint with the Marquis of Ripon, the colonial secretary.

Business at the London metal exchange this week has been on a scale unequalled since the operations of the French copper syndicate in 1892.

An official report on the condition of the crops in Hungary on May 1, shows that the condition of wheat is satisfactory. Rye is not up to the average. The condition of barley is good.

Addressing the iron and steel institute

SOME ODD FACTS.

Things Worth Glancing at and Remembering, Perhaps.

Sir Andrew Clark advised that each mouthful of food should receive thirty-two bites—that is, one for every tooth—if one wishes to avoid dyspepsia.

The gun is provided with a regular set of lancets and a cupping glass, from which the air may be withdrawn.

M. Louis Boutan has succeeded in taking some beautiful photographs of the bottom of the sea by aid of a newly-invented lamp for burning magnesium powder under the water.

The huge guns of modern navies can be fired only 75 times when they become worn out.

The largest desert is the Sahara, the greatest length of which is 3100 miles, by a greatest width of 600 miles.

It takes 70,000 insects to make one pound of cochineal.

More than fifty kinds of bark are now used in the manufacture of paper. Even banana skins, pea vines, coconut fibres, hay, straw, water weeds, leaves, sharings, corn husks and hop plants are used for this purpose.

An ordinary piano contains a mile of wire strings.

Slag from blast furnaces is pulverized and used for fertilizing farm lands in Germany.

Mr. Andrew Carnegie expressed the conviction that a long time would elapse before the Japanese and Chinese would approach the western nations in skill in the manufacture of iron and steel; but he added he was satisfied that the eastern nations would succeed in the textile industries.

NEWS OF THE DOMINION.

Accidental Shooting Affair—Didn't Know it Was Loaded—C. P. R. Traffic.

Premier Greenway and Attorney-General Sifton Summoned to Ottawa.

Essex, May 10.—Aylmer Chase, aged 11 years, was flourishing a revolver yesterday with the object of scaring Anthony Gascoe, aged about 9, when it went off and the ball entered Gascoe's nose and took an upward course toward the base of the skull. The boy will die.

Peterborough, May 10.—Dr. George K. Mark died here, aged 34. He served as sergeant in the Midland battalion during the Northwest rebellion and had never since enjoyed his full measure of health.

Toronto, May 10.—Edward Tinsley, of Hamilton, has been appointed chief game warden for Ontario, in place of A. D. Stewart of Hamilton.

Tottenham, May 10.—Joseph Williams' stables and barns with their contents were burned this morning. Loss, \$2000; partially insured.

Montreal, May 10.—The C. P. R. traffic for the week ending May 7th amounted to \$308,000. For the same week last year it was \$302,000.

London, May 10.—A contract has been awarded for the erection of a mansoleum to the memory of the late Annie Pixley, by her husband, Robert Fulford, of New York, in Woodland cemetery here. The completed work will cost nearly \$14,000.

Winnipeg, May 10.—The weekly crop report issued to-day by the Northern Pacific from points touched by their line is of a favorable character. In many points seeding is entirely completed. In all plenty of moisture has fallen. Weather fine, and, as a consequence, the farmers are in very good spirits.

The remains of E. R. Blagden, a young English rancher who disappeared during a blizzard in the winter of 1888, have been found on the prairie near Cannington Manor.

H. B. Hansen was elected as Morden's first mayor to-day.

E. J. Elliott has been appointed provincial chief of police for Manitoba.

It is stated that Premier Greenway and Attorney-General Sifton will leave for Ottawa next week. The rumor is that the letter from Lord Aberdeen summing up the views here on the Ottawa to see if something could not be done to escape the difficulty created by the sweeping terms of the remedial order. Among the national school supporters the reported visit of the ministers to the east is not regarded with the slightest apprehension.

LOCAL PYTHIANISM.

Grand Chancellor Byrne Pays an Official Visit to Far West Lodge.

Grand Chancellor J. C. Byrne paid an official visit to Far West Lodge, No. 1, Knights of Pythias, last evening. He was accompanied by the deputy grand chancellor and officers of the grand lodge. During the evening the grand chancellor addressed the lodge on the progress made in the various sections throughout the jurisdiction. After visiting twenty lodges, he was pleased to find, from Vernon to Victoria, a lively interest in all matters pertaining to the advancement of Pythianism. The order was increasing in membership and the endowment rank with its many advantages received a few words of praise from the distinguished visitor. Past Supreme Representative H. F. W. Behnson was called on to make a few remarks. He responded by giving the history of Pythianism in British Columbia since the organization of Far West lodge 22 years ago. Acting Vice Grand Chancellor M. J. Conlin, Acting Grand Prelate E. Leason, Past Grand Chancellor J. M. Hughes, Grand Representatives J. W. Walker, E. Pierdner, H. Webber, S. Jones and T. Deasy addressed the meeting. Chancellor Commander Le Roy thanked the grand president and officers for attending the convention and the members adjourned to the banquet hall, where a pleasant hour was spent enjoying the delicacies provided by the entertainment committee.

