RICH.

Watson Griffin.) There is an old, old story often told

by fre traders and advocates of a low tariff which runs as follows: "Nations to get rich must trade with other nations. No man can get rich by trading with himself alone. He may trade his two jack knives from pocket to pocket all day long till the cows come home, but at night he will only have the two original jack knives, and yet some people tell us that such a jack knife policy would make the country rich.'

Of course the object of this story

The fundamental error of the story is the assumption that the sole business of a nation is to trade. It overlooks the perducer altogether. The fishermen gather into their nets the which the whole people have learned riches of the waters; the farmers expractical cleanliness of body, perfect tract wealth from the soil; the lumbermen take it from the forest; the Europe and America, have not yet miners bring it up from the bowels of the earth; the inventors study natural laws, the knowledge of which supremacy depends entirely upon enables men to control the forces of medical and hygienic righteousness. nature and utilize to the best advantage the raw materials taken from the sea, the forest, the farm and mine; the manufacturer utilizes the ideas of the inventor and converts the raw materials by hand or mach inery into forms suitable for general

use. The trader is useful in a community only because he assists the different producers to co-operate with each other in developing the latent wealth of the country by facilitating ex-changes. If the farmers, the fishermen, the lumbermen, the miners and manufacturers all abandoned the work of production and devoted their time to trading jack knives or anything else with foreign nations, the whole nation would soon starve to death.

It is not trading with other nations that makes a people rich, but the development of home resources. Nature

wealth abroad we had to send out of the counhair will not stay as combed, use erned by self-control and by the most try a large part of the wealth produced of by the industry of our farmers, fishermen, lumbermen and other producers steel used in Canada is produced within the dominion. To pay for this Canadian iron and steel we do not have to the admiralty and the foreign office send wealth out of the country. How- where, it is said, that the aged aged in Canada. During the fiscal year 1903 workmen would find employment converting raw materials that are now nakoff on the commission is regarded lying useless under the earth or in the rocks on its surface into finished iron and steel products, and the wealth we

> in the country. Home trade enriches the nation because it causes development of natural wealth and keeps it within the coun try. On the other hand foreign trade may impoverish a nation by preventing the development of new industries and paralyzing those already established. But when foreign trade is kept within legitimate channels it is beneficial. Owing to the differences in climate and natural resources all countries do not produce the same things, and so profitable exchanges may be made between them. It does not pay Canada to exchange jack knives for jack knives or flour for flour with any foreign country; it does not pay us to exchange Canadian apples or Canadian wheat for foreign steel; but it does pay us to trade our surplus apples and flour for the tropical fruits and spices of the West Indies; and there are many other things which cannot be produced in Canada that may profitably be imported from abroad and paid for directly

send out of the country to pay for the

PLEADED NOT GUILTY

Without Bail.

BOSTON, Dec. 30 .- John Ricker, the Charlestown cook who shot and killed his wife Wednesday night, pleaded not guilty in the district court and was held without bail for the January nent corps failing twice to pass the grand jury. The police allege that the homicide is the result of a family quarrel. Ricker once lived in St. John prescribed for him, the little one findand it is said his wife formerly re- ing the box while at play. sided in the provinces. Her body was interred in Brockton, where she had relatives.

"Why do you stare at me so" denanded the pert young maiden. "I'm a reporter," replied the bold youth, "and I'm simply looking at your nose." "Indeed! And is that necessary?" "O, yes. I have to keep my eye on ever thing that turns up."

BRITONS BEYOND THE SEAS

A BALLAD-BY HAROLD BEGBIE. "Beyond the Seas, Within the Fold."

God made our bodies of all the dust that is scattered about the world, That we might wander in search of home wherever the seas are hurl'd; But our hearts He hath made of English dust, and mixed it with none

That we might love with an endless love the land where our kings abide.

And tho' we weave on a hundred shores, and spin on a thousand quays, And tho' we are truant with all the winds, and gypsy with all the seas, We are touched to tears as the heart is touched by the sound of an ancient HOW A NATION GROWS At the name of the isle in the Western seas with the rose on her breast of

> And it's O for a glimpse of England, and the buds that her garden yields, The delicate scent which her hedges wind, and the shimmering green of her fields.

