

Brockville District Breeders' Holstein Sale

Avondale Farm's Offerings

We are offering eighteen head of choice things, all but two are young, 180 to four years, and nearly all officially tested. One of the aged cows (eight years old) has a 22 lb. record, while the young ones have up to 18 lbs. as two-year-olds. One fine pair of sisters are due about the time of sale and will return for testing. These are by Lord Carl De Kol, a son of Lord Netherland De Kol.

A 17-lb. daughter of Pietje 23rd's Woodcrest Lad, out of a daughter of the great Homestead Girl De Kol Saracotte Lad.

A daughter of Sir Prilly Walker. She has 16 1/2 record at 5 yrs. A 2-yr.-old daughter of a 27-lb. cow, and her dam a 24-pounder. She is a granddaughter of Homestead Girl De Kol Saracotte Lad and of Sir Clothilde.

There are a lot of others of same good breeding. Don't fail to see our offering of young bulls ready for service. One, 13 months old, is the strongest bred Pontiac and Kordyke bull in Canada, all his ancestors for five generations being entire of Pontiac, Kordyke and Homestead De Kol blood and strain. His dam is a 35.50 3-yr.-old daughter of Pontiac Kordyke, and his sire is a son of King of the Pontiacs.

A. C. HARDY, Proprietor

MARKETS

Toronto, Monday, Oct. 13.—Not in many years has there been an event that promised to affect Canadian markets to the extent of the recent changes in the tariff regulations of the United States. From every section of Ontario and down through Quebec and into the States, changes and trade movements due to this new tariff, Montreal, Toronto and Windsor are all making great preparations of stock to the United States. Detroit dairymen are said to be buying in the South-Western Ontario for supplies of milk and cream. A similar condition is said to rule in Eastern Canada. The one factor that stands out paragonically in this Canadian predicament, however, is that Canadian producers now have access to a new and almost unlimited market. They can produce in almost any quantity with the assurance that production will not overtake consumption, and this applies to every line in which tariff changes have been made. There has been much speculation as to what the ultimate effect of the tariff will be. The Farm and Dairy Marketman, with the assistance of the other editors of the paper, propose to investigate the new situation during the coming work week, visiting leading Canadian market centres and advertising sections of the results of our findings will be given in a special market news item.

Money seems to be loosening up somewhat and there is a fair supply available for legitimate purposes.

WHEAT

At both Canadian and United States points where receipts are recorded. Reports of the wheat crop in the Southern Hemisphere are also favorable, consequently the market has weakened. There is, however, a good trade moving for foreign demand. Quotations are: No. 1 Northern, 86c; No. 2, 85c; Ontario No. 1, 85c to 86c outside; 87c to 88c here.

The market for coarse grains has been quiet. Outside of a little flurry in oats in the early part of the week, the new tariff, trade has been normal. A considerable amount of oats has been moving across the line at the old duty, and shipments from now on will be greatly increased. Quotations are: Ontario, C.W. No. 1, 23c; No. 3, 30c; Ontario, C.W. No. 2, 32c to 35c outside; 35c to 37c track; corn, 75c to 76c; peas, 81c to 85c; rye, 60c to 63c; barley, malling, 55c to 57c; timothy, 10c to 11c; clover, 10c to 11c. Quotations are: Oats, C.W. No. 2, 40c; extra No. 1 feed, 39c to 40c; Quebec oats, 38c to 40c; corn, 78c; barley, malling, 65c; feed, 60c; peas, 81.85 to 82; rye, 75c; buckwheat, 35c.

MILL FEEDS

Following are ruling quotations for mill feeds: Bran, 82c to 82 1/2; shorts, 84c to 82 1/2; middlings, 83c to 82 1/2. Montreal quotations are: No. 2, 82c; shorts, 84c and middlings, 87c.

HAY AND STRAW

Tariff changes have not influenced the hay market. There is no change in present prices a little softer. Wholesale dealers quote as follows: No. 1 baled hay, \$12.50 to \$14 on track; No. 2, \$11 to \$13; No. 3, 8c to 9c; baled straw, 8c to 8 1/2c. Hay at Montreal has been much more active ever since the tariff changes became law. The price advances have not been as great as the great as the market here, but this is due to the fact that farmers were holding at longer prices than local needs justified in anticipation of tariff changes. Quotations now are: No. 1, \$14.50 to \$15; No. 2, \$12 to \$14; No. 3 and clover, \$10 to \$10.50.

