STRAWBERRY CROP.

There are several important insects which do severe damage to strawberry plants and greatly reduce the crop every year. In Bulletin No. 92 "The Strawberry and Its Cultivation in Canada," prepared by W. T. Macoun, Dominion Horticulturist of the Dominion Experimental Farm, and obtainable from the Publication Branch, Department of Agriculture, Ottawa, information on these insects is given, along with methods for their control. Common strawberry diseases and remedial measures as well as general instructions for the gardener who is interested in growing this fruit are also included in this bulletin. Occasionally the yield of fruit is severely reduced by the strawberry weevil. This is a small dark snout beetle which cuts off the blossom buds. Early varieties of strawberries appear most subject to serious injury. In addition to clean cultivation, protection may be obtained by coating the plants with a dust composed of one part (by weight) arsenate of lead and five parts finely ground sulphur.

BUY YOUR COAL NOW.

A survey of the coal situation by the Commission of Conservation proves that a coal shortage next winter, and possibly next autumn, is almost a certainty.

During the year ended May 24, the output of anthracite was only 1,679,000 tons. This production is 65,000 tons less than the week preceding, and is 326,000 tons less than the corresponding week in 1918. While the production is falling off, retail dealers in the United States continue to be deluged with orders from customers who are insistent upon prompt deliveries.

Up to June 7th of the present year, the total production of anthracite was only 33,349,500 net tons as compared with 42,858,000 tons in the corresponding period of 1918, a decline of 9 1/2 million tons, or 22 per cent. It is a fair assumption that the production during 1919 will be less than 80,000,000 tons, whereas the production in 1918 was 99,514,334 tons. If this prediction be verified, there will be a shortage of 20,000,000 tons, or 20 per cent.

The shortage is due to a number of causes, not the least of which is the migration of tens of thousands of Jugo-Slavs, Czecho-Slavs, Hungarians, Poles and other Europeans who are returning to Europe.

In addition, if there is such a serious shortage, we may confidently expect much higher prices for anthracite. Therefore, the Commission of Conservation advises consumers to purchase their winter supply of hard coal at the earliest possible date.

AUCTION SALES

Don't overlook the Auction Sale of all the Farm Stock and Implements of Mr. Asa Peterson, on Wednesday, July 16th at one o'clock.

Bull For Sale

Pure Bred Holstein Yearling Bull—Grandson of 30 lb. cow and 100 lbs. milk, won gold medal and sweepstakes at Toronto Exhibition—Price right, apply to Walter Taber, Athens, Ontario.

TENDERS FOR COAL.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Coal for the Dominion Buildings, Ontario and Quebec," will be received at this office until 12 o'clock noon, Friday, July 25, 1919, for the supply of coal for the Dominion Buildings throughout the provinces of Ontario and Quebec.

Combined specification and form of tender can be obtained at this office and from the Caretakers of the different Dominion Buildings.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, July 3, 1919.

ROD AND GUN FOR JULY.

Anyone reading "Fish, Fishing and Fishermen" by George R. Belton in **ROD AND GUN IN CANADA** for July cannot help thinking of the good old days when a bent pin, a piece of string and a willow switch made the best fishing tackle for shiners, chubs and rock bass. "The Albino Bass of the Ottawa" is the title of a real fishing story from the Dominion Capital which is one of the several good stories in the national outdoor magazine for July. The six illustrations showing the capture of a Newfoundland salmon are the best this year. They accompany a splendid article on the Humber, King of Atlantic Salmon Streams. The interesting departments, Guns and Ammunition, Fishing Notes, Conservation, Kennel and Trap are all up to their usual standard and along with the second instalment of that interesting serial, "The Bear of Silves Dale" go to make up one of the best summer issues of the Canadian national sporting monthly. **ROD AND GUN IN CANADA** can be obtained from any bookstand or direct from the publishers, W. J. Taylor, Limited, Woodstock, Ont.

It pays to paint and keep your home in good condition, a few pounds of good paint put on your house will mean dollars in your pocket—Save the surface and you save all.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Medicine is the positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Medicine is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.
