The loading, firing and ejection mechanisms are worked by the recoil of the gun. The first cartridge is fired by pressing a button, and after that, 666 times a minute, every kick of the gun throws out the exploded shell, inserts a loaded one and explodes it. This is kent up as long some time was occupied in the discussion of ways and means, it being pointed out that the expenses of the hospital continued to be in excess of the receipts. There were present at the meeting besides President Davies, Messrs. J. Stuart Yates, W. M. Chudley, J. L. Crimp, I. Braverman, H and explodes it.