EGGS AND POULTRY

It is not anticipated that tariff changes will have any influence on egg quotations as prices on the other side of the line are a trifle higher than on this side, though not sufficiently so to encourage export. Wholesale dealers quote new fresh laid to 14c; fresh, 28c to 30c; store, 25c to 30c. At Montreal dealers report that winter market for eggs has reduced activity in eggs, but prices have advanced one cent a dozen nevertheless. Dealers are paying 54c to 55c for eggs at country points with loss off. In the city new laid 8c to 8 1/2c.

Receipts of dressed poultry are increasing and generally the quality is anything but satisfactory. Wholesale dealers are: Dressed fowls, 12c to 15c; live, 8c to 11c; spring chickens, 15c to 20c; live, 14c to 17c; geese, 12c to 15c and 16c; ducks, 15c to 16c and 18c to 19c; turkeys, No. 1, 22c to 25c; No. 2, 20c; No. 2, 15c to 16c and 15c to 16c.

POTATOES AND BEANS

On an average the quotations on potatoes between United States and Canadian points in this area. Until the counter-measure is removed there will not be much trade with the United States. New potatoes are quoted at 1.25 for 100 lbs. The ruling price at Montreal is 70c a bushel. Bean quotations are: Prime, 87 1/2 to 82 1/2; No. 1, 85 to 80; No. 2, 80 to 75.

Wholesale quotations are: Apples, bkt., 25c to 35c; bbl., \$1.50 to \$3; grapes, 6qt.

CREAM WANTED

J. W. BAILEY, Hagersville Station, Naber P.O., Ont.

CHEESE MARKETS

bbt. 35c to 39c; pe. 30c; tomatoes, 20c to 25c; cantaloupes, 10c to 15c; peaches, 10c to 15c. DAIRY: Reports of United States dairymen have affected the price of the blue-vein local product. The average of the creamery prices, 17c to 18c; inferior, 30c to 35c; new large, 14c to 15c; old large, 11c to 12c.

LIVE STOCK

Chicago cattle, for the week ago. Retail price a pound, and amount of reduction to country, and on a higher than the previous week. Buffalo prices were American buyers of the market and are like country. Quotations: Export, choice, 87c to 87 1/2; butch. 87 1/2; common to good, 85c to 86c; stockers, 83 1/2 to 84 1/2; common butch. 84c to 85c; springers, 84c to 85c; veal, 85c to 86c; hams, 85c to 86c; small calves, 87c to 88c; 2-yr. olds, 84c to 85c; calves, 82c to 83c; hogs, 82c to 83c; sheep, 82c to 83c; chickens, 82c to 83c; ducks, 82c to 83c; geese, 82c to 83c.

MONTEAL

Montreal, Saturday, provision trade was quiet. The market for eggs being about steady. There was a slight increase in the price of coming forward. There was no active demand from packers, and lots were made at straight prices. Eggs were 82c to 83c; chickens, 82c to 83c; ducks, 82c to 83c; geese, 82c to 83c.

EXPORT CHEESE

Montreal, Saturday, a decided break in the milk week, owing to the fact that the Great West dropped to as low as 12c, and that in some places the highest price actually this season of the year, but as there is unusual activity for September, but as the market is so quiet, it is not likely that the price will be raised. The part of British import, who are not in the market, have allowed the market to remain at the present level. It is not likely that any attempt to raise the price will be successful. The market is so quiet that the price is not likely to be raised. The price of milk is 12c to 13c; cream, 14c to 15c; butter, 16c to 17c; cheese, 18c to 19c; and other products, 20c to 21c.

PRINCE MALTA DE KOL, 10890

READ ABOUT HIM—Prince Malta De Kol, No. 10890. Born March 7th, 1911. A son of Prince Abbecker Mercena (3 A.R.O. daughter), a son of Mercena Schulling, 23 1/2 lb. butter in 7 days—also being the best daughter of Mercena 3rd—butter, 27 1/2 lbs. grand sire, Prince Abbecker Pauline, being a son of Tidy Abbecker—butter, 27 1/2—also a great transmitting cow. She was the dam of two daughters over 27 lbs. This latter bull, Prince Abbecker Pauline, was grand champion at Canadian National and Ottawa Exhibitions, 1913.

DAM—Malta Pletier De Kol, butter, 17.06.

This was a cow of exceptional quality, and no doubt would have made a large record, but unfortunately died of milk fever. She was a sister to the sire of Mollie Lyons 2nd—butter, 25.42, and to Eudra Alewin 2nd—butter, 25.13.

THIS BULL

honors for three consecutive years at both Toronto and London. But he must be sold as he has headed my herd for 3 years.

Now don't write and ask questions about this animal. You know him. Just simply send a cheque for \$200.00 and we will ship you the bull. Address:

GORDON S. GOODERHAM MANOR FARM BEDFORD PARK, ONT.
