

All That a Concrete Machine Should Be

EVERY separate feature of the Ideal Concrete Block Machine has been brought to the highest possible standard of labor saving and profit making. The result is a machine of little cost, but wonderful money-making possibilities.

The Ideal "Down-Face" principle is the only practical, satisfactory and rapid process of concrete block manufacture, and is *protected by a basic patent*. No other machine on this principle can be legally made, sold or used.

The Ideal Concrete Machine is made practically universal in variety of size, shape and design of blocks by interchangeable accessories and attachments.

IDEAL CONCRETE MACHINES

(INTERCHANGEABLE)
VARIOUS SIZES

Marvelously simple, durable and strong. Not a spring, chain or gear in its construction. Can never wear out or break in use. May be operated by a boy.

"Ideal" catalogue, a practical encyclopædia of concrete block manufacture, sent free on application. Of special value to builders and dealers in building materials.
