## Questions and Answers. Miscellaneous.

### Flax.

How should flax seed be sown? J. M.

Ans.—It is customary to sow it broad-  
cast in the spring on well-prepared land.  
It is frequently sown on new land. The  
yield depends a good deal on the soil  
and the season. In many localities the  
yield this year was very poor.

### Weight of Bushel of Turnips.

How many pounds are there in a  
bushel of turnips? Some buyers claim  
there are fifty. T. B.

Ans.—According to the official weights  
of vegetables, the Dominion standard  
for turnips is 50 lbs. per bushel.

### Foxtail for Feed.

1. Is foxtail seed of any value as feed  
for stock? R. H. M.

Ans.—Foxtail would possibly have  
some feeding value, but just how much  
we are not in a position to say, as we  
have not the analysis of foxtail seed at  
hand. A considerable quantity of this  
seed is used as stock feed, as it is embodied  
in screenings which are sold for feed.

### Mounting Birds.

What is the recipe for making the  
composition for mounting birds and  
animals? J. W. T.

Ans.—By writing the North West  
School of Taxidermy, 508 Elwood Build-  
ing, Omaha, Neb., you would be able to  
secure full instructions as to the composi-  
tion for mounting, and other details of  
the work.

### Preventing Rust.

What can we put on a range to prevent  
it from rusting? What is best to clean  
nickel with? G. S.

Ans.—Going over the range with a  
cloth moistened with coaloil will help  
to remove the rust. Some of the black  
stove enamels would give the stove a  
new appearance, but the trouble with  
this material is that it soon burns off.  
There are nickel polishes which may be  
secured at most hardware stores.

### Difficult Urination.

For two months one of my cows has  
had to strain very hard to pass urine.  
She voids little and often and sometimes  
it is a very dark color. A. C. B.

Ans.—There may be a calculi (stones)  
in the bladder. If so a veterinarian  
might be able to remove them, but the  
administration of drugs would be use-  
less. If the trouble is due to irritation  
of the mucous membrane the administra-  
tion of 2 oz of the tincture of hyoscyamus  
in a pint of cold water as a drench 3  
times daily should give good results. V.

### Pumpkins for Feed.

1. Is there a pure-bred blaek sheep?  
Where could they be purchased?  
2. Are boiled pumpkins good for  
small pigs? Are they as good as turnips?  
Are pumpkins good for milch cows?  
Would they be of any use for hens? T. K.

Ans.—1. We do not know of a pure-  
bred black sheep.

2. They are very seldom fed to small  
pigs, but should be as good as turnips.  
Some feed a considerable quantity of  
pumpkins to cows, with satisfactory  
results. We doubt if hens would eat  
pumpkins.

### Wintering Cattle.

1. What is it worth per month to  
winter cattle on straw and turnips?  
2. I have a driving mare that scours  
when driven seven or eight miles. She  
is fed on clover hay and oats. R. K.

Ans.—1. With the present shortage  
of feed, it is rather difficult to put a  
fair estimate on the cost of wintering  
cattle. A couple of years ago, we know  
of several lots that were wintered at  
\$2.50 per head per month, but with  
the scarcity of both roots and straw  
in many sections, we imagine that the  
price would be considerably higher this  
winter.

2. Two ounces of laudanum and 4  
drams each of catechu and prepared  
chalk is given every four hours until the  
diarrhoea ceases. Adding lime-water to  
the drinking water is sometimes effective.  
The clover hay may be one cause of the  
trouble, although clover is fed very  
satisfactorily to some horses.
