

# UNICEF

UNITED NATIONS CHILDREN'S FUND

The UNICEF Campus Ambassador program (UCAP) represents UNICEF in colleges and universities across Canada. UCAP started in Ontario and was introduced to UNB and STU by Ms. Kay Nandlall, UNB's International Student Advisor/CIDA Coordinator. Ms. Nandlall is a board member of UNICEF-NB and is the communication director, the liaison for UCAP to UNICEF-NB.

During their first meeting in late September UCAP elected to their slate of executives: Co-Presidents Nadia Nandlall and Katie Hovey; Co-Treasurers Anuj Gujar and Rose Kernighan; Secretary Shelley Huckins; Events Coordinators Elise Craft and Pam

UNICEF Campus Ambassadors Mark Bray photo

MacLean; and Publicity Coordinators Mark Bray and Paul Campbell.

In two months the members and executive have been busy with UNICEF Halloween fundraising and have oriented themselves with the aims of UNICEF and the work UNICEF is undertaking in underdeveloped countries. The members are also active

in promoting global education in the elementary and junior high schools in New Brunswick. UCAP members have a lot of fun while fundraising. For example: drawing scary faces on gourds (pumpkins) to the sounds of popular music. The pub crawl was another fun activity as well as the planned

evenings for members to get to know each other.

UCAP is also a medium through which one can share in the work of a prestigious international organization, develop marketable skills in management, organization, communications and marketing. It offers an opportunity to meet people with similar concerns and interests. If you have a few hours and are interested in joining UCAP please contact:

Katie Hovey 459-0233

Mark Bray 455-8133

Kay Nandlall 453-4860

## SUCCESS STORY

In the late 1970s, when vaccines reached only about 10% of the developing world's children, the international community set the ambitious target of 80% immunization by the end of 1990. The charts show the result of that ten year effort.

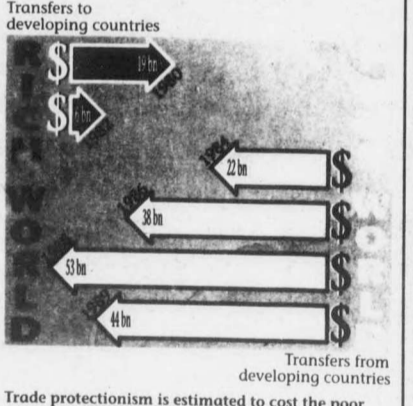

## FINANCIAL FACTS OF LIFE

**Arms, debt and people**  
About 40% of government spending in the developing world is devoted to the military and the servicing of debt. In some regions, this is twice as much as governments spend on health and education combined.

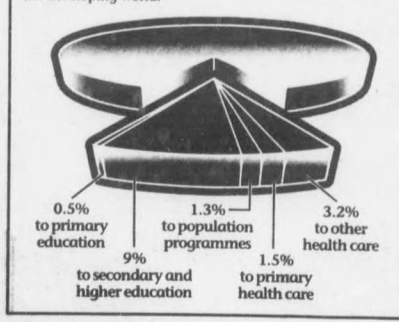

**Reversing the flow**

The chart shows the net financial transfers between industrialized and developing nations over the last decade. 'Net transfers' means all loans, minus all interest and capital payments on previous loans.

**Where aid goes**

Only about 15% of all aid goes to health and education (all levels) and to population programmes. Only about 2% goes to primary health care and primary education which are the most fundamental services for the poor majority of the developing world.

**By year 2000**

The goals agreed at the World Summit for Children would cost about \$20 billion a year. This sum could be found by reallocating 10% of military spending in the poor world and 1% in the rich world.