The roll of her downs and the lult of her streams, and the grace of her (from Protection and Prices, by dew-drenched lawns,
And the calm of her shores where the waters wash rose-tinged with her

And it's, O for a glimpse of London town, tho' it be thro' the fog and the The loud-thronged streets and the glittering shops, the pageant of pomp and pain; And it's, O for a sight, tho' it be a dream of the Briton's be a and

The cold, grey Abbey which guards our ghosts on Thames's sacred side. But. lo. we have buried our fathers here, and here we have reared our sons, These are our Britons, and here the word of the British people runs; Wherefore the while we call you Home, and dream of your gentle shires, We are rooted here by the smile of our babes and the pilgrim dust of our

Out of the grave our fathers reach dead hands to hold us here, And never we open the earth with tears but the land becomes more dear,to convey the impression that the only profitable trade is that with foreign That our sons shall be stronger our homes more fair when we so down That our sons shall be stronger, our homes more fair, when we go down to the dead.

> Loved, you are loved, O England, and ever that love endures: But we must have younger visions, and mightler dreams than yours; Cleaner Londons and wider fields, and a statelier bridge to span The gulf which severs the rich and poor in the brotherly ranks of Man.

Yet with the bolder vision, we cleave to you, look to you still, That you gather our scattered toil and bind our strength in a single will; That you build with us out of the coasts of the earth, a realm, a race, and

That shall govern the peace of the world and serve the humblest State in Haply we are but tools in the Hand of a Power we do not know, And not for ourselves we plough the waste, and not for ourselves we sow

Yet by the vision that leads us on to the goal of a single State, We are blest that our own great weal is woofed with strands of eterna Come, let us walk together, we who must follow one gleam, Come, let us link our labors, and tell each other our dream;

Shakespeare's tongue for our counsels and Nelson's heart for our task,-

Shall we not answer as one strong man to the things that the people ask

RUMORS DENIED

That Admiral Kaznakoff

Will Retire.

Said That the Admiral's Recall is Due Entirely to Condition of

His Health. ST. PETERSBURG, Dec. 30. - The rumors that Admiral Kaznakoff's retirement from the International Com Now a consideable part of the iron and mission of Inquiry into the North Sea incident is due to Captain Clado's loquacity in Paris, are denied both at

ever, we still import vast quantities admiral's recall is due entirely to the It is also intimated that Admiral Baron Von Spaun, of the Austro Hun garian navy, the fifth member of the commission, may also retire because his health cannot support the strain. The appointment of Vice Admiral Doubassoff to succeed Admiral Kaz-

W. J. OSBORNE, Fredericton, N. B. BOOMING IMMIGRATION

American Syndicate Purchases Large Block of Land in Canadian West for Colonization Purposes.

MONTREAL, Dec. 31,-The Canadian Pacific railway has sold for \$250,-000 to the American syndicate of Beiseker, Hoople & Sayer, fifty thousand acres of land east of Calgary, being half of the block set aside by the company this year as being too high for irrigation purposes. The plans of the syndicate include the location of hundreds of families adjacent to Calgary and the raising of winter grain and whaet. The syndicate which has already colonized a tract it secured from the C. P. R. along the Soo line, between Milestone and Assiniboia, has an elaborate system of agencies contributing to the movement into Canada of the best families in the western

LETTERS FROM THE PEOPLE.

afternoon at four o'clock of Miss Fran- Sir-In your issue of the 28th inst. a communication from Moncton refers to a deputation of liberals from Bathurst who waited upon the Hon. Mr. Emmerson. At the interview with the minister of railways nothing was said the presence of relatives and a few about Mr. Turgeon being under the friends, by Rev. John deSoyres, rector thumb of any politician, active or othfriends, by Rev. John deSoyres, rector thumb of any politician, active or oth-of St. John (Stone) church. The bride erwise. In short, Mr. Turgeon's name that each member of the deputation was a supporter of his and had voted for him at the last general election

Yours very truly, B. D. BRANSCOMBE. Bathurst, N. B., Dec. 29th. 1904.