The Knights of Pythias will organize a glee club under the supervision of Past Chancellor Pierdner.

Vice Chancellor P. Watson, Prelate F. Hinds, Master of Work W. F. Smith, and Master of Finance J. L. Smith, of Far West lodge, were installed last night by Deputy Grand Chancellor T. Deasy.

The rank of past chancellor will be conferred on several candidates next Tuesday evening.

At the next convention of Far West lodge the presentation of prizes will take place.

The fifth annual session of the grand lodge will be held in Vancouver on the 4th of June.

Washington, May 11.—Secretary Gresham's condition is unchanged. Should his health compel his withdrawal from the cabinet, Don Dickey, of Michigan, will doubtless be asked to accept office.

Pittsburg, Pa., May 11.—A committee representing all persons employed at the Carnegie Steel Co.'s furnace at Braddock have made a demand for the wage rates in effect at the time of the strike at the beginning of the year. Supt. Morrison did not receive the men very warmly when they expressed their dissatisfaction.

Rheumatism Cured in a Day.—South American Rheumatic Cure, for Rheumatism and Neuralgia, cures in 1 to 2 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by Hall & Co., druggists.

STOMACH NEURALGIA.

INTERESTING FACTS ABOUT THIS PECULIAR TROUBLE.

A Pembroke Lady Who Suffered for Eight Years Gives the Particulars of Her Illness, and Tells How She Obtained Relief.

From the Pembroke Standard.

The grateful thanks of thousands in all parts of the Dominion who have been made well is the best evidence of the sterling merit of Dr. Williams' Pink Pills for Pale People. We suppose there is not a city, town or village in Canada in which the good record of this health giving medicine is not known, and Pembroke is no exception to the rule. Among those who speak of Dr. Williams' Pink Pills in terms of the highest praise is Mrs. Fournier, wife of Mr. Peter Fournier, both of whom are held in high esteem by those who know them. To a reporter who recently visited their home Mrs. Fournier gave a plain unvarnished statement of her illness and cure. "It is now about eight years," she said, "since I began to grow ill with a pain in my back, stomach and side, and the amount of suffering which it caused me can scarcely be realized. As the days and months passed by I began to grow weaker, and I was seldom free from the intense pains. At last I grew so weak I was obliged to take my bed, and even then suffered from the pains which were making my life so miserable. My appetite failed me and I feared that I was doomed to be an invalid. During those days I was under the care of a skillful physician, but his medicines did me no good. He said my trouble was neuralgia or rheumatism of the stomach. It was during those dark days, as I lay an almost helpless invalid, that a friend strongly urged me to try Dr. Williams' Pink Pills. Although I had little faith in their efficacy at the time, I consented to try them. After using a few boxes I began to feel myself growing stronger and the pains leaving me. I continued using them until I had used a dozen boxes, and now you can see for yourself whether I look like a sick person or not. The pains in my stomach, side and back have ceased to trouble me and I have not been so well in eight years as I feel now. My appetite which was so poor at one time is now fully restored, and I am confident that not only have Pink Pills cured me but they have saved me from misery and pain I would otherwise still be enduring." Mr. Fournier, who was present at the interview fully endorsed all his wife had said.

Dr. Williams' Pink Pills make pure, rich blood, thus reaching the root of disease and driving it out of the system, curing when other medicines fail. Most of the ills afflicting mankind are due to an impoverished condition of the blood, or weak or shattered nerves, and for all these Pink Pills are a specific which speedily restore the sufferer to health. These pills are never sold in any form except in the company's boxes, the wrapper round which bears the full name "Dr. Williams' Pink Pills for Pale People." All others are counterfeits and should always be refused. Get the genuine and be made well.

A SUBSTITUTE FOR CLOTHES.

The Samoan Islander's Elaborate Tattoo Outfit.

Miss Marie Fraser, after a visit to Samoa, has written a book on the islands, in which appears the following naive little essay on the philosophy of clothes: "Though the tattooing in Samoa varies a little in design, the decoration is always in the shape of knee breeches, extending from the waist, where strings tied in knots and other ornamental fastenings are tattooed on the skin—so thorough is the artist in his work—to below the knee. The pattern is very elaborate, with stripes of natural skin intersecting. It is certainly a great improvement to their appearance, for in wet or stormy weather they economically leave their best lava-lavas at home, and wear only a banana leaf or a giraffe's tail. The tattooing makes them look thoroughly clothed and trim in their appearance. After leaving the Navigators and visiting other islands, where the art is used only in the most artistic and disfiguring manner, we missed the clean looking tattooed natives of Samoa in their decorous knee breeches."—New York Times.

Coughing.

For all the ailments of Throat and Lungs there is no cure so quick and permanent as Scott's Emulsion of Cod-liver Oil. It is palatable, easy on the most delicate stomach and effective.

Scott's Emulsion

stimulates the appetite, aids the digestion of other foods, cures Coughs and Colds, Sore Throat, Bronchitis, and gives vital strength besides. It has no equal as nourishment for Babies and Children who do not thrive, and overcomes Any Condition of Wasting.
